ITEM 5  ACTION AND PRESENTATION ITEMS

a) Actuarial valuation of Other Post-Employment Benefits (OPEB) (Zimmerman/Bolton Partners)
Secretary-Treasurer Zimmerman introduced Kevin Binder, Senior Actuary from Bolton Partners to present the annual actuarial valuation of the 115 Trust. Secretary-Treasurer Zimmerman noted the 115 Trust Committee made a recommendation to adjust the employer contribution to the fund for fiscal year 2021. Mr. Binder introduced Tim Barry, Consulting Actuary of Bolton Partners, who worked on the valuation and the resulting recommended adjustment.

Mr. Binder reviewed actuarial valuations between 2018 and 2019, explaining that shifts in contribution levels were due to various factors including increases in medical costs, the discount rate, and other actuarial assumptions. The recommended employer contribution level is intended to maintain a stable trust balance.

Commissioner Fani-Gonzalez thanked Mr. Binder and Mr. Barry for the actuarial work and input during the 115 Trust meetings.

b) Budget transfer between Chief Information Officer (CIO) and Commission-Wide Information Technology (CWIT) Internal Service Funds (Kroll/Zimmerman)
No discussion.

ACTION:  Motion of Commissioner Washington to approve the transfer
Seconded by Fani-Gonzalez
The motion was unanimously passed

c) Resolution 19-23, Approval of the Fiscal Year 2021 Proposed Operating and Capital Budgets of the Maryland-National Capital Park and Planning Commission (Chiang-Smith/Kroll):
Corporate Budget Director John Kroll presented the Proposed Fiscal Year 2021 Budget. He noted minor changes to the packet schedule and memo. Changes included minor corrections to the proposed budget amount to Capital Equipment in the staff report; and minor corrections to the Capital Equipment Fund and Group Insurance Fund totals. Mr. Kroll noted the majority of the report has already been before the respective Planning Boards for their input and review.

Mr. Kroll discussed revenue from property taxes. He said the Prince George’s County budget is within the tax rate, but the Montgomery County budget requires a tax rate increase due to actual property tax revenue not meeting projections for the 3rd consecutive year. Montgomery County addressed this shortfall by increasing income tax. No revenue increase in Montgomery County is currently projected for Fiscal Year 2021. The County will be providing direction to the M-NCPPC between now and March.
General Counsel Gardner clarified that the minor changes that Mr. Kroll had described did not impact Resolution 19-23 in the originally published packet.

ACTION:  Motion of Commissioner Washington to approve Resolution 19-23, noting the changes in supplemental material.
    Seconded by Patterson
    The motion was unanimously passed

d) Resolution 19-24, Amendment to the Employees’ Retirement System Fiscal Year 2020 Operating Budget (Rose)
    No discussion.
    ACTION:  Motion of Commissioner Cichy to approve Resolution 19-24.
    Seconded by Bailey
    The motion was unanimously passed

    Chair Hewlett praised and congratulated Secretary-Treasurer Zimmerman and his staff on receiving the GFOA Certificate of Achievement for the CAFR for the Fiscal Year that ended June 30, 2018. This award marks the 45th recognition for the agency and represents a significant accomplishment by a government agency and its management. The M-NCPPC is tied with Chicago Metropolitan Water Reclamation District for the greatest number of times an agency has been awarded with this certificate.

    Secretary-Treasurer Zimmerman introduced his team that worked on the Fiscal Year 2018 CAFR, as well as those who are working on the CAFR for Fiscal Year 2019.

f) Prince George’s County zoning rewrite update (Checkley)
    Prince George’s County Planning Director Andree Checkley introduced Acting Deputy Director Derick Berlage, who presented on the history and development of the new 21st century Prince George’s County zoning ordinance. Deputy Director Berlage said the zoning ordinance has been approved by the Prince George’s County Council and is scheduled to take effect in 2020. He described county’s demographics and the transformative changes the county has seen over the past decade in transportation, job growth, and infrastructure growth. These improvements occurred despite the obsolescence of the old zoning code which had become far too complex.

    At the direction of the Prince George’s Planning Board and County Council, and from the input of the community, the Planning Department began to update the code 5 years ago. This process included more than 400 community meetings and social media campaigns to involve stakeholders. Two documents served as the foundation for the new code – the new General Plan, titled Plan 2035, and the new Economic Development Plan. The new ordinance code was designed to be interactive and user-friendly with flowcharts to supplement the text.

    The number of zone types were reduced from 73 to 43, uses were reduced from over 1,000 to fewer than 250, and the overall page count was reduced by half. Other major changes include defining new mixed-use zones. There are still zones designed for single-use, but all other zones in the new code allow for a variety of uses. Innovative new zones include Commercial/General Office Zones, which upgrades the old “office park” and “strip mall”
type zones of the late 20th century to mixed-use zones. Transit-Oriented Development (TOD) and Town Center (TC) zones include accommodation for pedestrians, high-quality design, and close-to-street buildings. All zones will be laid down on transit station areas, based on the General Plan approved 5 years ago. The General Plan flows naturally into the new zones.

Deputy Director Berlage described other aspects of the new zones, including Form and Design Standards, Green Building Standards and reduced parking minimums to reflect the more pedestrian-friendly TOD and TC Zones, particularly in higher-density areas inside the Capital Beltway.

The approval process of zoning rewrites in Prince George’s County differs from the process in Montgomery County. Prince George’s County follows a two-step approval process. The County has approved the code and the 43 new defined zones. Now that the zones are approved, the final step is to conduct a massive remapping of more than 300,000 properties across the entire county. It is a complex, technical process. The remapping will be coordinated with one last push of community engagement to explain the new zones, including a visual guide. The visual guide will include descriptions of the transitions as most properties in the county will transition to new zones. The project, which started in 2014 and runs through 2020, will culminate with approval of the Countywide Map Amendment, resulting in even more positive development in Prince George’s County.

Chair Hewlett thanked Director Checkley and Deputy Director Berlage, adding the team did a spectacular job, particularly considering that an election took place in the middle of the process. Commissioner Cichy also complimented the team, adding the agency may have an opportunity to get surplus land right-of-way from abandoned Department of Transportation projects. He said if the State abandons a transportation project, legislation allows a local jurisdiction to acquire at no cost, state land associated with such a project if it is used for transportation purposes (e.g., a fire station serves the needs of drivers). Under the new TOD Zoning, the agency might be permitted to receive transferred surplus state property for housing or affordable housing projects. Deputy Director Berlage indicated his team would investigate that possibility. Commissioner Cichy added the M-NCPPC’s new Executive Director was employed by the Department of Housing and Community Development and might be an asset in that area.

- PG/MC 101-20 General Counsel recommend supporting the legislation;

General Counsel Gardner indicated that this clarification is being addressed and will be available for Commissioners and staff.
• PG/MC 105-20 General Counsel recommend supporting the legislation;
• PG/MC 108-20 General Counsel recommend opposing or holding the legislation, requiring the M-NCPPC to undertake a pilot program for math, reading and science; General Counsel Gardner explained the project should be assumed by the school system rather than M-NCPPC. ITEM 4  MANAGER REPORTS/PRESENTATIONS

Wilshire Associates
Presentations by Bradley A. Baker, Managing Director and Martell McDuffy, Senior Analyst

Wilshire conducted an emerging market debt (EMD) fixed income manager search. At its November 5, 2019 meeting, the Investment Monitoring Group (IMG) reviewed the top EMD managers and selected three finalists, PGIM, TCW, and Payden & Rygel, to present to the Board. The ERS is looking for a hard/local currency strategy. The initial asset allocation is a 5% dedicated allocation (approximately $50 million).

MS. MILLAR arrived at 9:18 a.m.

PGIM
Todd Petersen, Emerging Market Debt Portfolio Manager and Kwad Acheampong, Vice President Client Advisory presented PGIM’s Emerging Markets Hard/Local Currency Blend Strategy that is a blend of hard/local currency, including corporate debt. PGIM was established in 1984; is headquartered in Newark, New Jersey with four global offices. PGIM has 888 employees worldwide, including 298 investment professionals, of which there are 126 portfolio managers (includes senior executives, investment strategists and product managers), 118 fundamental research analysts, and 54 quantitative analysis and risk management analysts. As one of the largest fixed income managers, PGIM manages $838 billion in assets under management with $26 billion in the Emerging Markets Hard/Local Currency Blend Strategy.

PGIM began managing emerging markets strategies in 1996 and investing in local markets in 2003. The EMD investment team includes 35 specialists in portfolio management, economics/sovereign analysts, and corporate credit with an average of 12 years with the firm and 17 years investment experience.

PGIM believes what makes them different is their strong track record since 1996 from diversified sources of alpha; a well-resourced investment management team with extensive experience and tenure; and, a deep culture of risk management, quantitative research, and bottom up credit research with an independent risk management/quantitative research team of 54 and an extensive credit research team of 86. One hundred percent of research is generated internally with external perspectives incorporated. Proprietary sovereign analysis incorporates Environmental, Social, and Governance (ESG) assessments.

Performance for this strategy has been strong and consistent through various market cycles since inception with positive alpha generated in down market environments.

MS. MILLAR arrived at 9:18 a.m.

DECEMBER 3, 2019 MINUTES, AS APPROVED, AT THE JANUARY 7, 2020 BOARD OF TRUSTEES MEETING
TCW
Brian K. Dwyer, Senior Vice President Institutional Marketing; Penny Foley, Group Managing Director and Portfolio Manager; and, Dave Robbins, Group Managing Director and Portfolio Manager presented TCW’s Emerging Markets Fixed Income Total Return Strategy. This strategy encompasses hard currency sovereign debt, corporate debt (15-35% of the portfolio), and local currency (0-30% of the portfolio). TCW was established in 1971; offers a broad range of products across fixed income, equities, emerging markets, and alternative investments; is headquartered in Los Angeles, California with four other offices in the United States and four global offices; and, has 600 employees worldwide. TCW manages $211 billion in assets under management with $16.8 billion in the Emerging Markets Fixed Income.

TCW began managing emerging markets in 1994. The EMD Investment team has three portfolio managers with over 33 years of experience in emerging markets investing and an average of 21 years with the firm, seven sovereign research analysts, five corporate research analysts with long-standing contacts in more than 80 countries, three traders, and a portfolio specialist.

TCW takes a total return, benchmark-aware approach to investing with top-down/bottom-up fundamentals research and a strong focus on risk management which includes monitoring and quantifying ESG risk on a monthly basis.

This strategy has one of the longest track records in the industry. It has performed well historically but tracking error has increased in recent years as corporate issuance has grown. Wilshire Associates reports this increased tracking error is not uncommon in total return emerging market products because there are no benchmarks that include the full emerging market opportunity set.

Payden & Rygel
Beth Westvold, CFA, Principal; Damon Eastman, CFA, Principal; and, Vladimir Milev, CFA, Senior Vice President presented Payden & Rygel’s Emerging Market Debt Strategy. This strategy invests in the broad EMD universe, including all sovereign, quasi-sovereign, corporate, and local bonds issued in emerging market countries. Payden & Rygel was established in 1983; manages bond and equity portfolios including mutual funds; is headquartered in Los Angeles, California with an office in Boston, and two global offices; and, has 200 employees worldwide. Payden & Rygel manages $119 billion in assets under management with $11.9 billion in the Emerging Market Debt Strategy.

Payden & Rygel began managing emerging market bond strategies in 1998. The firm is 100% employee owned by 30 shareholders with majority ownership held by women. The firm’s executive management team have been working together, on average, for nearly 25 years. The EMD strategies team is led by two portfolio managers who are supported by three strategists and six analysts. The head of EMD strategies has lead the team since inception in 1998. Multiple members of the EMD team have been at the firm for over 10 years. This is one of the longest tenured teams in the EMD space with little turnover.

Payden & Rygel offers customized portfolios. They believe their willingness to tailor portfolios, rather than offering a standard product, sets them apart from many of their peers. Some distinguishing features of their EMD strategy as presented by Payden & Rygel include: an excellent long-term track record under the same leadership with top quartile absolute and risk-adjusted returns across market cycles; steady leadership, consistent growth, and low turnover; search for value across dollar-pay and local markets; ability to allocate meaningfully to smaller countries; experienced analysts delivering objective investment analysis; and, exceptional reporting and communication.

MS. GOGOL left the meeting at 12:03 p.m.

The Board discussed the differences of the three firms in terms of risk, return, scale, and fees.
ACTION: MS. MILLAR made a motion, seconded by MR. ZIMMERMAN to approve PGIM as the new Emerging Market Debt Fixed Income manager. The motion PASSED unanimously (6-0-1) MS. CHIANG-SMITH abstained from voting. (Motion #19-63)

The Board was provided with an Executive Summary of Investment Performance for the quarter ending September 30, 2019 and Mr. Baker reported on the fund’s performance. The ERS’ total fund return was 1.0% (net of fees) for the quarter, outperforming the target policy index return of .9%. For the one, three, five, and ten-years ended September 30, 2019 the ERS fund return was 5.6%, 8.8%, 6.5%, and 8.2%, respectively, compared to the target policy return of 5.1%, 7.6%, 5.9%, and 7.5%, respectively. The total market value through September 30, 2019 was $980.8 million.

MEMORANDUM

January 8, 2020

TO: The Maryland-National Capital Park and Planning Commission

VIA: Gwen Wright, Director, M-NCPPC Montgomery County Planning

FROM: David Anspacher, Transportation Supervisor, M-NCPPC Montgomery County Planning

RE: Nomination of Eli Glazier to the Maryland Bicycle and Pedestrian Advisory Committee

Recommendation

Nominate Eli Glazier of the Montgomery County Planning Department to be the Commission’s representative on the Maryland Bicycle and Pedestrian Advisory Committee.

Background

The Maryland Bicycle and Pedestrian Advisory Committee (MBPAC) was formed in December 1991 as the Bicycle Advisory Committee. In July 2000, the Committee became the Bicycle and Pedestrian Advisory Committee. The Committee advises State government agencies on issues directly related to bicycling and pedestrian activity including funding, public awareness, safety and education (Code Transportation Article, sec. 2-606).

The twenty-two member committee is appointed by the Governor, combining the experience of citizens with the expertise of representatives from nine State agencies. Committee members represent geographical regions throughout the State and specific interests, including those of visually and mobility impaired individuals. The agency representatives include one member from the Maryland-National Capital Park and Planning Commission. Each term is four years and at the end of a term, the member continues to serve until a successor is appointed and qualifies.

Montgomery County and Prince George’s County have traditionally alternated membership on the MBPAC. Fred Shaffer of the Prince George’s County Planning Department represented the Commission on the MBPAC starting in 2011. Mr. Shaffer completed his term in 2015 and continued to represent the Commission until the time of his retirement at the end of 2019. The Maryland Department of Transportation (MDOT) has requested that the Commission nominate a new representative. Once the Commission has nominated this individual, an online application with the Governor’s Appointment Office is completed. After the review of the application is complete, the representative receives formal notification of their appointment to MBPAC by the Governor.
Qualifications of Eli Glazier

The Montgomery County Planning Department would like to nominate Eli Glazier to be the Commission’s new representative on the MBPAC. Mr. Glazier has been a Transportation Planner Coordinator for the Montgomery County Planning Department since August 2018. In this role he is managing the development of Montgomery County’s first pedestrian master plan to improve the safety and comfort of walking for people of all ages and abilities. Previously, Mr. Glazier was employed by Toole Design Group, a nationally recognized firm focusing on bicycle and pedestrian issues, where he worked on numerous bicycle and pedestrian projects, including Montgomery County’s Bicycle Master Plan.
