THE MARYLAND-NATIONAL CAPITAL PARK AND PLANNING COMMISSION

6611 Kenilworth Avenue • Riverdale, Maryland 20737

February 27, 2026

Commissioners and

Residents of Montgomery and Prince George's Counties:

The Annual Comprehensive Financial Report (Report) of The Maryland-National Capital Park and Planning Commission ("the Commission") for the fiscal year ended June 30, 2025 is hereby submitted. This Report was prepared by the Commission's Finance Department, in accordance with the Land Use Article of the Annotated Code of Maryland, Sections 15-115 and 15-116. Responsibility for the completeness and reliability of all the information presented, including all disclosures, rests with the Commission. I assert that to the best of my knowledge and belief, the data, as presented, is accurate in all material respects and is reported in a manner designed to present fairly the financial position and changes in financial position of the governmental activities, business-type activities and various funds of the Commission in accordance with Generally Accepted Accounting Principles (GAAP) in the United States of America. All disclosures necessary to enable the reader to gain an understanding of the Commission's financial activities have been included.

To provide a reasonable basis for making these representations, management of the Commission has established an internal control structure designed to ensure that the assets of the Commission are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the evaluation of costs and benefits requires business judgment by management.

State statutes require an annual audit be conducted by independent Certified Public Accountants. The Commission selected the accounting firm SB & Company, LLC to perform the audit. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Commission for the fiscal year ended June 30, 2025 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent public accountants concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Commission's financial statements for the fiscal year ended June 30, 2025 are fairly presented in conformance with GAAP. The independent public accountants report is presented as the first component of the Financial Section of this Report.

This year the Commission is not required to undergo a Single Audit in conformity with the provisions of the Title 2 United States Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. The Commission is required to file a Uniform Financial Report with the Maryland State Department of Legislative Services by January 1 of each year.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

The Commission

The Commission is a body corporate of the State of Maryland established by the Maryland General Assembly in 1927. The Commission is a bi-county agency serving both Montgomery and Prince George's Counties. It is empowered to acquire, develop, maintain and administer a regional system of parks in the defined Metropolitan District in Montgomery and Prince

George's Counties, and to prepare and administer a general plan for the physical development of a defined Regional District for the two Counties. The Commission also manages the recreation programs for Prince George's County.

The annual budget serves as the foundation for the Commission's financial planning and control. The Commission maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Montgomery County and Prince George's County governments. Activities of the General Fund, which include a transfer for debt service expenditures, are included in the annual appropriated budget. Project length financial plans are adopted for the Capital Projects Funds. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established within each individual account in the General Fund. Budget-to-actual presentations for all five accounts of the General Fund are presented in Note 6 in the basic financial statements.

The Commission maintains an independent Inspector General's Office (OIG) that reports to the Commission's Audit Committee. The OIG staff perform internal audits throughout the Commission's offices and facilities. All internal control evaluations occur within the above framework. We believe that the Commission's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Factors Affecting Financial Condition

The Commission's financial condition is positive as a result of a stable primary revenue source, property taxes, and the Commission's conservative fiscal management policies. The assessable base increased in both Prince George's County and Montgomery County in FY 2025. Collections, including interest and penalties as a percent of the levy, are consistently above 99%. The Commission prepares financial projections to help guide current year expenditures based upon anticipated revenue sources. In addition, the Commission maintains a comprehensive fund balance policy to provide a cushion against unforeseen expenditures or revenue shortfalls in each fund. As of June 30, 2025, the Commission's General Fund budget basis ending fund balance was \$276.7 million and was within policy guidelines for each fund.

Along with the Commission's internal financial management policies, spending affordability guidelines continue to be provided by Montgomery County Government for the Commission's Montgomery County operations, and by a Spending Affordability Committee for the Commission's Prince George's County operations.

Montgomery and Prince George's Counties are adjacent to Washington, D.C. and both counties have an economic base that is centered on vital government bureaus, major corporations and higher educational institutions. Maryland ranks second as the wealthiest state in the nation (behind the District of Columbia), according to the latest 2023 U.S. Census data. The State's median household income for 2024 was \$102,905, an increase of \$1,253 from the previous year.

Like other jurisdictions across the nation both counties are impacted by the current fiscal environment. As of June 30, 2025, the nation's unemployment rate remained at 4.1 percent, whereas Montgomery and Prince George's rates were 3.6 percent and 4.2 percent, respectively. These counties have maintained a combined population base of approximately 2.0 million people and have approximately 1.0 million employed as of fiscal year 2025.

More detailed information on the financial outlook is provided in the Management's Discussion and Analysis section of this Report.

Long-term Financial Planning

The Commission prepares a six-year projection of results for its Prince George's County operations, which is reviewed with the Prince George's County Spending Affordability Committee. A high-level long-term plan is prepared for its Montgomery County operations by Montgomery County government, with Commission input.

The Commission's fund balance policy requires a minimum of 3% for Montgomery County, and 5% for Prince George's County FY2025 expenditures to be maintained for contingencies.

There are significant unassigned fund balances in Prince George's County (\$220.4 million) which are planned to be used over the six-year period to maintain stable tax rates for the Commission in that county.

Major Initiatives

The Commission enjoyed an excellent program year in fiscal year 2025. The major accomplishments of the Commission are set forth in the Program Highlights section of this Report.

Other Information

Awards. For the 52nd consecutive year, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Commission for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2024. The Commission has received this award continuously since fiscal year 1973. In order to be awarded a Certificate of Achievement, the Commission must publish an easily readable and efficiently organized Report. This Report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another Certificate.

In addition, the Commission also received the GFOA's Award for Distinguished Budget Presentation for its annual budget for fiscal year 2025. The Commission has received this award continuously since fiscal year 1987. In order to qualify for the Distinguished Budget Presentation Award, the Commission's budget document was judged to be proficient in several categories including policy documentation, financial planning and organization.

Acknowledgments

The preparation of this Annual Comprehensive Financial Report on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the Department and other staff throughout the Commission, as reflected on the Acknowledgments page of the Report, has my sincere appreciation for the contributions made in the preparation of this Report. I would also like to thank and express my appreciation to the Commissioners for their interest and support in planning and conducting the financial operations of the Commission in a responsible manner.

Respectfully submitted,

Gavin Cohen

Financial Report
For the Fiscal Year Ended

June 30, 2024

Christopher P. Morill

Executive Director/CEO

Commission Background and Organization

The Maryland-National Capital Park and Planning Commission is a body corporate of the State of Maryland, established by the Maryland General Assembly in 1927. The laws governing the Commission were codified in 1959, recodified in 1975 to be Article 66D of the Annotated Code of Maryland and again in 1983, to be Article 28. As of October 1, 2012, Article 28 of the Annotated Code of Maryland is recodified under Division II, Land Use Article, Maryland Annotated Code.

The Commission is a bi-county agency, empowered to acquire, develop, maintain and administer a regional system of parks in a defined Metropolitan District within the Maryland Counties (Montgomery and Prince George's) adjacent to the District of Columbia. The Commission is also empowered to prepare and administer a general plan for the physical development of a larger Regional District in the same area.

As development and urbanization of the area have progressed, the two Districts have been enlarged by the General Assembly. They now embrace all of Maryland's Montgomery and Prince George's Counties, except for certain incorporated municipalities in each County and, for the Metropolitan District only, Election Districts No. 4 and No. 8 in Prince George's County.

Responsibility for public recreation in Prince George's County and the County Recreation Department was transferred to the Commission in July 1970 as a result of legislative action. This legislation provided that taxes to support recreation be imposed County-wide and that the County Council may require the Commission to institute new recreation programs. The County Executive appoints a Parks and Recreation Advisory Board, which works closely with the Commission in setting policy.

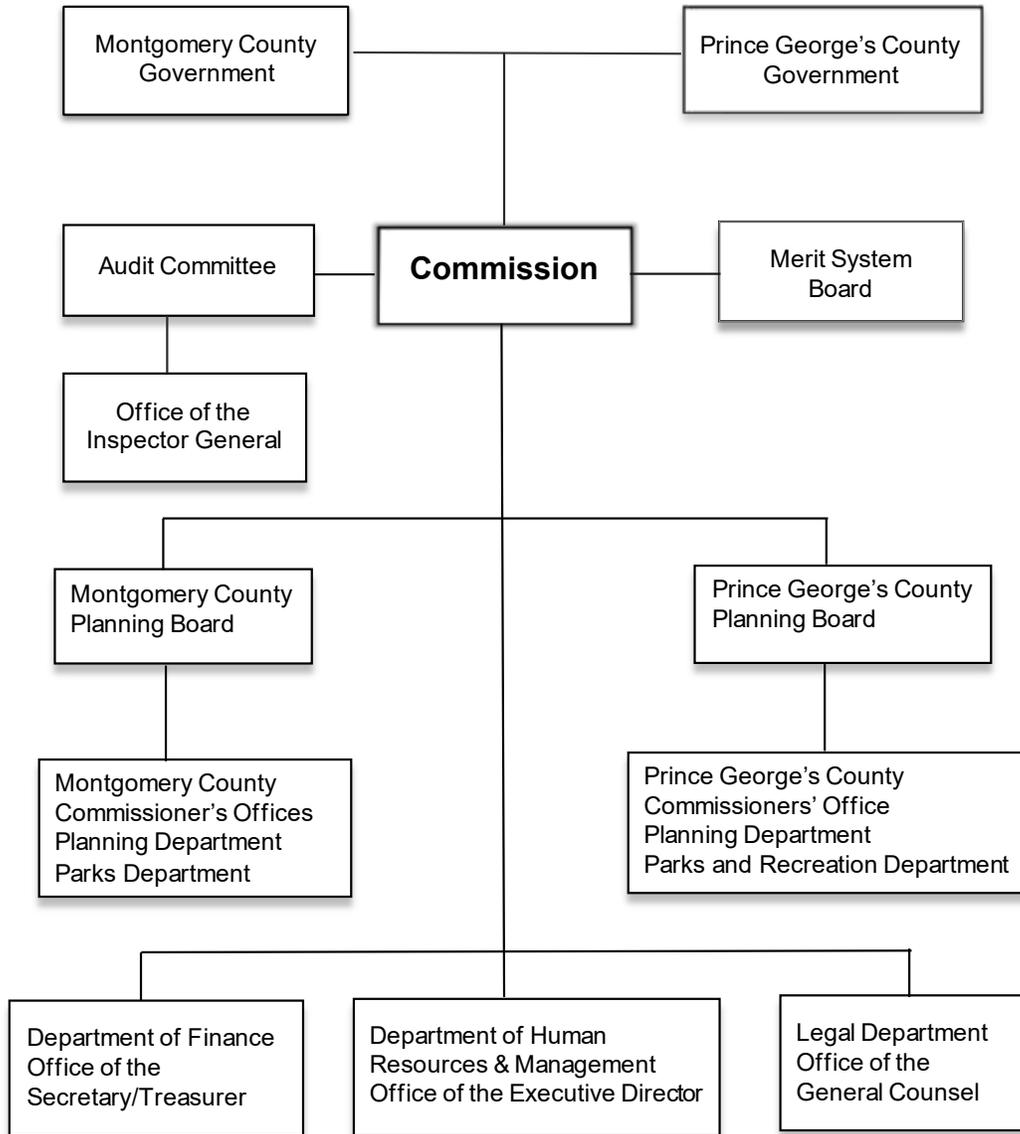

The Commission consists of ten members, five appointed by Montgomery County and five by Prince George's County. In Montgomery County, all five of the Commissioners are appointed by the County Council and confirmed by the County Executive. Montgomery County Commissioners may not be appointed for more than two consecutive terms. In Prince George's County, all five of the Commissioners are appointed by the County Executive and confirmed by the County Council. Each County designates one of its' Commissioners for the position of Chairman of their respective Planning Board. The Commission elects one of such designees as its Chairman and the other as its Vice-Chairman. Under the Commission's rules of procedure, the Chairmanship and Vice-Chairmanship of the Commission rotate annually between the two designees. Terms of office are staggered and no more than three members from each County may belong to the same political party.

The Commission coordinates and acts on matters of interest to both Counties. Two regional offices are maintained, one in each County. The Commission meets once each month regularly, the site of the meetings alternating between the two regional offices. The members of the Commission from each County serve as separate Planning Boards to facilitate, review and administer the matters affecting only their respective County. To carry out their functions, the County Planning Boards meet at least once a week. The County Councils set priorities for the Planning Boards' park and planning operations through their annual determination and periodic review of the Commission's operating and capital improvement budgets and work programs.

The Commission administers a park system that currently contains over 67,600 acres. It is composed of stream-valley parks, large regional parks, neighborhood parks and park-school recreational areas. At June 30, its staff consisted of over 2,700 career employees - planners, park and recreation administrators, park police and administrative staff. In addition, it employs approximately over 4,400 seasonal workers, primarily for its numerous park and recreation programs.

The operating and administrative functions of the Commission are financed primarily by property taxes levied for the Commission by the two Counties. The Commission has the authority to sell general obligation bonds to fund approved park acquisition and development projects.

**THE MARYLAND-NATIONAL CAPITAL PARK
AND PLANNING COMMISSION
ORGANIZATION CHART**

Fiscal Year 2025 Program Highlights Summary

The Maryland-National Capital Park and Planning Commission (M-NCPPC) provides award-winning services and programs to our bi-county region of over 2 million residents within diverse communities. The Commission continued its mission to manage physical growth, plan communities, protect and act as stewards of our bi-county region's natural, cultural, and historic resources, and provide experiences through parks and recreational services and programs. This fiscal year, the Commission focused on continuing to engage its communities through inviting participation in planning processes, parks activation events, and recreation programs. The Commission's four departments also worked to advance equity through their work through outreach strategies, policies, and plans that meet the needs of residents. Highlights of FY 2025 from across the Commission included the acquisition of new park land, working to find solutions to address the region's housing crisis, and implementing placemaking efforts and innovative programming initiatives in Montgomery and Prince George's counties.

Prince George's County Department of Planning

The Prince George's County Planning Department plays an active role in shaping nearly 500 square miles of county land and remains committed to preserving, protecting, and managing the county's cultural, historic, and natural resources. In collaboration with residents, the Department works to promote economic vitality, environmental sustainability, design excellence, and quality development that supports healthy lifestyles. This work is accomplished through the "4Ps" initiative with a focus on People, Partnerships, Placemaking, and Projects.

The value of Community. People are key to providing the technical support of the work programs, including investing in professional development, promotional opportunities (upward mobility) and retention efforts. The Summer Collegiate Internship Program and the Graduate Assistant Programs have been expanded to support more students in higher education including partnerships with the University of Maryland, College Park and Bowie State University. The Brown Bag Series and Open Houses held at Largo Headquarters allow more public engagement with residents, organizations, municipalities, and stakeholders. Under this strategic focus, the Planning Department also prioritized job recruitment and retention and leveraged professional development in training, seminars, and other programs.

Partnerships matter. Partnership investments in technology and process improvements assist the Planning Department as well as the County in meeting the public and customers' expectations. The Neighborhood Planning Academy, a signature award-winning program, is held twice a year. This free seven-week course gave County residents an insider look at the Planning Department and how development takes place in the County. The inauguration of the program started with 40 participants, increased to 60 this year and will continue to increase due to the popularity. The Planning Assistance to Municipalities and Communities is a program that provides local planning assistance to local municipalities and nonprofit groups around the County, providing expertise and strategies in a variety of areas. Everything from wayfinding and branding to feasibility studies to local climate resilience plans are included in this very successful partnership program. The Department continues to partner with the University of Maryland on the Partnership for Action Learning in Sustainability (PALS) program to give students real world planning experience helping to solve a variety of issues and research interests throughout the County.

Streamlining the development review process. Projects were put through a more streamlined, development review process while cultivating more effective coordination and supporting communities to become more environmentally, economically and socially sustainable throughout the County. Signature programs include the Go Prince George's Master Plan of Transportation (MPOT), enhancements to PGAtlas (GIS) and DARTS (Permitting) Programs, and Farmland Preservation and Activation Study.

Placemaking Around Town Program. Placemaking includes advancing art in public places, activating plazas and parks from rural to urban areas to enhance cultural and social identity. The Art as Placemaking Grant Pilot Program aims to build on the success of previous activations, and is designed after the PAMC program. The Placemaking Around Town program aims to activate underutilized spaces throughout the County to demonstrate what is possible when partnerships with the community are formed and a place is given an identity. In addition, the Prince George's County Planning Department worked on a Master Plan Evaluation project which reviewed and evaluated all 38 master, sector, and subregion plans. The Department continued to move forward key plans through the public hearing

process, including the Central Avenue Blue Silver Line Sector Plan, Port Towns Sector Plan, West Hyattsville Queens Chapel Sector Plan, and the Central Branch Avenue Sectional Map Amendment.

Prince George's County Department of Parks and Recreation

The Department of Parks and Recreation, Prince George's County, operates and maintains more than 30,000 acres of parkland throughout the County, including land developed to provide parks, picnic areas, athletic fields and facilities, historic sites, community centers, aquatics facilities and recreation facilities. To maintain the County's natural beauty, a large percentage of the Department's park property is left undeveloped to preserve and protect the environment for future generations. With cooperation and input from diverse communities throughout the County, the Department operates a comprehensive park and recreation system that offers programs and facilities designed to meet the needs and interests of the more than 900,000 residents and visitors of all ages and abilities.

State-of-the-Art Recreational Facilities. The Department constructed multigenerational facilities as components of 40 CIP projects valued at \$53 million. Projects include the new Marlow Heights Community Center; renovations at Stephen Decatur Community Center; updates to more than 30 sport courts; field upgrades at eight parks; 14 playground replacements; new trails; and preservation work at historic facilities like Riversdale Mansion, Mount Calvert, and Adelphi Mill. More than \$3 million was invested in renovating and replacing bridges and boardwalks.

Innovative Programming. The Department advanced its mission to enhance inclusivity and accessibility efforts with innovative programming while providing expanded exposure to the arts. The Department celebrated the inaugural year of the Teen Arts Council and relaunched the Young Artists Apprenticeship Program. Science on a Sphere debuted at Clearwater Nature Center, an innovative experience that displays planetary data on an animated globe. The expansion of senior and disability services offerings continued, with additional trips, social activities, fitness classes, and mobile programs.

Conservation and Preservation. The Department's first Sustainability Learning Center had its grand opening, affirming a commitment to sustainability education. Trail development began at the newly acquired Charles Branch Park, marking the first in a "Trails for All" accessibility commitment. Concord Historic Site's Juneteenth Hard Hat Tour gave 100+ community members a look at the site's historic preservation work. Major renovations were completed at historic sites Newton White Mansion and Billingsley House. A "Descendant Network" was established of individuals descended from people who were enslaved at the Department's historic sites; the group will advise the interpretation and visitor experience while exploring the lives and legacies of their ancestors.

Modernization. The Wi-Fi 2.0 Project modernized aging wireless network infrastructure across the Department, and the Desktop Refresh Project deployed 600 new desktops and laptops to staff. GIS capabilities were enhanced through ArcGIS migration and PGAtlas updates. Energy-efficient HVAC systems, LEDs, and solar lighting projects were installed at multiple facilities. The first phase of the GPS program was initiated, with 150 units installed throughout the Department; phase two will bring the Department 280 units closer to its goal.

Outreach and Community Service. The Department collaborated with George Washington University and the county's Aging and Disabilities Service Division on a comprehensive needs assessment; findings will be used to develop the county's Healthy Aging Strategic Plan. The Make a Splash program delivered swim and water safety lessons to more than 2,600 students at 46 schools. Prince George's County Sports & Learning Complex held 78 indoor track meets, serving 65,000 youth. The complex welcomed more than 13,000 visitors for non-sporting events and community programs. The Department's outreach team hosted information tables at 126 events and provided materials for an additional 242, while 1,016 volunteers contributed more than 10,000 hours of service to the county.

Revenue and Economic Impact. The Department hosted the 66th Annual Washington International Horse Show, the 31st Annual Capital Challenge Horse Show, and the Maryland Horse and Pony Show at The Show Place Arena/Prince George's Equestrian Center. These events drew more than 18,000 spectators and 2,700 exhibitors, generating an estimated \$24.5 million in economic impact to the community. Tucker Road Ice Rink maintained a self-sustaining model, balancing rentals, classes, a growing hockey program, and public skating sessions.

Public Affairs and Community Partnerships. The Department secured year-long advertising partnerships with ABC, FOX, Univision, and others; launched the "Channel Your Inner Champion" campaign during the 2024 Olympics; and sponsored Kids' Day at National Harbor. Media highlights included FOX 5 Field Trip segments spotlighting Department facilities, a 36% increase in TV mentions, and a 46% rise in potential media reach to 16.7 billion, totaling an advertising value of \$156 million. The Department received national coverage in Parks & Recreation magazine

and attracted support from Telemundo for the 40th Anniversary Hispanic Festival. The Sound of DC exhibition at Brentwood Arts Exchange earned coverage on Canadian TV and FOX 5's Good Day DC. Social media saw growth across all platforms, culminating in 61,000+ followers and more than seven million impressions.

Awards and Notable Accomplishments. The Department is pleased to report approval of \$673,560 to plant 10,340 trees at the Lake Arbor Golf Course in Prince George's County from the Chesapeake Bay Trust for FY26. The Department celebrated 50 years of Disability Services with 18 special events throughout the year, culminating with the 50th Anniversary Gala. The program received two state citations, a county executive proclamation, and a county council congratulatory letter for their dedication and commitment. M-NCPPC has been named one of the four 2025 Gold Medal Finalists in the prestigious Class I category for communities with more than 400,001 citizens. This remarkable recognition comes from the American Academy of Park and Recreation Administration, which honors park and recreation systems demonstrating outstanding administration of public funds to enhance residents' quality of life through diverse programs and initiatives. M-NCPPC also successfully completed a fifth CAPRA reaccreditation, earning a flawless score of 100% across 154 standards.

Workplace Training and Recruitment. Strategic hiring initiatives filled critical positions that bolstered effectiveness across the Division, including more than 120 lifeguards to fully staff all 13 aquatic facilities. The Department delivered more than 18,000 hours of training and nearly 150 instructor-led sessions aimed at enhancing organizational performance. All learning activities were centralized into the Cornerstone Learning Management System, enabling seamless data integration and resulting in cost savings exceeding \$30,000—with continued savings projected in future years.

Montgomery County Department of Planning

In FY2025, Montgomery Planning launched the Community Planning Academy, encouraging residents to engage in the planning process, and celebrated design excellence through the 2025 Design Excellence Awards. The department also advanced corridor-focused growth, historic preservation and climate resilience through a major organizational restructure, and worked with the community on major placemaking efforts like Wheels in Wheaton and Damascus Placemaking.

Turning parking lots into places. The Wheaton Placemaking Initiative saw extensive community engagement that culminated in the "Wheels in Wheaton" activation: transforming a parking lot into a roller-skating rink and vibrant public gathering space. Another placemaking project completed in early FY2025 was the Damascus Placemaking Festival, hosted in October 2024. This project saw the temporary transformation of a part of Main Street in Damascus into a vibrant and walkable public space. The Damascus Placemaking project won an award from the American Society of Landscape Architects for its community engagement work. Reflecting the growing emphasis on placemaking, in July 2025 the department reorganized itself to establish a new Design, Placemaking & Policy Division making placemaking a key part of the department's work program.

Preserving Montgomery County's history. Montgomery Planning, through its Historic Preservation Office, played a pivotal role moving forward the historic designation for Timberlawn, the North Bethesda estate where Eunice Kennedy Shriver founded the transformative Camp Shriver in 1962. This camp was the foundation to what ultimately inspired the creation of the Special Olympics. In May 2025, the Montgomery County Planning Board unanimously recommended listing Timberlawn in the Locational Atlas and Master Plan as well, forwarding the nomination to the County Council for final approval. The Planning Board also recommended designation of the Horad House, which was the former home of local civil rights and fair housing leaders. The Historic Preservation Office is continuing to work on identifying other sites around the county for designation to help preserve the county's past.

Focusing on solutions for the county's housing crisis: Montgomery Planning remains committed to finding ways to increase the county's housing supply, which requires a robust "more of everything" approach. This includes supporting zoning changes where appropriate and using master plans to create holistic community visions that expand housing opportunities. Montgomery Planning was instrumental in reviewing and analyzing the County Council's More Housing N.O.W. Zoning Text Amendment (ZTA), which was adopted in summer 2025. Through the Development Pipeline Analysis, Montgomery Planning has been conducting research to better understand why many residential development projects that have been approved by the Planning Board are not moving forward to construction. The project examines why approved projects stall, whether due to market shifts, property ownership issues, or county policies, and identifies strategies to address these barriers. This work will help policymakers understand how to move more projects toward completion, while also showing where other measures, such as zoning updates and

regulatory reforms, are needed to expand housing access and affordability. Montgomery Planning is also exploring creative solutions to tackle the county's housing crisis, such as single stairwell construction. Chair Artie Harris and the Planning Board held a discussion in July with design and policy experts to examine how a change in the building code could lead to housing units. Chair Harris recently wrote a blog post that was featured in Greater Greater Washington on the topic.

Engaging more residents through the Community Planning Academy. Montgomery Planning's Community Planning Academy (CPA) is an innovative, free learning initiative that launched in summer 2025 to demystify local land use and the development process for residents. The program explores key topics such as zoning, permitting, and more. Participants will also learn how to effectively engage in the process and help guide the development of their neighborhoods. The online course features interactive videos, graphics, and downloadable summaries in multiple languages. A pilot cohort of 50 residents began taking the course in summer 2025 to help guide the CPA and provide feedback on the curriculum and experience. While the CPA is primarily online, the department offered in-person check ins with this group, including several "Meet a Planner" sessions and a field trip to a recently built mixed-use development project. The CPA will be available to the entire county in fall 2025.

Implementing Montgomery Planning's Strategic Plan. Montgomery Planning's internal Strategic Plan (2025–2030) serves as a roadmap to align the department's operations with the long-range *Thrive Montgomery 2050* goals of equity, environmental resilience, and economic competitiveness. Crafted through extensive collaboration, engaging nearly 700 stakeholders, including staff, partners, and residents, the plan articulates a refreshed vision of "thriving, resilient communities for everyone, today and in the future" and a mission to "collaboratively plan for equitable, sustainable and economically healthy communities." It defines measurable results across accessible housing and services, resident engagement, economic health, and environmental resilience, and declares core values like transparency, inclusion, data-driven decisions, and equitable outcomes.

Advancing plans and projects. Montgomery Planning staff worked on the following plans and projects: Bethesda Downtown Plan Minor Master Plan Amendment, Eastern Silver Spring Communities Plan, Friendship Heights Sector Plan, University Boulevard Corridor Plan, Georgia Avenue Corridor Plan, Master Plan of Highways and Transitways Technical Update, Clarksburg Gateway Sector Plan, Germantown Sector Plan, Glenmont Corridors Opportunity Study, Friendship Heights Urban Design Study, Incentive Zoning Update, and numerous placemaking activities.

Montgomery County Department of Parks

During FY2025, Montgomery Parks advanced a wide range of projects and initiatives that strengthened community connections, expanded recreational opportunities, and reinforced the agency's commitment to stewardship, accessibility and sustainability.

State fundraising efforts. Five million dollars was secured in state funding during the 2025 legislative session to support park and playground improvements across the county. Of this funding, \$3 million was dedicated to the future Wheaton Action Sports Park in Wheaton Regional Park. The new amenity will be designed as a vibrant, all-ages destination for adventure and outdoor fun and will feature a skatepark, bike skills track, climbing wall, parkour and fitness zones, and a children's adventure play area. The site will also incorporate seating areas, an event lawn, shade structures, water misters, and ADA improvements to ensure accessibility for all visitors.

Solar Energy Production. Montgomery Parks is on a mission to double our Solar Energy production, propelling us towards a greener future. At the start of the year, the agency generated about 3.4 million kilowatt-hours annually—approximately 17% of its energy needs. Plans were launched to expand solar production to 6.8 million kilowatt-hours through a combination of rooftop, ground-mounted, and parking canopy installations. This increase represents enough clean energy to power 642 homes annually and aligns with the County's Climate Action Plan by reducing reliance on fossil fuels.

Management Services. The department developed enhanced data integration and encroachment tracking, while expanding inclusive recreation programs such as adaptive mountain biking and kayaking. The division streamlined hiring, onboarding, and training, and strengthened workforce diversity, internship opportunities, and budget analysis.

Park Development. New and refreshed playgrounds, trails, courts, and athletic fields were delivered while advancing design for parks and major projects including a new disc golf course, Bethesda Market Park, and the North Branch Trail. The division also led ADA improvements, historic property upgrades, stream restoration, and Vision Zero safety enhancements.

Park Planning and Stewardship. Completed athletic field inventories and park plans, in addition, a continued its Untold Stories initiative, while acquiring 45 acres of new parkland. Staff expanded invasive plant management, restored streams and meadows, monitored aquatic health, and welcomed record attendance at nature and history programs.

Public Affairs and Community Partnerships. Expanded outreach to over 4.4 million social media users, refreshed the website to comply with current WCAG standard 2.1 AA, and handled thousands of resident inquiries. Park Permits issued 87,000+ reservations generating \$3.8 million, while volunteers removed over 108,000 pounds of trash during 300+ events.

Horticulture, Forestry, and Environmental Education. Launched new youth and climate programs and celebrated anniversaries for community gardens and Pope Farm Nursery. Staff planted trees, produced tens of thousands of native plants, redesigned the Brookside Rose Garden, and expanded cultural and educational programming countywide.

Facilities Management and Operations. Delivered countywide ADA upgrades, infrastructure improvements, and energy-efficient systems, while expanding fleet GPS tracking, supporting major events, and achieving cost savings through new contracts. The team advanced athletic field and playground renovations, stormwater facility maintenance, habitat restoration, and invasive species control, while also adopting electric equipment to reduce emissions. Operational efficiencies were further strengthened through new digital tools, restructured staffing, expanded native plantings, and community clean-ups that enhanced safety and sustainability across the park system.

Montgomery Parks Foundation. The Foundation granted over \$600,000 to support accessibility projects, youth and inclusion programs, and new amenities across the park system. Highlights included pathways and launches for greater access, camp scholarships, renovated facilities, and new benches, equipment, and event sponsorships. Through these achievements, Montgomery Parks continued to invest in people, parks, and the planet—delivering innovative projects and programs that enhanced quality of life, expanded access, and protected natural resources for the community.

Department of Human Resources and Management

Under the leadership of the Executive Director, the Department of Human Resources and Management (DHRM) provides executive and operational leadership to the agency through a set of best management practices, recommends and implements policy, and establishes administrative standards for efficient and effective operations. DHRM is also responsible for the systems and programs that meet regulatory requirements and support the agency, programs that ensure fair and equitable treatment of all employees, and the administration of systems to create, maintain, and retain a qualified, diverse, healthy, and motivated workforce. DHRM also includes the Corporate Budget Office, which promotes the responsible use of public funds through complex analysis and long-term fiscal planning, and the Risk Management and Workplace Safety Office, which provides risk management, workplace safety, and insurance programs to protect the Commission's assets, employees and patrons. In addition to serving as the head of the DHRM, the Executive Director also carries out corporate governance for the Commission (including implementation of the Merit System) and serves as the public representative for the Commission. The Office of the Chief Information Officer reports to the Executive Director.

Program and Service Improvements. There were several new initiatives and notable updates to Commission-wide programs and policies to strengthen internal controls, contain costs, address organizational development concerns, foster occupational health and safety, promote a workplace of excellence, and enhance public accountability. Consideration of rapidly evolving technological tools have garnered substantial focus this year. The Corporate Policy and Archives office is developing agency-wide guidance on the use of Artificial Intelligence in the workplace to assist staff in using this innovative technology in a manner that yields efficiencies while promoting transparency and accountability. The Office also continues to digitize and preserve agency records to ensure their historic viability and their availability to the public. This year, it has digitized approximately 900 cubic feet of records. The Supplier Diversity and Inclusion (SDI) Program continues its focus on the inclusion of local/small and disadvantaged businesses in the Commission's contracting opportunities.

Workforce Development. Workforce development includes the agency-wide Communicate with Confidence! Program and the Apprenticeship Program, both of which are administered by DHRM, among other ongoing efforts. The Classification and Compensation team is developing a Youth Apprenticeship Program, working closely with the

operating departments to identify opportunities for youth apprenticeships. The Maryland Department of Labor recently approved this program, which allows M-NCPPC to partner with local schools by providing students with on-the-job experience in trades and other programs. DHRM collaborated with all departments to implement a new, online Learning Management System (Learning Central), which allows employees to better curate developmental opportunities. To better prepare the workforce to engage with Spanish-speaking stakeholders, we partnered with Montgomery College to create the Spanish Immersion Program, with the plan to offer it annually. We also expanded our leadership development programs.

Workplace Safety. The Risk Management and Workplace Safety Office is responsible for the administration of self-insurance and commercial insurance programs that protect the assets and liabilities of the agency and its employees. The Office is also charged with developing and implementing the agency's safety and health programs to reduce accidents and injuries through extensive training, inspections, testing, and regulatory compliance with federal and state workplace safety laws. During FY2025, the Office focused on ensuring compliance with new, State heat stress standards. The Office continued to track any changes in workplace accidents and injuries, workers' compensation claims, and liability claims which may be due to the use of intoxicating substances, including marijuana. The Office also continued to track the incidents of drug/alcohol testing, positivity rates, and any impact on the hiring or retention of staff. In FY2025, approximately more than 600 applicants/employees were tested.

Labor Relations. The Labor Relations team administered labor agreements, memorandums of understanding and union grievances, and conducted Wage Reopener negotiations with the Fraternal Order of Police (FOP) and the Municipal and County Government Employees Organization/UFCWU Local 1994 (MCGEO). We successfully reached an agreement with MCGEO. The team held regular Labor Management Committee meetings throughout the year with MCGEO, covering an array of workplace topics such as workplace safety, uniforms, training, internet security, and understanding of workplace processes, promoting a labor management partnership.

Employee Benefits. The Employee Benefits team manages group health insurance and benefit plans for all full-time and part-time career employees, retirees, term-contract employees, and seasonal/intermittent employees who average 30+ hours per week. Benefit plans remained competitive and cost effective, with emphasis on access and quality care. The agency's robust health and benefits program continued to be viewed as a top M-NCPPC employee benefit helping to attract and retain talented employees.

Fiscal Responsibility. The Corporate Budget Office provides salary projections, long-range fiscal planning, labor cost modeling, and cost allocations. The Office also streamlines budget activities across the Commission to strengthen tracking, cost containment, oversight, and increase transparency. For the 40th consecutive year, the Office earned the Distinguished Budget Presentation Award from the Government Finance Officers' Association (GFOA) for the annual Budget publications.

Office of the Chief Information Officer

The Office of the Chief Information Officer (OCIO) shapes the Commission's IT strategy, developing architecture and recommending policies approved by the Information Technology Council. OCIO ensures a secure, cutting-edge IT infrastructure, supports enterprise-wide projects, and leads cybersecurity efforts. The Chief Information Officer (CIO) drives efficiency, guiding departments in optimizing IT investments and application services. By aligning Enterprise IT (EIT) governance with business needs, the CIO enhances strategic planning while prioritizing cybersecurity to protect the Commission's intellectual property and data from evolving threats.

Cybersecurity and IT Enhancements Summary: The Agency is committed to protecting networks and data using advanced threat detection, strict access controls, and real-time monitoring. Cybersecurity strategies include employee training, regular system updates, and ongoing risk assessments to stay ahead of threats. In addition the follow were in implemented: Microsoft 365 Security Enhancements: 1) Data Loss Prevention (DLP) – Prevents leaks in email and Teams with automated enforcement, 2) Multi-Factor Authentication (MFA) – Required for all users and admin accounts, 3) Conditional Access Policy – Enforced based on location, device, or risk level, and Administrators' Access Management to restrict admin roles and secure credentials.

Agency Intranet Migration to SharePoint: SharePoint is a powerful tool for creating an agency-wide intranet. It offers numerous benefits that enhance teamwork, productivity, and security. Some of these benefits are: 1) Centralized Document Management – SharePoint enables our Agency to store, organize, and manage documents in a clear and organized manner, 2) Seamless Integration with Microsoft 365 – works effortlessly with tools like Teams, Outlook,

and OneDrive, making communication and file sharing more secure and efficient, 3) Enhanced Collaboration – Employees can work on documents simultaneously, track changes, and engage in discussions using SharePoint’s built-in communication tools, 4) Customized Branding – The Agency customized the intranet to match our brand and structure, creating a tailored experience for users, 5) Information Security –SharePoint was utilized to safeguard sensitive data through encryption, access controls, and compliance tools, ensuring regulatory compliance and maintaining information security, and 6) Workflow Automation – We implemented several workflow automations for approvals and notifications. We will continue to develop other processes to automate and improve efficiency.

Governance & Compliance: The OCIO continues to act on Office of Inspector General (OIG) recommendations, strengthening strategic governance through the Information Technology Council.

Department of Finance

The Department of Finance provides fiscal management and oversight for all Commission financial activities, including financial guidance, policy development, payroll and disbursement processing, central purchasing, investment management, ERP and Kronos support, and debt issuance.

Corporate Financial Management. The Department supports operating departments with financial guidance for public and private partnerships, project funding, and long-term fiscal strategy. This year, it coordinated a \$22 million bond issuance for the Prince George’s County General Obligation Park Acquisition and Development Project Bonds, which will fund various park acquisition and development projects in the county.

Automation and Streamlining. Corporate Finance remains committed to operational efficiency by upgrading its technology infrastructure. The Vendor ACH Project, for example, enabled established and new vendors to receive ACH payments, improving payment speed and accuracy. The accomplishments achieved during FY25 were 1) Completed Phase I of the Kronos-to-UKG Pro Workforce Management migration, transitioning the Commission’s legacy timekeeping system to a modern SaaS platform. The system went live in December 2024, 2) Alias Payment Pilot program launched in April 2025, reducing the time it takes employees to receive reimbursements under \$200, 3) Updated the Commission’s Debt Policy and Post Compliance Policy, 4) An analysis and recalculation was done of the cost for the Montgomery Parks van pool program. This resulted in three routes closing due to not being viable and updated employee deductions for the two remaining routes, 5) An RFP was issued for a new ERP system, and 6) a competitive RFP was issued for an asset manager.

Corporate Procurement. The Purchasing Division expanded its participation in trade and procurement events, reflecting the growing diversity across both counties. The following are some of the highlights implemented during FY2025: 1) launched the Corporate Procurement Insite page, 2) launched Procurement Training Series: Procurement Overview, Introduction to Public Procurement, Procurement Ethics, Introduction to Commission Procurement, 3) updated the Procurement Card Manual, Processes, and Training Materials, 4) conducted 15 Procurement trainings, 14 Purchase Card trainings, and 16 Requisition (RQC) trainings, 5) a total of 6,795 Purchase Orders issued with \$1.75 million in documented cost savings, and 6) staff attended 5 Outreach Events as well as participated in the Inaugural Procurement

Minority, Female, and Disabled (MFD) Vendor Outreach. The Commission achieved a 63.6% MFD utilization rate, totaling \$38 million in procurement with MFD firms.

Process Improvement. Modernized the Waiver Form and process, launched Procurement 101 and Purchase Card Training Programs, awarded 64 competitive solicitations across seven departments, routed 801 contracts, and onboarded 507 new vendors. Over 34,000 Purchase Card transactions were processed, totaling nearly \$17 million, with documented cost savings of \$3.5 million across 6,413 purchase orders.

Financial Reporting. For the 52nd consecutive year, the Commission received the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada, recognizing the FY2024 Annual Comprehensive Financial Report (ACFR) prepared by the Finance Department.

Office of General Counsel

The Office of the General Counsel (OGC or Legal Department) provides a comprehensive program of legal services to the Commission, supporting almost every facet of the Commission’s work program. The OGC guides the Commission’s internal corporate operations; advises staff and the Planning Boards as they navigate their important quasi-judicial

and regulatory responsibilities; advocates on the Commission's behalf in litigation before the state and federal courts; and participates in cross-functional teams assembled periodically to develop creative solutions to new challenges facing the Commission.

Protecting the Public Interest in Litigation. During FY2025, the OGC registered 11 new litigation cases and closed 23 cases – ending the year with seven (7) cases pending in state and federal courts. The cases closed during the year included four (4) tort claims, four (4) employment claims, one (1) contract dispute, seven (7) judicial reviews, two (2) debt collection matters, and two (2) matters where the Commission is seeking to recover for damages. The OGC also defended 14 workers' compensation claims and eight (8) Merit Board appeals.

The Litigation Team. The Team consistently delivered successful results for our clients, including employment discrimination claims, property and contract disputes, and unique workers' compensation and liability matters. In FY2025, the OGC resolved the final litigation disputes stemming from the COVID-19 vaccination policy. There was a total of 43 separate matters, including Merit Board appeals, EEOC filings, and lawsuits filed against the Commission, and in no matter did any finder of fact determine that the Commission's vaccination policy, or relating discipline, violated any local, state, or federal law. In addition, among other notable highlights, in cooperation with the Montgomery County Council and the Montgomery County State's Attorney's Office, the OGC pursued and successfully recovered funds owed to Montgomery Parks in a litigated matter that received media attention. The OGC continues to provide trainings and legal updates to Commission clients, taking a proactive and preventative approach that benefits the Commission as a whole.

Proactive and Appellate Legal Support for Commission Regulatory Bodies and Policy Makers. During FY2025, the Montgomery County Land Use Team supported Planning Board efforts to amend the Land Use Article to allow educational tours during review of master plans, which will allow the Board to have more productive and engaging experiences throughout the County. In collaboration with the M-NCPPC Policy Team, and because of observations during Planning Board hearings and experiences within the Montgomery Planning Department, the Legal Team initiated review and creation of Commission-wide policies related to the use of Artificial Intelligence (AI), Access to Electronic Data and revisions to Procurement Regulations.

The Montgomery Legal Team: The Team advised the Montgomery Planning Department in the creation and adoption by the Planning Board of policies designed to simplify or streamline the development review process including adequate public facilities review for certain building permits, allowing concurrent processing of conditional use and preliminary plan applications, as well as defining situations for staff review of certain conditional use applications. The Legal Team intervened on behalf of the Planning Board in two solar facility cases pending before the Maryland Public Service Commission and assisted the Planning Department in reviewing and commenting on solar legislation at the State level. Further, the Legal Team defended the Board's decisions in two development projects appealed to the Circuit Court and one which advanced to the Appellate Court.

Training. The Montgomery Legal Team provided training to the Planning Board and Directors on Ethics Policies, the Open Meetings Act and social media, as well as substantive topics such as eminent domain, homeowner association law and sectional map amendments. The Legal office continued to work closely with the Commissioners' Office to assure agenda items are properly posted, minutes are accurately reported, and resolutions are timely processed. The Team hosted a summer intern who helped provide research for various policy decisions.

New Zoning Ordinance. In FY2025, the Prince George's County Land Use Team successfully completed a major revision to the County's new Zoning Ordinance that furthered many of the goals, strategies, and policies in the County's General Plan (Plan 2035). A major accomplishment was preparing language that increased densities and other development opportunities around the County's transit centers and ensuring planned development zoning provided the County with comparable public benefits. The Legal Team was also instrumental in providing guidance and review for the Planning Department's new Master Plan of Transportation; the first major rewrite of the County's transportation plan in 15 years.

County Land Use Team. The Prince George's County Land Use Team also continued to obtain favorable decisions at the Circuit and Appellate Court level in every litigation matter in FY2025 as well as assisted the County Office of Law in successful defense of zoning enforcement decisions at the County's Board of Appeals. The Team also further improved its coordination with counsel to the District Council by regularly engaging for the first time in the preparation of legislation and appearing before Council committees on behalf of the Planning Department.

Overhaul and Modernization. A three-year effort to overhaul and modernize Planning Board and Planning Department procedures culminated in the successful adoption of a new package of Board policies in May. Shortly thereafter, the Team welcomed a new Planning Board Chair and began the process of orienting him to the Office of General Counsel and the work of the Planning Department.

Building Quality of Life – One Transaction at a Time. The Transactions Practice Team represented staff in all departments and the Planning Boards in the negotiation and development of various complex agreements, procurement agreements, memoranda of understanding (MOUs), and policies related to the Commission's Park and Recreation functions. Examples of important projects initiated or completed during FY2025 include: a land exchange with the City of Bowie in which Commission received 61 acres; acquisition of a portion of the Hollywood Shopping Center in North College Park for a future community center; acquisition of 13 acres of the Autoville property which is adjacent to the Paint Branch Stream Valley Park; the long awaited acquisition of 1.8 acres of waterfront parcel at National Harbor; a license agreement with Prince George's County for new fire station on Commission property; completion of the sale and condominium regime establishment for a residential condominium and park at Warner Circle Special Park; acquisition of approximately 33 acres of land for historically significant Ednor Stone Quarry park; completion of development agreement and lease to bring a long awaited childcare services to the Wheaton Regional HQ; capital improvements to the Prince George's Stadium which included new video game scoreboards resulting in improved fan experience; opening of the new hiker/biker bridge over the Patuxent River which was a joint project with Anne Arundel County; providing assistance to the CAPRA team (the Commission was reaccredited); and developing the first Software as a Service (SaaS) contract template which was used in the Enterprise Resource Planning RFP.

Legislative Support. The legislative team worked on various legislative issues this year: housing, solar, economic development, land use, and government operations just to name a few.

Ninety-day MGA legislative session. The legislative team tracked various bills, offered verbal in person testimony, and drafted several written position statements in addition to engaging members of the general assembly. Our team helped the Montgomery Planning Board Chair successfully work with the legislature to introduce a bill that would make it easier for the Montgomery County Planning Board and the Washington Suburban Sanitary Commission to conduct certain site visits and educational field tours without being subject to the open meetings requirement as a result to technical challenges with mobile streaming, which successfully passed. Our team also successfully helped the Commission oppose legislation that would chip away at Prince George's Planning Board's authority. The various bills that would negatively impact the Commission did not pass. In terms of fiscal priorities, the legislative team advocated in support of the Commission's budget priorities before budget and appropriation leadership. We helped bring home quite a few legislative bond initiatives and grants estimating over \$6 million combined for both parks departments. Some of the big projects to highlight is the \$3 million we received for Wheaton Regional in Montgomery County and \$1.2 million for Publick Playhouse in Prince George's County. In Program Open Space funds, the Commission received a total of \$8,386,360 combined for both Prince George's and Montgomery counties. Prince George's received \$3,755,630 and Montgomery received \$4,610,730.

Annual Legislative Report. After session in May, the legislative team briefed the full Commission on the Office of General Counsel's annual legislative report. We also debriefed the Park and Planning departments on the 90-day session and discussed wins and losses. From July until the end of November, our team will continue meeting with stakeholders, elected officials and attend various community events to get a gauge on what the legislative climate will look like next year. This year, the legislative team alongside other Commission staff will attend the MACo Summer Conference. Last year the Commission had a really good experience hosting a full commission booth with all the departments, both parks and planning. This year our legislative team will help the Commission co-sponsor its first legislative breakfast alongside Bi-County delegation members and county officials.

Compliance and Ethics Support. Introduction of Commission-wide training programs: Over the past year, the new Compliance program has instituted several commission-wide training opportunities starting with the Commission Ethics Policy (Practice 2-24). In FY2025, OGC conducted 41 live Ethics trainings and published an online video on Learning Central for the whole staff to access and is also available in French and Spanish. Seasonal employees received a shorter video as part of their onboarding process in spring of 2025. The Compliance team created an email address for all ethics questions that is regularly used by employees: ethics@mncppc.org. In addition to considerable ethics training, the Compliance program has offered trainings in: Facilitating Difficult Conversations, the Americans with Disabilities Act, the Family Medical Leave Act, Age Discrimination in Employment Act, Title VII and State Civil Rights Laws, and Equal Pay for Equal Work. Two large areas that have consumed the new Compliance program are AI and the new ADA Web Accessibility (WCAG) Standards requirements. With regards to Artificial Intelligence, the

Commission is currently working on policy documents and plans to ensure the safe, ethical use of AI, while navigating the quickly changing landscape. Under WCAG, M-NCPPC is required to have all websites, including all documents on the website, accessible by WCAG 2.1AA standards by April 2026.

Office of the Inspector General

The primary focus of the Commission's Office of the Inspector General (OIG) is to provide the Board and Department Heads with objective information to assist them in determining whether Commission operations are adequately controlled and whether the required high degree of public accountability is maintained over public funds and to improve the efficiency and effectiveness of the Commission. To accomplish this, in FY2025, 35 audits, investigations, and advisories were performed, resulting in the issuance of 58 audit recommendations, designed to ensure the reliability and integrity of financial records, compliance with established policy and procedures, accountability and protection of Commission assets and the achievement of program objectives. The OIG also completed 24 follow-up reviews in fiscal year 2025 to help ensure identified risks were properly mitigated.

Merit System Board

The Merit System Board is the Commission's impartial Board responsible for overseeing the Commission's Merit System, upholding employee rights guaranteed under the Merit System, recommending employment and compensation policies, and serving as the final administrative appellate body for employment matters pertaining to non-represented career employees.

Employees' Retirement System

The Employees' Retirement System (ERS) is a contributory defined benefit pension system qualified under Section 401(a) of the Internal Revenue Code. Administrative responsibilities are managed by ERS personnel, who oversee daily operations and report to the Board of Trustees. At the close of FY2025, Trust Fund assets reached a fair value of \$1.2 billion and achieved a return of +9.5%, outperforming the actuarial return assumption of 6.7%.

New Investment Group. In FY2025, the Board of Trustees appointed Meketa Investment Group as its new investment consultant. Meketa conducted an Asset/Liability Study, which led the Board to adopt a revised asset allocation policy designed to provide greater protection against market volatility compared to the previous strategy. Additionally, the Board updated both the Investment Policy Statement and the Investment Manager Monitoring Policy to align with the new asset allocation policy and to streamline the investment manager due diligence process.

Change of Leadership. The ERS underwent a leadership change with the appointment of Jaclyn Harris as Executive Director and the addition of Leslie Harmon as Deputy Executive Director. Together, they are tasked with directing ERS operations and offering strategic guidance to support the organization's ongoing success and stability.

Member Engagement. Engaging with members remains an ERS priority. This year, retirees joined active members in using MemberDirect, a secure online portal for viewing retirement account information. Retirees can view benefit payment history, manage tax elections, review beneficiary information, and download forms. The ERS also provides both in-person and virtual retirement counseling sessions and holds seminars for Commission employees.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

Board of Commissioners
The Maryland-National Capital Park and Planning Commission
Riverdale, Maryland

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Maryland-National Capital Park and Planning Commission (the Commission), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Commission, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The Commission's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedules of required supplementary information for defined benefit pension plans, and the schedules of required supplementary information for Other Postemployment Benefits, as referenced in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain

limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The combining and individual fund financial statements and budgetary schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and budgetary schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and budgetary schedules data are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Management's Discussion and Analysis

As the management of The Maryland-National Capital Park and Planning Commission ("the Commission"), we offer readers of the Commission's financial statements this narrative overview and analysis of the financial activities for the Commission for the fiscal year ended June 30, 2025.

The Commission is a body corporate of the State of Maryland established by the General Assembly in 1927. The Commission is a bi-county agency. It is empowered to acquire, develop, maintain and administer a regional system of parks in a defined Metropolitan District of Montgomery and Prince George's Counties and to prepare and administer a general plan for the physical development of a defined Regional District for the two Counties. The Commission also conducts the recreation program for Prince George's County.

The major source of funding for the Commission's primary services are five property taxes levied on an individual County basis:

- **Montgomery County:**
 - Administration tax - general administration and planning
 - Park tax - park operations and debt service for park acquisition and development bonds
- **Prince George's County:**
 - Administration tax - general administration and planning
 - Park tax - park operations and debt service for park acquisition and development bonds
 - Recreation tax - the recreation program

Five separate accounts are maintained within the General Fund to account for the Commission's primary services. Revenues and expenditures that can be specifically identified with a county are recorded in the appropriate account. Expenses that apply to both counties are allocated to the appropriate accounts. Debt is issued on a county basis, not for the Commission as a whole. General obligation debt is guaranteed by the Commission and by the county government for which the proceeds will be expended. Due to this unique arrangement, certain financial information provided in this discussion and analysis, as well as in the summaries presented in Note 6 of the Notes to the Financial Statements, have been provided by county to reflect the financing constraints within each county. Other funds and accounts are maintained on a Commission-wide or on a separate county basis as necessary and appropriate.

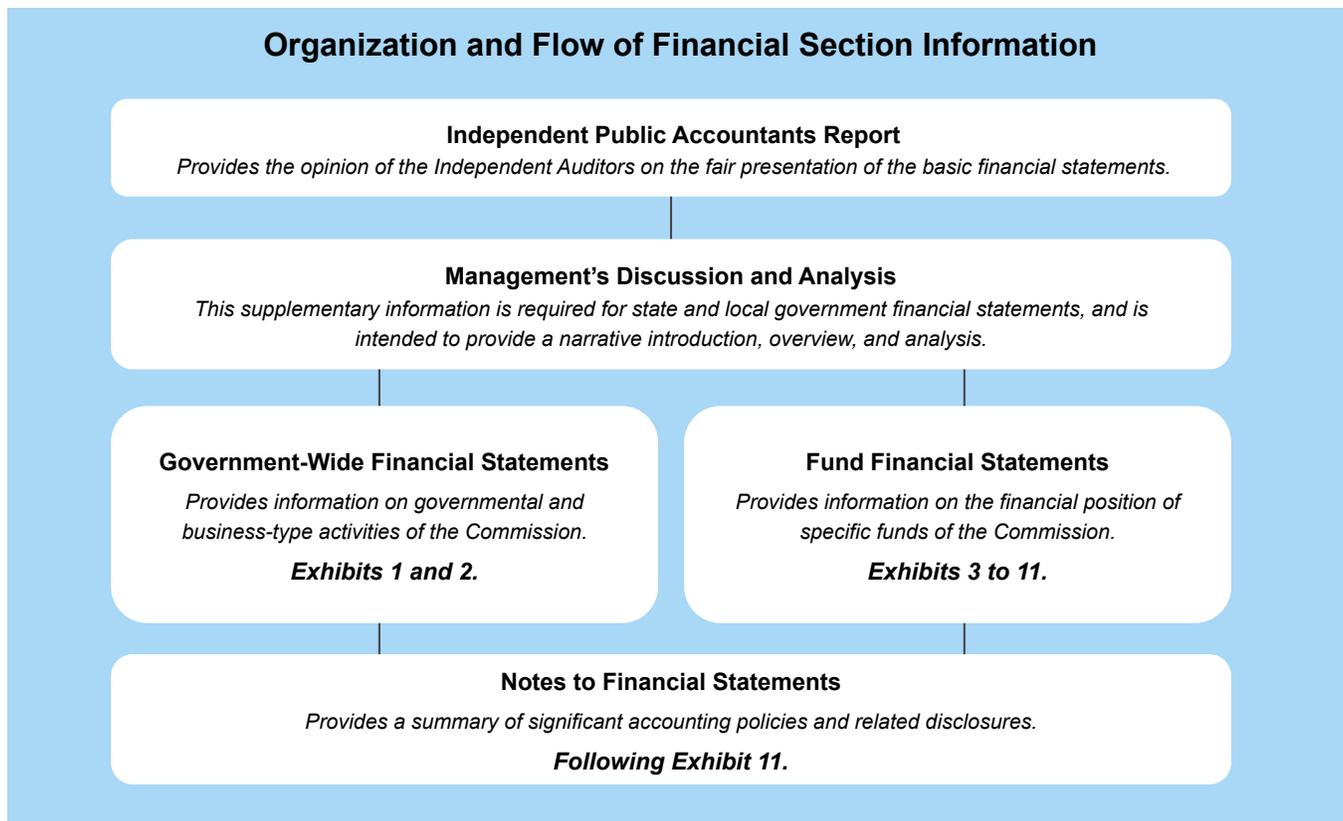

Financial Highlights

- The assets and deferred outflows of resources of the Commission exceeded its liabilities and deferred inflows of resources at June 30, 2025 by \$1,544.7 million (net position). Of this amount, \$223.1 million is unrestricted and may be used to meet the Commission's ongoing obligations.
- The Commission's net position grew by \$41.3 million during fiscal year 2025. This is the result of an increase in cash and other current assets of \$54.8 million, an increase in capital assets of \$47.7 million, and a decrease in the deferred outflow of resources (mainly due to OPEB deferrals) of \$9.3 million. These are offset by a decrease in liabilities of \$20.1 million (mainly due to pension and other post-employment benefits) and an increase in the deferred inflow of resources (mainly due to pension deferrals) of \$71.9 million.
- As of June 30, 2025, the Commission's governmental funds reported combined ending fund balances of \$583.2 million, a decrease of \$9.6 million. Of this amount, \$203.6 is unassigned, \$372.6 is assigned, \$5.4 is restricted, and \$1.6 million of fund balance is nonspendable.
- The Commission's General Fund balance at June 30, 2025, is \$336.7 million, a decrease of \$6.0 million during the year. The unassigned fund balance of \$229.6 million is approximately 37.4% of fiscal year 2025 expenditures and transfers out.
- The Montgomery County Capital Projects Fund balance as of June 30, 2025 is \$11.4 million, a decrease of \$7.2 million primarily due to the usage of bond proceeds for various capital projects.
- The Prince George's County Capital Projects Fund balance as of June 30, 2025, is \$213.8 million, an increase of \$2.8 million primarily due to an increase in cash available for future projects.

- The assets plus deferred outflows of the enterprise funds exceeded liabilities and deferred inflows by \$166.7 million, an increase of \$1.4 million. The Wheaton Headquarters Fund had a decrease of \$2.3 million, the Prince George’s Enterprise Fund had a decrease in net position of \$0.5 million and the Montgomery Enterprise Fund had an increase of \$3.3 million in net position.
- The Commission’s bonds and notes payable increased by \$7.6 million. Bonds were issued for 22.0 million during the fiscal year for Prince George’s County. The new issue combined with bond payments of \$13.5 million (Montgomery County - \$5.5 million and Prince George’s County - \$8.0 million) and amortization of \$1.0 million bond premium (Montgomery County - \$0.3 million and Prince George’s County - \$0.7 million) resulted in the increase of the bonds and notes payable.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Commission’s basic financial statements. The Commission’s basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Commission’s finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Commission’s assets and liabilities and deferred inflows and outflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

The statement of activities presents information showing how the Commission’s net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned and unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Commission that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Commission include General Government, County Planning and Zoning, Park Operations and Maintenance, Recreation Programs and Interest on Long-term Debt. The business-type activities of the Commission are Wheaton Headquarters as well as Recreational and Cultural Facilities.

The government-wide financial statements can be found as Exhibits 1 and 2 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Commission, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Commission can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. For both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances, reconciliations are provided to facilitate this comparison between governmental funds and governmental activities.

The Commission maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and the Capital Project Funds for each county, all of which are considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements, Schedules 1 and 2 in the Combining and Individual Statements section of this report.

The Commission adopts an annual appropriated budget for its General Fund, which is actually adopted as five "accounts" corresponding to the five different property tax levies. A budgetary comparison statement for the total General Fund has been provided as Exhibit 6, and summaries for each account are included in Note 6 of the Notes to the Financial Statements, to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found as Exhibits 3 - 6 of this report.

Proprietary funds. The Commission maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Commission uses enterprise funds to account for Wheaton Headquarters located in Montgomery County as well as certain Recreational and Cultural Facilities in both Montgomery and Prince George's Counties.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the Commission's various functions. The Commission uses internal service funds to account for Montgomery County's Capital Equipment and Risk Management, Largo Headquarters located in Prince George's County, Prince George's County's Capital Equipment and Risk Management, Central Administrative Services Capital Equipment, Executive Office Building, Employee Benefits, and Commission-wide Initiatives. As these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for Wheaton Headquarters as well as each county's Recreational and Cultural Facilities, both of which are considered to be major funds of the Commission. Conversely, all internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements, Schedules 7 - 9 in the Combining and Individual Statements Section of this report.

The basic proprietary fund financial statements can be found as Exhibits 7 - 9 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The Commission uses fiduciary funds to account for the Employees’ Retirement System Pension Trust, Postemployment Benefit Trust, and Private Purpose Trusts for each county. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Commission’s own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary financial statements can be found as Exhibits 10 and 11 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Commission has also included financial statements for each county’s portion of the governmental funds financial statements to reflect the relationship between the financing sources and responsibility for debt. The Notes to the Financial Statements can be found following Exhibit 11 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Commission’s progress in funding its obligation to provide pension benefits and other postemployment benefits to its employees. Required supplementary information can be found immediately following the Notes to the Financial Statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government’s financial position. In the case of the Commission, assets and deferred outflows exceeded liabilities and deferred inflows of resources by \$1,544.7 million at the close of the most recent fiscal year.

A summary of the Commission’s net position follows:

Summary of Net Position (in millions) June 30, 2025 and 2024

	Governmental Activities		Business-type Activities		Total		Total Percentage Change 2024-2025
	2025	2024	2025	2024	2025	2024	
Assets							
Current and Other Assets	\$ 811.7	\$ 762.6	\$ 38.2	\$ 32.5	\$ 849.9	\$ 795.1	6.9%
Capital Assets	1,395.3	1,345.0	152.3	154.9	1,547.6	1,499.9	3.2%
Total Assets	2,207.0	2,107.6	190.5	187.4	2,397.5	2,295.0	4.5%
Deferred Outflows	184.2	193.4	5.5	5.6	189.7	199.0	-4.7%
Liabilities/Deferred Inflows							
Current Portion of							
Long-term Liabilities	42.8	34.3	0.6	0.3	43.4	34.6	25.4%
Long-term Liabilities	787.4	838.2	18.1	19.9	805.5	858.1	-6.1%
Other Liabilities	86.3	63.8	3.3	2.1	89.6	65.9	36.0%
Total Liabilities	916.5	936.3	22.0	22.3	938.5	958.6	-2.1%
Deferred Inflows	96.6	26.6	7.3	5.4	103.9	32.0	224.7%
Net Position							
Net Investment in Capital							
Assets	1,169.9	1,132.4	151.7	154.5	1,321.6	1,286.9	2.7%
Unrestricted	208.1	205.7	15.0	10.8	223.1	216.5	3.0%
Total Net Position	\$ 1,378.0	\$ 1,338.1	\$ 166.7	\$ 165.3	\$ 1,544.7	\$ 1,503.4	2.7%

Current and other assets increased by 6.9% mainly due to a higher cash balance at June 30. Capital Assets increased due to increased activity in construction of capital facilities. The Current Portion of Long-term Liabilities increased 25.4% mostly due to increases in compensated absences and subscriptions (SBITAs). Deferred Outflows decreased by 4.7% and Deferred Inflows increased by 224.7% mainly due to pension and other post-employment benefit variances as determined by the actuaries. Long-term liabilities decreased by 6.1% mostly due to decreases in pension and other post-employment benefits as determined by the actuaries. Changes in net position are discussed later.

By far, the largest portion of the Commission’s net position reflects its investment in capital assets (e.g., land, buildings, machinery, equipment and intangibles and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Commission uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Commission’s investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining balance of \$223.1 million of net position is unrestricted and may be used to meet the Commission’s ongoing obligations to citizens and creditors. Changes in this balance are discussed later.

At the end of the current fiscal year, the Commission is able to report positive balances in both categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

A summary of changes in net position follows:

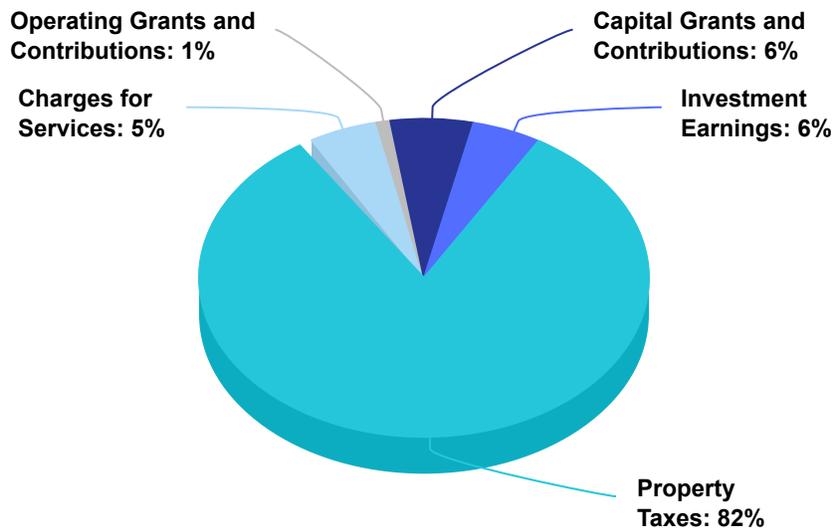

**Summary of Changes in Net Position (in millions)
For the Fiscal Years Ended June 30, 2025 and 2024**

	Governmental Activities		Business-type Activities		Total		Total Percentage Change 2024-2025
	2025	2024	2025	2024	2025	2024	
Program Revenues:							
Charges for Services	\$ 31.2	\$ 30.7	\$ 25.4	\$ 24.1	\$ 56.6	\$ 54.8	3.3%

Total Expenses	<u>613.9</u>	<u>555.4</u>	<u>36.8</u>	<u>34.1</u>	<u>650.7</u>	<u>589.5</u>	10.4%
Increase/(Decrease) in Net Position Before Transfers	48.8	125.0	(7.5)	(7.6)	41.3	117.4	-64.8%
Transfers	(8.9)	(8.4)	8.9	8.4	-	-	
Increase/(Decrease) in Net Position	39.9	116.6	1.4	0.8	41.3	117.4	
Net Position - beginning	1,338.1	1,221.5	165.3	164.5	1,503.4	1,386.0	
Net Position - ending	<u>\$ 1,378.0</u>	<u>\$ 1,338.1</u>	<u>\$ 166.7</u>	<u>\$ 165.3</u>	<u>\$ 1,544.7</u>	<u>\$ 1,503.4</u>	

During the current fiscal year, the Commission’s net position grew by \$41.3 million. Charges for services increased 3.3% due to increased usage of facilities/programs to the public. Revenue from capital grants and contributions decreased during FY 2025 as there was less availability of grants to make improvements and provide programs. Investment earnings reflect a slight decrease during the fiscal year. Expenses increased due to usage of various sites and programs, however, revenue overall was less than the prior year mostly due to the availability of grants to help fund various projects and programs.

Governmental activities. Governmental activities increased the Commission’s net position by \$39.9 million, thereby accounting for all of the growth in the net position of the Commission. This increase is primarily attributable to capital and operating grant receipts of \$46.6 million, property tax revenue of \$548.1 million, and interest revenue of \$37.0 million exceeded ongoing expenses of \$614.0 million. Normal operating expenses rose due to filling of vacant positions throughout all of the departments.

Revenues by Source - Governmental Activities

As the above diagram shows, property taxes make up 82% of Commission governmental revenues.

As is reflected in the following chart, the Commission’s governmental activities are largely supported by general revenues and in particular property taxes. Charges for services and operating grants cover 6% of governmental activities expenses.

The total cost of services increased by 10.5% for FY 2025 compared to FY 2024 and the net cost of services increased by 20.7% for FY 2025 compared to FY 2024.

**Net Cost of Governmental Activities (000's)
For the Fiscal Years Ended June 30, 2025 and 2024**

	2025		2024		Percentage Change 2024-2025	
	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services	Total Cost of Services	Net Cost of Services
General Government	\$ 35,243	\$ 35,243	\$ 29,597	\$ 29,597	19.1%	19.1%
County Planning and Zoning	84,909	80,756	79,715	74,942	6.5%	7.8%
Park Operations and Maintenance	370,984	316,107	339,181	251,156	9.4%	25.9%
Recreation Programs	116,004	97,238	101,505	83,167	14.3%	16.9%
Interest on Long-term Debt	6,822	6,822	5,450	5,450	25.2%	25.2%
Total	\$ 613,962	\$ 536,166	\$ 555,448	\$ 444,312	10.5%	20.7%

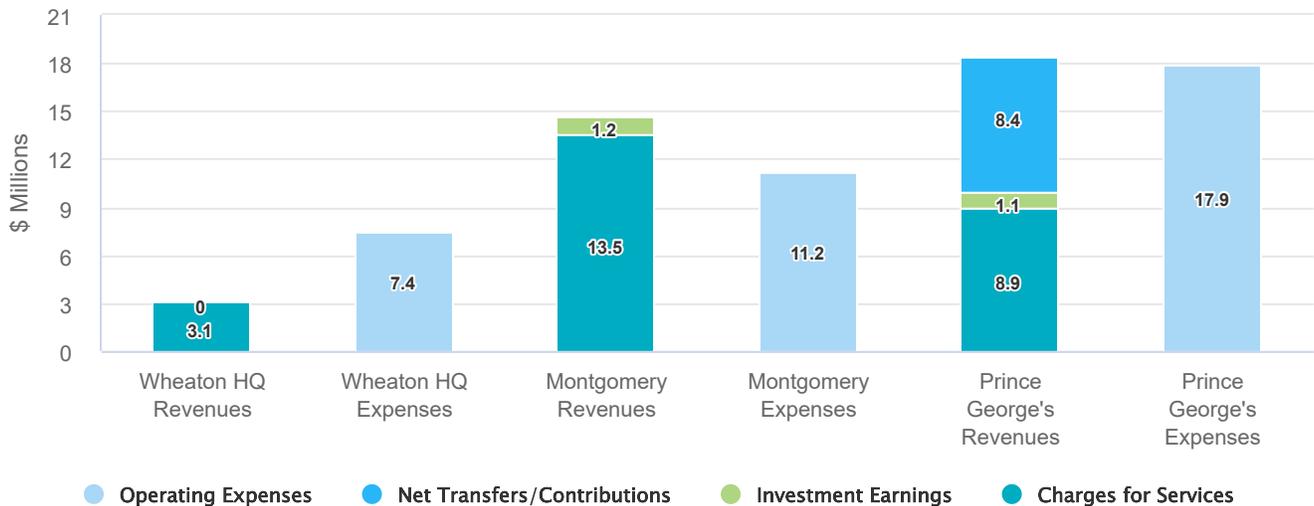

Net Cost by Function - General Government

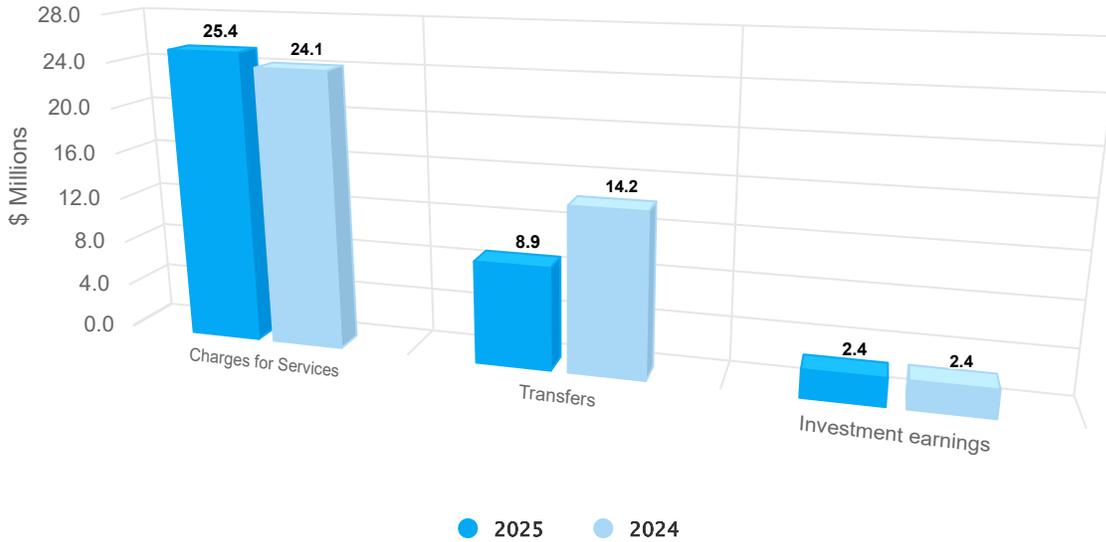

Business-type Activities. The net position of the Commission’s business-type activities increased by \$1.4 million.

- Expenses of operating the recreational and cultural activities exceeded charges for services by \$6.9 million. Wheaton Headquarters operating loss of \$4.3 million is primarily due to depreciation on the building, Montgomery County Recreational had an operating gain of \$2.1 million, and Prince George’s County Recreational had an operating loss of \$9.0 million.
- Governmental activities contributed \$8.4 million to support the enterprise activities in Prince George’s County.

Changes in Net Position - Business-type Activities

Revenues by Source - Business-type Activities

More detail regarding these funds is provided later in the Proprietary Funds discussion.

Charges for Services was the major revenue source for FY25 as we continued to return to more normal operations. Support from governmental operations (transfers) was a significant source for the operations for Prince George’s County.

As noted earlier, the Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Financial Analysis of the Commission’s Funds

Governmental funds. The focus of the Commission’s governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Commission’s financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government’s net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Commission’s governmental funds reported combined ending fund balances of \$583.2 million, a decrease of \$9.6 million in comparison with the prior year. Approximately 34.9% of this total amount, or \$203.6 million, constitutes unassigned fund balance, which is available for spending in future years and provides reserves for unforeseen expenditure needs. The remaining fund balances are non-spendable, restricted, or assigned to indicate that they are not available for new spending. \$1.6 million is nonspendable, \$5.4 is restricted, and \$372.6 is assigned.

The General Fund is the primary operating fund of the Commission. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$229.6 million, while total fund balance was \$336.7 million. As a measure of the General Fund’s liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 37.4% of the total general fund expenditures and transfers out, while total fund balance represents 54.9% of the same amount.

The fund balance of the Commission’s General Fund decreased by \$6.0 million during the current fiscal year. Key factors that are responsible for this decrease are as follows:

- Vacancies that allowed the fund balance to increase in prior years have now been filled.
- Transfers for various reasons, including capital projects took place during this fiscal year. The transfers from the General Fund for this year totaled \$91.4 million while transfers in prior years were in the range of \$65 million.

The capital project fund for Montgomery County had a total fund balance of \$11.4 million and Prince George's County had a fund balance of \$213.8 million, both of which represent authorized and funded projects that are not completed. The net change in fund balances during the current year for these funds was a decrease of \$7.2 million in Montgomery County, and an increase of \$2.8 million in Prince George's County. The increase for Prince George's County was primarily due to transfers from other funds for future projects. Development and land acquisition grants realized \$25.1 million in Montgomery County. Expenditures for the fiscal year were \$33.0 million in Montgomery County and \$61.2 million in Prince George's County.

Proprietary Funds. The Commission has determined that certain recreational and cultural facilities should be predominantly self-supporting through user fees. Enterprise fund accounting and reporting is used to emphasize the self-supporting nature of these activities and to provide improved cost accounting information. Enterprise Fund accounting, which is a commercial accounting accrual basis, more accurately reflects whether individual facilities return the full cost of the program.

The Commission has established the Wheaton Headquarters Fund as well as one enterprise fund for each county to account for their various facilities. Separate cost centers are maintained in each county for the major types of facilities including a historical airport, four ice rinks, three golf courses, four enclosed tennis facilities, three conference centers, an equestrian center, a multipurpose arena, a trap and skeet center, and certain regional park facilities. Four golf courses in Montgomery County have been leased to the Montgomery County Revenue Authority since April 2006.

The Commission's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position for the Wheaton Headquarters fund was \$2.4 million which includes a balance held for Montgomery County government and the Commission for future capital needs. The unrestricted net position of the Montgomery County fund at the end of the year amounted to \$11.7 million and the unrestricted net position for the Prince George's County fund was less than \$1.0 million. The total changes in net position for the funds were a \$2.3 million decrease in Wheaton Headquarters, a \$3.2 million increase in the Montgomery County fund and an increase of \$0.5 million in the Prince George's County fund.

Summary comparative results of the financial operations of the Enterprise Funds follow:

**Financial Operations of the Enterprise Funds (000's)
For the Fiscal Years Ended June 30, 2025 and 2024**

	Wheaton Headquarters		Montgomery County		Prince George's County	
	FY2025	FY2024	FY2025	FY2024	FY2025	FY2024
Operating Revenues	\$ 3,070	\$ 2,509	\$ 13,466	\$ 13,149	\$ 8,879	\$ 8,431
Operating Expenses, Excluding Depreciation	2,966	2,519	11,078	11,017	17,091	14,959
Operating Income/(Loss), Excluding Depreciation	104	(10)	2,388	2,132	(8,212)	(6,528)
Depreciation	4,454	4,454	277	336	816	806
Operating Income/(Loss)	(4,350)	(4,464)	2,111	1,796	(9,028)	(7,334)
Nonoperating Revenue/(Expense)	38	38	1,130	1,328	1,124	1,036
Transfers/Capital Contributions	2,000	-	-	-	8,417	8,427
Change in Net Position	\$ (2,312)	\$ (4,426)	\$ 3,241	\$ 3,124	\$ 513	\$ 2,129

Comparative Montgomery County key data are as follows:

**Montgomery County Enterprise Fund Key Data (000's)
For the Fiscal Years Ended June 30, 2025 and 2024**

	Operating Revenues			Operating Income (Loss) Excluding Depreciation		
	FY2025	FY2024	Change	FY2025	FY2024	Change
Event Centers	\$ 545	\$ 484	\$ 61	\$ (254)	\$ (257)	\$ 3
Golf Courses	582	469	113	582	469	113
Ice Rinks	5,338	5,503	(165)	883	990	(107)
Indoor Tennis	2,173	2,095	78	588	457	131
Park Facilities	4,828	4,598	230	589	473	116
Total	<u>\$ 13,466</u>	<u>\$ 13,149</u>	<u>\$ 317</u>	<u>\$ 2,388</u>	<u>\$ 2,132</u>	<u>\$ 256</u>

The Montgomery County Enterprise Fund revenues increased by \$317,000 and operating income, excluding depreciation increased by \$256,000. Operating revenues and operating income for the Ice Rinks increased over the prior year. The Golf Courses received a higher lease payment than in prior years.

Comparative Prince George's County key data are as follows:

**Prince George's County Enterprise Fund Key Data (000's)
For the Fiscal Years Ended June 30, 2025 and 2024**

	Operating Revenues			Operating Income (Loss) Excluding Depreciation		
	FY2025	FY2024	Change	FY2025	FY2024	Change
Airport	\$ 386	\$ 449	\$ (63)	\$ (342)	\$ (350)	\$ 8
Equestrian Center/Showplace Arena	1,647	1,526	121	(3,275)	(2,940)	(335)
Golf Courses	3,460	3,124	336	(618)	(980)	362
Ice Rinks	1,394	1,356	38	(841)	(505)	(336)
Tennis Bubbles/Administration	521	406	115	(1,897)	(1,394)	(503)
Trap and Skeet Center	1,308	1,389	(81)	(248)	(59)	(189)
Bladensburg Marina	163	181	(18)	(990)	(300)	(690)
Total	<u>\$ 8,879</u>	<u>\$ 8,431</u>	<u>\$ 448</u>	<u>\$ (8,211)</u>	<u>\$ (6,528)</u>	<u>\$ (1,683)</u>

The Prince George's County Enterprise Fund revenues increased by \$448,000 and the operating loss, excluding depreciation, increased by \$1,683,000. Although operating revenues were higher for all of the segments, operating income was still negative in all segments. Most had a similar loss to the prior year.

General Fund Budgetary Highlights

The Commission's park, recreation, planning and general administrative functions are financed primarily by five legally designated property taxes that must be levied on a separate County basis. These functions are accounted for in accounts within the General Fund, each of which has its own budget, and is presented separately in the Notes to the Financial Statements.

A summary of the Montgomery County budget to actual variances follows:

**Montgomery County Budget to Actual Variances (000's)
For the Year Ended June 30, 2025**

	Administration Account	Park Account
Unfavorable property tax collections	\$ (269.9)	\$ (2,038.0)
Favorable charges for services	190.4	649.9
Unfavorable intergovernmental revenue	(150.0)	(387.6)
Favorable investment revenue	776.3	1,370.7
Favorable other revenue	2.7	120.4
Total favorable revenue variance	<u>549.5</u>	<u>(284.6)</u>
Expenditure savings	1,604.6	1,468.5
Favorable other financing sources/(uses)	-	1,229.5
Total favorable budgetary variance	<u>\$ 2,154.1</u>	<u>\$ 2,413.4</u>

Property tax collections were less than the budget due to the estimated assessable base by the county government. Charges for Services exceeded the budget for the Administration Account due to higher than projected development fees. Charges for Services were slightly over budget in the Park Account. Intergovernmental Revenue was down in both accounts due to fluctuation in grant availability. Investment Revenue exceeded budget expectation. Other Revenues exceeded budget both for the Administration Account and the Park Account due to collections of donations, fines and other miscellaneous revenue. Expenditure savings for both funds was primarily a result of delays in filling vacant positions. The favorable result in other financing uses was due to delayed issuance of bonds for construction projects and higher than anticipated interest earned in the CIP Fund which is transferred to the Park Account.

The results summarized above, in conjunction with fund balances carried forward, resulted in ending fund balances for Montgomery County as indicated in the following table:

The results summarized above, in conjunction with fund balances carried forward, resulted in ending fund balances for Montgomery County as indicated in the following table:

**Montgomery County Budgetary Fund Balances (000's)
June 30, 2025**

	Administration Account	Park Account
Fund balance, budget basis		
Assigned:		
Subsequent year's budget appropriation	\$ 4,351.3	\$ 4,032.8
Unassigned, available for appropriation	<u>2,621.4</u>	<u>6,614.4</u>
Total Budgetary Fund Balance	<u>\$ 6,972.7</u>	<u>\$ 10,647.2</u>

A summary of the Prince George's County budget to actual variances follows:

**Prince George's County Budget to Actual Variances (000's)
For the Year Ended June 30, 2025**

	Administration Account	Park Account	Recreation Account
Favorable/(unfavorable) property tax collections	\$ (200.2)	\$ 36.0	\$ (372.1)
Favorable/(unfavorable) Intergovernmental	(6.0)	12.8	258.3
Favorable/(unfavorable) charges for services	(40.2)	(835.2)	(1,377.8)
Favorable investment revenue	4,563.1	7,680.6	4,802.3
Favorable/(unfavorable) other revenue	2.7	(182.5)	621.2
Total favorable revenue variance	4,319.4	6,711.7	3,931.9
Expenditure savings	13,575.9	12,340.1	18,648.1
Favorable other financing sources	-	15,292.7	-
Total favorable budgetary variance	<u>\$ 17,895.3</u>	<u>\$ 34,344.5</u>	<u>\$ 22,580.0</u>

Property tax collections in the Administration and Recreation Accounts were lower than budgeted due to anticipated assessable base growth while the Park Account had slightly higher collections. Intergovernmental revenue decreased in the Administration Account but was over budget for the Park and Recreation accounts. Charges for services decreased in the Administration Account as a result of less revenues than expected generated from Zoning and Urban Design application fees. Charges for Services also decreased in both the Park Account and the Recreation Account primarily due renovations of facilities. The investment revenue variance was favorable in each of the Accounts. Other Revenue in the Park Account was lower than budgeted due to miscellaneous contributions, donations, and other miscellaneous revenue not materializing. The expenditure savings in all of the Accounts were mostly the result of vacant positions.

The results summarized above, in conjunction with fund balances carried forward, resulted in ending fund balances for Prince George's County as indicated in the following table:

The results summarized above, in conjunction with fund balances carried forward, resulted in ending fund balances for Prince George's County as indicated in the following table:

Capital Asset and Debt Administration

Capital assets. The Commission’s investment in capital assets for its governmental and business-type activities as of June 30, 2025 amounts to \$1,547.6 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, right-to-use lease assets, machinery, equipment and intangibles, park facilities, trails, and roads. The total increase in the Commission’s investment in capital assets for the current fiscal year was 2.7% (a 3.3% increase for governmental activities and a 1.8% decrease for business-type activities). \$10.2 million in purchased land acquisitions took place in the governmental activities (Montgomery County - \$0.5 million and Prince George’s County - \$9.7 million).

Proceeds of general obligation park acquisition and development bonds are accounted for in the Capital Projects Funds until the projects are completed. Completed projects and construction in progress at year-end are shown as capital assets in the Government-wide Statement of Net Position. During fiscal year 2025, \$92.0 million in projects were completed and capitalized in the governmental activities.

Expenditures for Montgomery County projects totaled \$33.0 million in fiscal year 2025, \$0.5 million for property acquisitions and \$32.5 million for development. The property acquisition for the year was for the Upper Paint Branch Stream Valley Park. Development expenditures included: \$5.0 million for Ovid Hazen Wells Recreational Park, \$2.1 million for ballfield improvements, \$1.8 million was expended for playgrounds with play equipment upgrades, and \$1.0 million for various ADA improvement projects.

Prince George’s County projects totaled \$61.2 million in fiscal year 2025, of which \$9.7 million was for property acquisition and \$51.4 million was for development. Land acquisitions included a purchases for the Paint Branch Steam Valley Park and the North College Park Indoor Recreational Facility. Major park development expenditures included \$10.2 million for Marlow Heights Community Center, \$4.6 million for Prince George’s Stadium, \$2.9 million for Oxon Hill Manor, \$7.2 million for various Infrastructure Improvements, and \$3.9 million for playground equipment replacements.

Total	\$ 1,395,279	\$ 152,320	\$ 1,547,599	\$ 1,345,016	\$ 154,885	\$ 1,499,901	3.2%

Additional information on the Commission’s capital assets can be found in Note 4B of the Notes to the Financial Statements in this report.

Long-term debt. Debt Service Funds are used to account for the payments on the Commission’s general obligation debt, which includes Park Acquisition and Development Bonds (Park Bonds) and Advance Land Acquisition Bonds (ALA Bonds). The outstanding issues totaling \$200.0 million and the related debt service requirements to maturity are set forth in Note 4E of the Notes to the Financial Statements.

The Commission’s general obligation bonds are unconditionally guaranteed by the Commission and the county for which issued. Debt service principal and interest expenditures for Park Bonds and ALA Bonds totaled \$19.2 million (Montgomery - \$6.9 million; Prince George’s - \$12.3 million) for the fiscal year. Of the outstanding debt, Park Bonds totaled \$187.3 million (Montgomery County - \$63.3 million and Prince George’s County - \$124.0 million) at June 30, 2025. Park Bonds debt service expenditures totaled \$19.1 million (Montgomery - \$6.8 million, Prince George’s - \$12.3 million) for the fiscal year.

The Commission’s Metropolitan District (Park) tax includes a mandatory tax for debt service for Park Bonds of 3.6 cents per \$100 of assessed valuation for real property (9 cents for personal property) in Montgomery County and 4 cents per \$100 of assessed valuation for real property (10 cents for personal property) in Prince George’s County. In 2024, debt service payments approximated 0.33 cents per \$100 of real property and 0.83 cents per \$100 of personal property for Montgomery County and 0.89 cents for real property and 2.23 cents for personal property for Prince George’s County. The remainder of the proceeds of the mandatory taxes was used for park operation and maintenance expenditures in the respective counties.

The Commission’s outstanding general obligation bonds have the following ratings:

**Commission General Obligation Bond Ratings
June 30, 2025**

	Moody’s Investor Services Inc.	Standard & Poor’s Rating Services	Fitch Ratings
Montgomery County	Aaa	AAA	AAA
Prince George’s County	Aa1	AAA	AAA

Details of the Commission’s outstanding debt (net of unamortized discounts and premiums) as of June 30, 2025, are as follows (\$000’s):

**Commission’s Outstanding Debt
June 30, 2025 and 2024**

	Governmental Activities		Change
	2025	2024	
General obligation bonds	\$ 200,028	\$ 192,438	3.9%
Total	\$ 200,028	\$ 192,438	3.9%

**Montgomery County Outstanding Debt
June 30, 2025 and 2024**

	Governmental Activities		Change
	2025	2024	
General obligation bonds	\$ 66,808	\$ 72,568	-7.9%
Sub-Total	\$ 66,808	\$ 72,568	-7.9%

**Prince George’s County Outstanding Debt
June 30, 2025 and 2024**

	Governmental Activities		Change
	2025	2024	
General obligation bonds	\$ 133,220	\$ 119,870	11.1%
Sub-Total	\$ 133,220	\$ 119,870	11.1%

The Commission’s bonds and notes payable increased by \$7.6 million for the fiscal year due to scheduled principal payments with an offset by a bond issue of \$22.0 million for Prince George’s County. State statutes limit the amount of general obligation debt the Commission may issue to the amount that can be redeemed within 30 years from date of issue by the taxes authorized for payment of the bonds. The legal debt margin for the Commission is \$2,161.2 million of debt service for Montgomery County and \$1,481.3 million of debt service for Prince George’s County, which is in excess of the Commission’s required debt service of \$78.2 million and \$157.4 million, respectively, over the 30-year period.

Additional information on the Commission’s long-term debt can be found in Note 4E of the Notes to the Financial Statements.

Economic Factors and Next Year’s Budgets and Rates

The Commission continues to maintain a solid financial position and stable future outlook supported by the stability of its major revenue source, property taxes which represented 83.7% of the Governmental Funds revenues in FY 2025. Strong fiscal policies including fund balance reserves, interim financial reporting to monitor revenues and expenditures, and long-term fiscal plans enabled the Commission to respond to the strategies incorporated by the two County Governments in setting the FY 2026 tax rates and adopting the FY 2026 Budget.

During the early months of FY 2025, the Commission continued recovery from the pandemic as program activities were nearly fully restored. Any revenue losses were offset by reduction in costs, vacancy savings, use of fund balance, and retained earnings in the Enterprise Funds in the near term.

Property tax revenues have remained steady. Commission staff will work with the County budget offices to understand how changing work patterns and consumer behavior may affect commercial property valuations over time. The most recent assessable base estimates released by the State Department of Assessments reflect an overall growth in value as of December 2025.

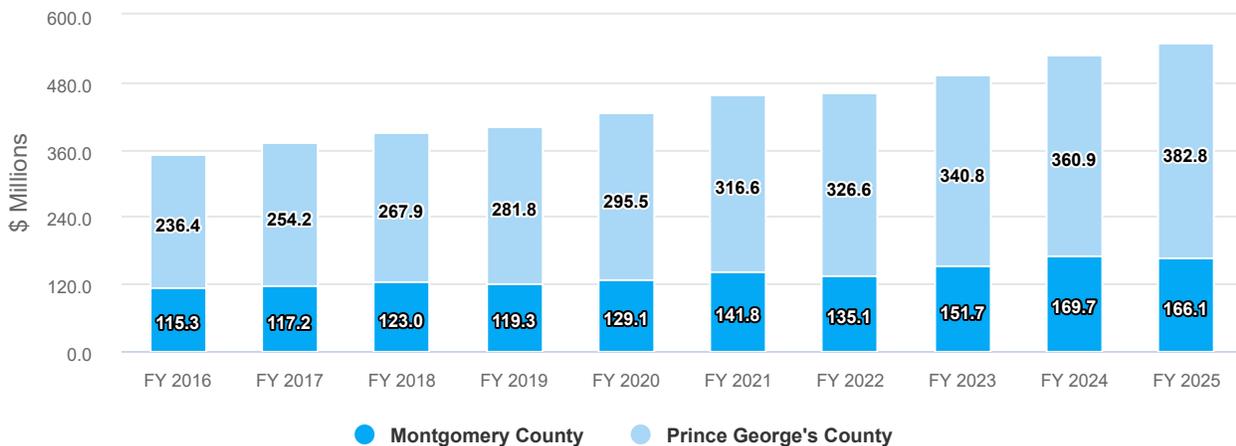

The Commission’s property tax rates in the two counties are set based on different fiscal strategies. In Montgomery County, the Commission’s property tax rates are set in conjunction with the Montgomery County Government property tax rates. In FY 2026 the Commission’s Montgomery County Administration Fund property tax rate decreased by 0.08 cents, the Park Fund tax rate increased by 0.12 cents, and the taxable real property assessable base is projected to increase by 6.02%. Commission property tax revenue in Montgomery County is budgeted to increase by 6.4% and budgeted expenditures have modest increases.

In Prince George’s County, there was no change to the real property and the personal property tax rates in FY 2026. In FY 2026, the real property assessable base is projected to increase by 4.9%. With the strong assessable base growth in prior years, property tax revenues increased at a greater rate than expenditures, enabling the Commission to budget a large amount of current revenue to fund the capital improvement program. This keeps debt levels relatively low and provides capacity to assist the Prince George’s County Government in funding programs they deliver to the community, which are eligible to be funded by Commission property tax revenues. These expenditures are referred to as project charges. The project charges increased from \$14.2 million in FY 2024 to \$16.0 million in FY 2025, and for FY 2026, they are budgeted at \$32.1 million.

One-third of the property in the state of Maryland is inspected and revalued by the State Department of Assessments and Taxation each year so that all real property is inspected and revalued once every three years. The three-year cycle results in a smoothing effect on property tax revenues. In times of slowing or decreasing growth, the assessable base declines at a slower rate which affords the Commission time to adjust its service delivery and spending levels in response to what is economically affordable. When the economy is recovering, the assessments growth rate will lag somewhat.

Property tax revenues over the past 10 years are displayed in the chart below.

Property Tax Revenues

At year-end, the Commission had a fund balance in the General Fund of \$336.7 million. Of this amount, \$107.1 is assigned fund balance and \$229.6 million is unassigned as of June 30, 2025. Of the unassigned portion, \$220.4 million is from Prince George's County operations and will be utilized in future years to build out an aggressive capital improvement program and maintain a stable tax rate in accordance with its long-term fiscal plan.

The Commission's Montgomery County activities are subject to spending affordability guidelines of the Montgomery County Government. In Prince George's County, a Spending Affordability Committee makes recommendations during the budgetary process to the County Executive and the County Council concerning spending affordability of the Commission's Prince George's County operations.

The spending affordability processes along with close monitoring of financial results and projections during the fiscal year add to the solid foundation of financial management and assist the Commission in meeting the challenge of providing enhanced public services at an economical cost.

Requests for Information

The financial report is designed to provide a general overview of the Commission's finances for those with an interest in the Commission's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Department of Finance, Office of Secretary-Treasurer, The Maryland-National Capital Park and Planning Commission, 6611 Kenilworth Avenue, Riverdale, Maryland 20737. This report may also be found on the Commission's website, <https://www.mncppc.org> (Search ACFR).

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	1,287,611,236
Deferred outflows of resources related to pensions, OPEB and refunding of debt are applicable to future periods and, therefore, are not reported in the funds.	182,442,606
Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds.	1,192,660
Internal service funds are used by management to charge the costs of capital equipment financing, risk management, group insurance and the Executive Office Building. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	211,247,905
Some of the Commission's taxes will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and therefore are reported as deferred revenue in the funds.	4,445,316
Deferred inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the funds.	(93,989,548)
Long-term liabilities, including bonds payable, net pension liability and net other post employment benefits liability are not due and payable in the current period and therefore are not reported in the funds.	(798,143,319)
Net Position of Governmental Activities	<u>\$ 1,377,982,932</u>

THE MARYLAND-NATIONAL CAPITAL PARK AND PLANNING COMMISSION

Exhibit 5

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2025

Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:

Net change in fund balances – total governmental funds (Exhibit 4) \$ (9,603,473)

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized expenditures exceeded depreciation in the current period.

Capitalized Expenditures	96,377,455	
Depreciation Expense	(49,487,740)	
Net adjustment	46,889,715	46,889,715

The net effect of various transactions involving capital assets is to increase Net Assets on the Statement of Activities.

Loss on Disposal	(3,142,521)	
Donations	2,331,255	
Net adjustment	(811,266)	(811,266)

Tax revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This is the amount by which the unavailable revenue changed from last fiscal year.

(873,538)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

General Obligation Debt incurred	(22,000,000)	
Repayments of Principal	13,001,838	
Lease and Subscription Liability (net)	4,641,058	
Net adjustment	(4,357,104)	(4,357,104)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. This amount is the net other post employment liability, pension liability, compensated absences, and other expenses.

(25,603,580)

Accrued interest expense reported in the Statement of Activities does not require the use of current financial resources and, therefore, is not reported as expenditures in governmental funds. The amount is the impact of the net change in the liabilities from the prior year.

199,894

Internal service funds are used by management to charge the costs of capital equipment financings, employee benefits, risk management and Executive Office Building costs, to individual funds. The change in net position of the internal service funds is reported with governmental activities.

34,067,488

Change in net position of governmental activities (Exhibit 2)

\$ 39,908,136

The notes to the financial statements are an integral part of this statement.

(1) – Summary of Significant Accounting Policies**(A) – The Commission and Its Services****Background**

The Maryland-National Capital Park and Planning Commission (the “Commission”) is a body corporate of the State of Maryland established by the Maryland General Assembly in 1927. The Commission is a bi-county agency. It is empowered to acquire, develop, maintain and administer a regional system of parks in the defined Metropolitan District in Montgomery and Prince George’s Counties and to prepare and administer a general plan for the physical development of a defined Regional District for the two Counties. The Commission also conducts the recreation program for Prince George’s County. The express powers of the Commission are provided in the Land Use Article of the Annotated Code of Maryland, Sections 15-115 and 15-116. As a body corporate of the State of Maryland, the Commission is not generally subject to local county legislation such as the Tax Reform Initiative by Marylanders (“TRIM”), a Prince George’s County Charter Amendment originally enacted in November 1978.

The major source of funding for the Commission’s primary services are five property taxes levied on an individual County basis: Montgomery County administration tax – planning and general administration; Montgomery County park tax - park operations and debt service for park acquisition and development bonds; Prince George’s County administration tax – planning and general administration; Prince George’s County park tax - park operations and debt service for park acquisition and development bonds; and the Prince George’s County recreation tax for the recreation program. Five separate accounts are maintained within the General Fund to account for the Commission’s primary services. Revenues and expenditures that can be specifically identified with a County are recorded in the appropriate account of that County and those that apply to both Counties are allocated to the appropriate accounts. Other funds and accounts are maintained on a Commission-wide or on a separate County basis as necessary and appropriate.

The provisions of Sections 15-115 and 15-116 of the Land Use Article of the Annotated Code of Maryland require that the Commission publish an annual financial report and that its financial statements be audited by independent certified public accountants. The accompanying financial statements have been presented to meet the financial reporting needs of the Commission and the requirements of Maryland law.

Financial Reporting Entity

As required by accounting principles generally accepted in the United States of America (GAAP), these financial statements present the Commission and its blended component units, the Employee Retirement System (ERS) and the 115 Trust. A blended component unit, although a legally separate entity, is, in substance, part of the Commission’s operations and therefore data from these units are combined with data of the Commission. Accordingly, the financial statements of these component units are included as pension and OPEB trust funds in the accompanying financial statements.

ERS is administered by the 11-member Board of Trustees, in accordance with the Trust Agreement between the Board and the Commission, is a contributory defined benefit pension system qualified under the Internal Revenue Code Section 401(a). The administrative operations are the responsibility of the ERS Staff and Board-appointed Administrator, who reports directly to the Board of Trustees. Publicly available Financial Statements for the ERS can be obtained at 6611 Kenilworth Avenue, Suite 100, Riverdale, Maryland 20737.

The Other Post-Employment Benefits Trust (the Trust), administered by the 5-member Board of Trustees, in accordance with the Trust Agreement between the Board and the Commission, is a trust qualified under the Internal Revenue Code Section 115 to provide health insurance benefits for eligible participants. Only employer funds are held in the trust. The administrative operations are the responsibility of the Administrator who is a Commission employee and reports directly to the Board of Trustees. Separate financial statements are not issued for the Trust.

In accordance with GAAP, the Commission represents a joint venture of Montgomery and Prince George’s Counties, reportable in the notes to their respective financial statements. The financial data of the Commission pertinent to Montgomery County and Prince George’s County for governmental funds are set forth on a County basis in Note 6.

(B) – Government-wide and Fund Financial Statements

The Commission follows accounting standards established by the Governmental Accounting Standards Board - (GASB).

Government-wide Financial Statements – The reporting model includes financial statements prepared using full accrual accounting for all of the Commission's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable), but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Full accrual accounting also recognizes all revenues and the full cost to provide services each year, not just those received or paid in the current year or soon thereafter. Neither fiduciary funds nor component units that are fiduciary in nature are included in Government-wide financial statements.

The basic financial statements include both Government-wide (based on the Commission as a whole) and fund financial statements. The focus is on both the Commission as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds (by category). Both the Government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the Government-wide Statement of Net Position and Statement of Activities, both the governmental and business-type activities columns are presented on a consolidated basis by column on a full accrual, economic resource basis, as discussed above. Eliminations have been made to minimize the double counting of internal activities. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

The Government-wide Financial Statements are made up of the following:

Statement of Net Position – The Statement of Net Position is designed to display the financial position of the Commission (government and business-type activities). The Commission reports all capital assets, including infrastructure, in the Government-wide Statement of Net Position and reports depreciation expense – the cost of “using up” capital assets – in the Statement of Activities. Net position is the excess of assets and deferred outflows over liabilities and deferred inflows. The net position of the Commission is presented in three categories – 1) net investment in capital assets; 2) restricted; and 3) unrestricted. The Commission generally first uses restricted net position for expenses incurred for which both restricted and unrestricted net position are available. The Commission may defer the use of restricted net position based on a review of the specific transaction.

Statement of Activities – The Government-wide Statement of Activities reports expenses and revenues in a format that focuses on the cost of each of the Commission's functions. The expense of each individual function is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants). The Government-wide Statement of Activities reflects both the gross and net cost per functional category (county planning and zoning, park operations and maintenance, recreation, etc.) that is otherwise being supported by general government revenues. The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions. The program revenues must be directly associated with the function (county planning and zoning, park operations and maintenance, recreation, etc.) or a business-type activity. Program revenues include 1) charges for county planning and zoning services; 2) charges for park operations and maintenance; 3) rentals and concessions; 4) recreational and cultural facilities and events and; 5) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported as general revenues. Direct expenses are considered those that are clearly identifiable with a specific function or segment. The Commission does not allocate indirect expenses. The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

Fund Financial Statements – Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

In the fund financial statements, financial transactions and accounts of the Commission are organized on the basis of funds. The operation of each fund is considered to be an independent fiscal and separate accounting entity, with a self-balancing set of accounts recording cash and/or other financial resources together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific

Notes to Financial Statements

activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The governmental fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the Government-wide statements' governmental activities column, reconciliations are presented which briefly explain the adjustments necessary to reconcile the fund financial statements to the governmental activities column of the Government-wide financial statements.

The Commission's fiduciary funds, the Employees' Retirement System and the Other Post-Employment Benefits Fund, which are fiduciary in nature, are presented in the fund financial statements by fund type (pension and private purpose trust). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the Commission, these funds are not incorporated into the Government-wide statements.

Budgetary Comparison Schedules – Demonstrating compliance with the adopted budget is an important component of the Commission's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments and have a keen interest in following the financial progress of their governments over the course of the year. For this reason, the Commission has chosen to make its General Fund budgetary comparison statement part of the basic financial statements. The Commission and many other governments revise their original budgets over the course of the year for a variety of reasons.

Since the Commission adopts its General Fund budget by accounts within each county, each of which has a dedicated tax levy, budgetary comparison summaries are presented for each account in Note 6. These accounts are as follows: Montgomery County Administration, Montgomery County Park, Prince George's County Administration, Prince George's County Park, and Prince George's County Recreation.

(C) – Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The Government-wide, proprietary, and pension trust and private purpose fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are generally recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year in which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Employee and employer contributions to pension trust funds are recognized as revenues (additions to net position) in the period in which employee services are performed. Both benefits and refunds paid are recognized as expenses (deductions from net position) in the period in which paid.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Amounts not received within 60 days are reported as deferred revenue. Expenditures are generally recorded when a liability is incurred, as under the accrual basis of accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment has matured and is due.

Property taxes, interest and grants associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Commission.

The Commission reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the Commission. It is used to account for the tax revenues and other revenues which fund the Commission's general operations and to account for all other financial resources except those required to be accounted for in another fund.

Montgomery County and Prince George's County Capital Projects Funds – These Capital Projects Funds are used to account for the acquisition, development or improvement of parkland and the acquisition or construction of major capital facilities other than those accounted for in the proprietary funds and the Advance Land Acquisition Accounts in the Private Purpose Trust Funds. The Commission maintains separate funds for each county.

The Commission reports the following major enterprise funds:

Wheaton Headquarters Enterprise Fund – This Enterprise Fund is used to account for the operation of Wheaton Headquarters building. The building is a shared facility with offices of the Commission and some offices of Montgomery County Government. Due to the building lease to Montgomery County Government, which is over 50% of the anticipated revenue, the Fund is reported as an Enterprise Fund rather than an Internal Service Fund.

Montgomery County and Prince George's County Enterprise Funds – These Enterprise Funds are used to account for recreational and cultural facilities' operations that are financed and operated in a manner similar to private business enterprises. A separate Enterprise Fund is maintained for the enterprise operations of each county, each of which is considered a major fund.

Additionally, the Commission reports the following fund types:

Other Governmental Funds – The other governmental fund types used by the Commission are special revenue and debt service. Special revenue funds are used to account for specific revenues that are legally restricted for particular purposes. Debt service funds account for resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Internal Service Funds – Internal service funds are used to account for the financing of certain goods or services provided by one department to other departments of the Commission on a cost-reimbursement basis. There are nine internal service funds reported by the Commission: Montgomery County Capital Equipment Fund, Montgomery County Risk Management Fund, Largo Headquarters Fund, Prince George's County Capital Equipment Fund, Prince George's County Risk Management Fund, Central Administrative Services Capital Equipment Fund, Executive Office Building Fund, Employee Benefits Fund, and Commission Wide IT Initiatives Fund.

The Commission reports the following fiduciary fund types:

Pension and OPEB Trust Funds – The Employees' Retirement Fund is used to account for all activities of the Employees' Retirement System including accumulation of resources for, and payment of, retirement annuities and/or other benefits and the administrative costs of operating the system.

The Other Post-Employment Benefits (OPEB) Fund is used to account for the accumulation of Commission resources for post-retirement health care benefits provided by the Commission.

Private-Purpose Trust Funds – Private-purpose trust funds are used to account for funds whose principal and interest are legally held in trust and must be expended in accordance with their designated purposes. The most significant amounts included are the Advance Land Acquisition Accounts, which are used to acquire land for specific public uses, such as schools, libraries, parks or roads.

In the process of aggregating data for the Government-wide financial statements, some amounts reported as inter-fund activity and balances in the funds should be eliminated or reclassified. As a general rule, the effect of interfund activity has been eliminated from the Government-wide financial statements. The effect of the inter-fund services provided and used between functions has not been eliminated in the Statement of Activities, since to do so would distort the direct costs and program revenues reported for the various functions concerned. Internal Service Funds are used by management to charge to funds using the service costs of capital equipment financing, risk management, employee benefits, Commission-wide IT initiatives, Largo Headquarters, and the Executive Office Building. The assets and liabilities of the Internal Service Funds are included in the governmental activities column of the Statement of Net Position. The Commission eliminates internal service fund expenses by allocating the expenses to other functions. Expenses for capital equipment, risk management and Commission wide initiatives are allocated based on revenues, and for employee benefits based on salaries expense. The expenses of the Largo Headquarters Fund are allocated to county planning and zoning. The expenses of the Executive Office Building Fund are allocated to general government. The funds are so unique that a single allocation method was not appropriate.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a

Notes to Financial Statements

proprietary fund’s principal ongoing operations. The principal operating revenues of the enterprise funds and of the internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

(D) – Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position

Cash and Cash Equivalents – Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and mature within three months of the date acquired by the Commission.

Equity in Pooled Cash and Investments – The Commission pools the cash and investments of all funds into a common pool to maintain investment flexibility and maximize earnings. The Commission’s Finance Department manages the pool. Investment earnings are allocated to participating Funds based upon their average monthly equity in pooled cash balances. Commission investments, including those in the Pension Trust Fund, are stated at fair value.

Property Taxes Receivable – All property tax receivables are shown net of an allowance for uncollectible accounts of \$2,556,993 as of June 30, 2025. The property tax receivable allowance is based on an aging of receivables, with increasing percentages applied to older receivables. Property taxes are levied and collected for the special taxing districts of the Commission by Montgomery and Prince George’s County Governments, as appropriate. Semiannual tax payment plans are automatic for homeowners living in their properties unless they request an annual payment plan. Under the semiannual payment plan, one-half of the real property taxes are due by September 30 and the remaining one-half is due by December 31. Real property taxes are levied on July 1 each year and become delinquent on October 1 and January 1, at which time interest and penalties commence. Personal property and real property taxes levied for a fraction of a year are due when billed. Tax liens on real property are sold at public auction on the second Monday in June in Montgomery County and on the second Monday in May in Prince George’s County for taxes that are delinquent.

The property tax revenues and rates of the Commission are not subject to any legislative limitations. However, the respective County Council approves such revenues and rates when budgets are adopted.

Accounts Payable and Other Current Liabilities – Accounts payable includes only short-term liabilities due and payable within the normal course of business.

Inventories – Inventories which are being held for resale are valued at the lower of cost or market for proprietary funds. The consumption method is used for inventories of supplies which are reported at cost.

Capital Assets – Capital assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, trails, dams and similar items), are reported in the applicable governmental or business-type activities columns in the Government-wide financial statements. The Commission defines capital assets as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed and actual costs are not known. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and Improvements	20 – 40
Infrastructure	15 – 60
Machinery and Equipment	5 – 10

Deferred Outflows/Inflows of Resources – A deferred outflow of resources represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expenditures) until the future period. The Commission recognizes deferred outflows for the difference between the projected and actual investment earnings related to pensions. The Commission also recognizes deferred outflows for changes in assumption as well as for the difference between expected and actual experience.

A deferred inflow of resources represents an acquisition of net assets that applies to a future period so will not be recognized as an inflow of resources (revenue) until the future period. The Commission recognizes deferred inflows for property taxes collected in advance.

Compensated Absences – Commission employees earn annual leave and sick leave in varying amounts and are granted three days of personal leave annually. Some employees may also earn compensatory leave in lieu of overtime pay.

In the Government-wide financial statements and proprietary fund types in the fund financial statements, compensated absences are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. When annual and sick leave are used or taken by employees, the expense is charged directly to the employees' cost center. Compensated absences for leave liabilities for employees charged to proprietary funds, are charged directly to the proprietary funds' cost center to which the employee is assigned. The year-end liability for annual, sick, personal, and compensatory leave for all employees is calculated based on hours of leave available with an estimate of time expected to be used, priced at current salary rates plus applicable employer payroll taxes.

Long-term Obligations – In the Government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Leases and Subscription-Based Information Technology Arrangements (SBITAs) – The Commission participates in leases as either a lessee or a lessor for buildings, improvements, and equipment. The Commission is also a subscriber to noncancellable intangible subscription-based information technology arrangements (SBITAs) for the right-to-use vendor provided software. The Commission recognizes corresponding liabilities and assets for these transactions in the government-wide and business type financial statements.

At the commencement of a lease or SBITA, the Commission initially measures the liability at the present value of payments expected to be made during the lease/SBITA term. Subsequently, the liability is reduced by the principal portion of payments made. The lease/SBITA asset is initially measured as the initial amount of the liability, adjusted for payments made at or before the commencement date, plus certain initial direct costs (when applicable). Subsequently the lease/SBITA asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Commission determines (1) the discount rate it uses to discount the expected lease/SBITA payments to present value, (2) lease/SBITA term, and (3) lease/SBITA payments.

The Commission uses the interest rate charged by the lessor/subscription vendor as the discount rate. When the interest rate charged by the lessor or vendor is not provided, the Commission generally uses its estimated incremental borrowing rate as the discount rate.

The lease/SBITA term includes the noncancellable period of the lease. Lease/SBITA payments included in the measurement of the liability are sometimes composed of fixed payments and purchase option price that the Commission is reasonably certain to exercise.

The Commission monitors changes in circumstances that would require a remeasurement of its leases/SBITAs and will remeasure the related asset and liability if certain changes occur that are expected to significantly impact the amount of the liability.

Lease and SBITA assets are reported with other capital assets and liabilities on the statement of net position.

The Commission is a lessor for noncancellable leases of buildings. At the commencement of a lease, the lease receivable is measured at the present value of payments expected to be received during the lease at the commencement date. Subsequently, the lease receivable is reduced by the principal portion of the lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted

Notes to Financial Statements

for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgements include how the Commission determines the discount rate it uses for the expected lease receipts to present value, the lease term, and lease receipts. An estimated incremental borrowing rate is used as the discount rate for leases. The lease term includes the noncancelable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of payment terms provided in the lease which may be fixed or escalating.

Management monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the recorded lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Pensions – For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions and pension expense, information about fiduciary net position of The Maryland-National Capital Park and Planning Commission Employee's Retirement System (the System) and additions to /deductions from the System's fiduciary net pension have been determined on the same basis as they are reported in the System's financial statements. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Post-Employment Benefits (OPEB) – For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Commission's Post-Retirement Insurance Benefits Program (the Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts have a maturity at the time of purchase of one year or less, which are reported at cost.

Fund Balances - The Commission's policy is to maintain an adequate General Fund fund balance to provide liquidity in the event of an economic downturn and this policy is an important part of sound fiscal management. The Commission has adopted Resolution No. 21-23, a financial standard to maintain a minimum unassigned fund balance of the General Fund, so that at each fiscal year end, this balance shall not be less than 3% to 5% of the current year's expenditures.

Fund balances, presented in the governmental fund financial statements, represent the difference between assets, liabilities and deferred inflow of resources reported in a governmental fund. GASB Statement No. 54, "*Fund Balance Reporting and Governmental Fund Type Definitions*", establishes criteria for classifying fund balances into specifically defined classifications based upon the type of restrictions imposed on the use of funds and has classified fund balances into the following five categories:

- **Nonspendable** – Items that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventory and prepaid expenses.
- **Restricted** – Items that, in general, may only be expended for the specific purposes stipulated by external resource providers such as grantors or enabling federal, state, or local legislation. Restrictions may be changed or lifted only with the consent of the resource providers.
- **Committed** – Items that have been committed for specific purposes pursuant to constraints imposed by a formal action (i.e. resolution) by the entity's "highest level decision-making authority", which the Commission considers actions taken by the Chairman and Vice-Chairman to be the highest level. These committed amounts could be changed by reversing the same type of action the Commission employed to previously commit the funds. The formal action should occur prior to the end of the reporting period.
- **Assigned** – Represents amounts that are intended to be used by the Commission for a specific purpose, but they do not meet the criteria to be classified as committed. The Commission may assign fund balance, as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. In addition, the Commission may delegate assignment authority to the Planning Boards per the Land Use Article of the Annotated Code of Maryland.
- **Unassigned** – This category is for any balances that have no restrictions placed upon them. The General Fund is the only fund that reports a positive unassigned fund balance. This classification is only used by other funds

to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The Commission reduces restricted amounts first when expenditures are incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. The Commission then reduces committed amounts, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The Fund Balance in the General Fund Accounts is broken down as follows:

	Montgomery County		Prince George's County			Total
	Administration	Park	Administration	Park	Recreation	
Assigned:						
Purchases on Order	\$ 4,635,961	\$ 7,318,974	\$ 8,892,145	\$ 24,098,024	\$ 15,039,959	\$ 59,985,063
Subsequent year's budget appropriation	4,351,302	4,032,795	-	10,660,479	28,086,015	47,130,591
Unassigned	2,621,351	6,614,400	64,163,897	113,273,198	42,944,769	229,617,615
Total Fund Balance	<u>\$ 11,608,614</u>	<u>\$ 17,966,169</u>	<u>\$ 73,056,042</u>	<u>\$ 148,031,701</u>	<u>\$ 86,070,743</u>	<u>\$ 336,733,269</u>

Encumbrances – Encumbrance accounting is employed in the general, capital projects, and special revenue funds. Under this method, purchase orders, contracts, memoranda of understanding and other commitments outstanding at year-end do not constitute expenditures or liabilities. GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", provides additional guidance on the classification within the fund balances section of amounts that have been encumbered. Encumbrances of balances within the General, Capital Projects, and Special Revenue funds are classified as assigned. These encumbrances are separately classified in the financial statements and are summarized as follows:

General Fund - Montgomery County	\$ 11,954,935
General Fund - Prince George's County	48,030,128
Capital Projects Fund - Montgomery County	36,426,895
Capital Projects Fund - Prince George's County	42,905,274
Non-Major Governmental Funds	1,073,525

(2) – Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Position

The governmental fund balance sheet (Exhibit 3) includes reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the Statement of Net Position (Exhibit 1). Details related to the most significant items on the reconciliation are as follows.

Capital assets used in governmental activities are not financial resources, and therefore are not reported in the funds. The capital assets related to governmental funds (not including internal service funds) include:

Land	\$ 481,183,266
Buildings and Improvements	579,751,720
Infrastructure	327,855,099
Machinery, Equipment and Intangibles	123,967,265
Right-to-use Leases and Subscriptions	24,305,531
Accumulated Depreciation on Buildings, Improvements and Machinery, Equipment and Intangibles	(558,706,188)
Construction in Progress	309,254,543
Total	<u>\$1,287,611,236</u>

Notes to Financial Statements

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported in the funds. The long-term debt related to governmental funds (not including internal service funds) includes:

Bonds and Notes Payable:	
Due Within One Year	\$ 14,306,164
Due in More than One Year	184,385,518
Lease and Subscription Liability:	
Due Within One Year	3,470,747
Due in More than One Year	7,340,902
Net Other Post Employment Benefit Liability	377,447,849
Net Pension Liability	176,799,288
Compensated Absences	
Due Within One Year	14,238,254
Due in More than One Year	18,447,945
Accrued Interest Payable	1,706,652
Total	<u>\$ 798,143,319</u>

(3) – Stewardship, Compliance, And Accountability

(A) – Budgetary Information

The following procedures are used in establishing the annual budget.

On or before January 15, the Commission submits to the County Executive of each County a proposed annual budget for the respective accounts of the General Fund (including park debt service) and the Special Revenue Funds, and a budget plan for the respective Enterprise Funds and Internal Service Funds. The Capital Projects Funds’ budgets and six-year expenditure plans are submitted to the County Executive of Prince George’s County prior to each November 1 and to the County Executive of Montgomery County prior to November 1 of each odd-numbered year. These budgets and plans include proposed expenditures and the means of financing them.

Each County Executive transmits the budgets and plans with recommendations to the respective County Council. The County Councils conduct public hearings on the budgets and plans, and the budgets and plans are legally adopted prior to July 1.

The legal level of budgetary control is the department or function for the Administration Accounts and the Montgomery County Park Account, and the Account level for Prince George’s County Park Account, and Prince George’s County Recreation Account. The Commission’s expenditures may not exceed the total approved budget for each of the General Fund Accounts without prior approval by the respective County Council, except where grant funds received with the knowledge and approval of Prince George’s County constitute an automatic budget amendment, thereby increasing the appropriations. Management is authorized to allow a department or function within a General Fund Account to be overspent by up to 10% of the approved budget without Council approval, provided the account in total is not overspent.

General Fund and Special Revenue Fund unencumbered appropriations lapse at year-end. Capital project appropriations do not lapse until the project is completed. The budget plans for the proprietary funds serve as a guide to the Commission and not as legally binding limitations.

Formal budgetary integration is employed as a management control device for the General Fund. The budget for the General Fund is adopted on a modified accrual basis consistent with GAAP except that encumbrances are treated as expenditures.

The actual expenditures in the General Fund Statements of Revenues, Expenditures/Encumbrances, and Changes in Fund Balances - Budget (Non-GAAP Budgetary Basis) and Actual are presented on a basis consistent with The Maryland-National Capital Park and Planning Commission Adopted Annual Budget. All expenditures made during fiscal year 2025 were within the legal limitations pertinent to the Commission. Under the budgetary method, current year outstanding encumbrances are charged to the budgetary appropriations and are considered expenditures of

Notes to Financial Statements

the current period. Governmental GAAP considers outstanding encumbrances as reservations of fund balances that are charged to expenditures in the period in which the goods or services are used or received.

Reconciliation from the Budget Basis to the GAAP Basis for the year ended June 30, 2025, as noted in Note 6 is as follows:

	Montgomery County		Prince George's County			Total General Fund
	Administration Account	Park Account	Administration Account	Park Account	Recreation Account	
Adjustment to Expenditures						
To Increase -						
Encumbrances -						
June 30, 2024	\$ 6,135,459	\$ 7,710,643	\$ 16,004,641	\$ 22,029,034	\$ 17,837,164	\$ 69,716,941
To Decrease -						
Encumbrances -						
June 30, 2025	<u>(4,635,961)</u>	<u>(7,318,974)</u>	<u>(8,892,145)</u>	<u>(24,098,024)</u>	<u>(15,039,959)</u>	<u>(59,985,063)</u>
Total Adjustment	1,499,498	391,669	7,112,496	(2,068,990)	2,797,205	9,731,878

Notes to Financial Statements

(4) – Detailed Notes On All Funds

(A) – Cash and Investments

The Commission’s deposits and investments as of June 30, 2025, totaled \$2,234,295,978. The Commission’s unrestricted pool of deposits and investments of \$781,884,561 is available to all funds, except for the Pension Trust Funds.

Commission Cash and Investments:

Custodial Credit Risk - Deposits – At year-end, the carrying amount of cash deposits is \$9,570,432, and the bank balance is \$8,260,175. In addition, the Commission held cash at various locations totaling \$165,880. Of the bank balance, \$250,000 is covered by Federal depository insurance, and the remainder is collateralized by \$8,010,175 of securities held by a member of the Federal Reserve banking system in the name of the Commission and the Commission’s bank.

The Commission requires collateral for the bank balances of deposits and investments to be held in the Commission’s name by the trust department of a bank other than the pledging bank. The Commission’s policy was complied with throughout the year ended June 30, 2025. Collateral shall be maintained in excess of FDIC insurance coverage for all Commission bank cash accounts, certificates of deposits and time deposits.

Money Market Deposits – At year-end, the carrying value (fair value) of deposits in investment grade money market accounts is \$123,242,374. Of these deposits, \$290,242 relates to cash and investments restricted for construction.

Investments – The Annotated Code of Maryland authorizes the Commission to invest in obligations for which the United States has pledged its full faith and credit for the payment of principal and interest, obligations that are issued by a Federal agency, repurchase agreements, bankers’ acceptances, commercial paper, money market mutual funds, the State Treasurer’s investment pool, and certificates of deposit. Commission bond proceeds may also be invested in municipal bonds and notes. The investment program also complies with the Commission’s internal investment policy.

Statutes do not restrict the investment activity of the pension trust funds.

Cash and Investments Restricted for Unspent Debt Proceeds – At year-end, the Commission had \$5,409,737 of unspent bonds and note proceeds restricted to pay construction costs for various projects.

Custodial Credit Risk - Investments – This is the risk that, in the event of the failure of the counterparty, the Commission will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Statutes require that securities underlying repurchase agreements have a fair value of at least 102% of the cost of the investment. If during the year, the fair value of securities underlying such investments falls below this required level, additional collateral is pledged or other collateral in the amount of the required level is substituted. All collateral met statutory requirements and is held in the Commission’s name by a third-party custodian.

Fixed Income Investments – Fixed income investments included in the Commission’s Pooled Investments at June 30, 2025 were as follows:

Investment Type	Fair Value	Weighted Average Maturity (Days)
Maryland Local Government Investment Pool (MLGIP)	\$ 165,745,992	365.00
Federal Home Loan Bank Notes	100,968,129	262.30
U.S. Treasury Notes	96,544,224	479.74
Commercial Paper	78,593,500	148.25
Federal Home Loan Mortgage Association Notes	70,621,433	805.35
Federal Agricultural Mortgage Corporation Notes	55,512,272	121.18
Federal National Mortgage Association Notes	45,670,350	820.22
U.S. Treasury Bills	20,497,297	13.89
Federal Farm Credit Bank	20,274,000	93.00
Total Fair Value	<u>\$ 654,427,197</u>	
Portfolio Weighted Average Maturity		413.61

Pooled Investments – The State Legislature created the Maryland Local Government Investment Pool (MLGIP) with the passage of Article 95 22G, of the Annotated Code of Maryland and more recently defined by Title 17, subtitle 3 of the Local Government Article of the Maryland Annotated Code. The MLGIP, under the administrative control of the State Treasurer, is managed by a single Pittsburgh-based financial institution, PNC Bank. The pool has a AAAM rating from Standard and Poor’s and maintains a \$1.00 per share value. A MLGIP Advisory Committee of current participants was formed to review, on a semi-annual basis, the activities of the fund and to provide suggestions to enhance the pool. The fair value of the pool is the same as the value of the pool shares.

Interest Rate Risk – The Commission manages its exposure to declines in fair value by limiting the maturity of its investment portfolio. The majority of investments shall be for a maximum maturity of one year. A portion of the portfolio may be invested in U.S. Government and U.S. Agency securities with a maturity of up to two years. The Commission has no formal policy relating to interest rate risk.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation. The Commission’s investment policy requires that investments in commercial paper, money market accounts and bankers acceptances have received ratings of the highest letter and numerical rating by at least one nationally recognized statistical rating organization as designated by the Securities and Exchange Commission. Up to 10% of bond proceeds may be invested in money market mutual funds that have not received the highest rating but are still recognized as investment grade. All related investments have received ratings of the highest letter quality except for \$290,492 (5.37%) of bond funds invested in a money market fund that is considered investment grade.

Credit Quality Ratings as of June 30, 2025:

Credit Quality Ratings		% of Total Portfolio
Commercial Paper	A-1+	11.88%
MLGIP	AAA	25.41%
Municipal Bonds	AA+	0.04%
U.S. Government Agencies	AA+	44.43%
U.S. Treasury Bills	NR	3.48%
U.S. Treasury Bonds	AA1	3.83%
U.S. Treasury Notes	AA1	10.92%

NR=Not Rated

Notes to Financial Statements

Concentration of Credit Risk – Concentration of credit risk is the risk of loss attributed to the magnitude of the Commission’s investment in a single issuer. It is the Commission’s policy to diversify by investment type and institution in order to avoid unreasonable risks, with maximum limitation as follows:

Diversification by Investment Type	Maximum Percent of Portfolio*
Agency Mortgage Backed Securities (MBS)	25%
Asset Backed Securities (ABS)	25
U.S. Government Securities	100
U.S. Agency Securities	75
Repurchase Agreements	40
Negotiable Bank Certificates of Deposit	35
Bankers’ Acceptances	20
Commercial Paper	25
Pooled Investments (MLGIP)	100
Money Market Mutual Funds	50
Supranationals	25
Bond Proceeds:	
Municipal Securities	100
Money Market Mutual Funds – Highest Rating	100
Money Market Mutual Funds – Investment Grade	10
Diversification by Institution	Maximum Percent of Portfolio*
Approved Broker/Dealers and Financial Institutions	100%
Money Market Mutual Funds by Fund	100
U.S. Government Securities	33
U.S. Government Agency by Agency	5
Bankers Acceptances by Institution	33
Agency Mortgage Backed Securities (MBS)	5
Asset-Backed Securities (ABS)	5
Commercial Paper	5
Commercial Banks for CD’s	5
Negotiable Bank Certificates of Deposit	20
Repurchase Agreements	10
Supranationals	10

* At time of purchase

** Certificates of deposit are classified as deposits for financial reporting purposes.

The Commission is currently in compliance with this policy.

Employees’ Retirement System (ERS) Cash, Investments and Securities Lending:

Cash and Short-Term Investments – The amount of ERS’s total cash and short-term investments at June 30, 2025 is \$41,181,965. Cash deposits that were insured and collateralized in the bank account totaled \$72,074 at June 30, 2025. At June 30, 2025, the ERS held \$41,109,871 of short-term investments in its custodial investment accounts.

Investments – The Board of Trustees (the Board) of ERS is authorized by the Trust Agreement to invest and reinvest the Trust Fund, as may be determined by the investment consultant selected by the Commission. The Board is authorized to formulate investment policies, develop investment manager guidelines and objectives, and approve the retention of qualified advisors and investment managers.

Trust Fund assets should be invested to obtain an appropriate long-term total return consistent with prudent risk taking. The Trust Fund shall be diversified across investment classes and among investment managers in order to achieve return as compensation for investment risk. The Board had established target allocations for each asset class and updated them on May 6, 2025. Both the old and the new target allocations, as well as ranges of expected exposure are as follows:

	Old Policy		New Policy	
	Target Exposure	Expected Range	Target Exposure	Expected Range
U.S. Equity	15.00%	10%-20%	23.00%	18%-28%
International Equity	10.00%	5%-15%	11.00%	6%-16%
Global Low Volatility Equity	8.50%	5%-12%	N.A.	N.A.
Private Equity	8.00%	5%-12%	8.00%	5%-12%
Total Equity	41.50%	35%-48%	42.00%	36%-48%
U.S. Core Fixed Income	11.50%	8%-15%	14.00%	11%-17%
U.S. TIPS	N.A.	N.A.	4.00%	1%-7%
High Yield Fixed Income	10.00%	7%-13%	9.00%	6%-12%
Bank Loans	5.00%	2%-8%	5.00%	2%-8%
Emerging Market Debt	5.00%	2%-8%	3.00%	0%-8%
Global Opportunistic Fixed Income	10.00%	5%-15%	10.00%	5%-15%
Total Fixed Income	41.50%	35%-48%	45.00%	39%-51%
Public Real Assets	2.00%	0%-5%	N.A.	N.A.
Private Real Assets	15.00%	10%-20%	13.00%	7%-18%
Total Real Assets	17.00%	12%-22%	13.00%	7%-18%

Each investment manager has a set of guidelines, which contain investment objectives and risk control provisions which are appropriate for each manager's mission. Investment managers have discretion within the constraints of these guidelines and are subject to regular review by the Board. Investment manager assignments may be implemented with pooled vehicles. In such circumstances, the ERS may not have control with respect to the investment guidelines and objectives as they are written broadly for multiple investors. The Trust Fund has guidelines, which apply broadly to each asset class as follows:

Public Equity Guidelines (U.S. and International)

- Under normal conditions no more than 5% of the value of the U.S. and International composites should be held in cash equivalents at any time.
- The U.S. and International equity composites are expected to remain broadly diversified by economic sector, industry and individual securities at all times.
- The composites should match the asset class benchmark in terms of capitalization and growth characteristics and be like the asset class benchmark in terms of risk.
- Any single issuer is not expected to exceed 5% of the fair value of the U.S. or International equity asset class, or asset class benchmark weight plus 3% at any time.

Private Equity Guidelines

- The portfolio is expected to be diversified by geographic location with the following weightings: North America (approximately 50%), Europe (approximately 30%), and the Asia-Pacific region and other emerging markets (approximately 20%).
- The composite is expected to be diversified by the following investment types: buyouts, venture capital, growth equity, distressed, and special situations (private equity-like investments, such as mezzanine debt, asset-intensive assets or royalty streams and other opportunistic funds).
- Secondary fund investments and direct co-investments are permitted on an opportunistic basis with a combined maximum limit of 20%.
- Investments should be diversified by vintage year.

Notes to Financial Statements

- No single partnership investment is expected to be more than 20% of the private equity composite. This guideline shall not apply during initial funding.

Fixed Income Guidelines

- The fixed income portfolio is structured to include exposures to the following sub-classes: core fixed income, treasury inflation-protection securities (TIPS), high yield fixed income, global opportunistic fixed income, emerging markets, and bank loans.
- The fixed income composite may have up to 20% of its value in cash equivalents at any time.
- Except for securities issued by the US Government and/or its agencies, any single issuer is not expected to exceed 5% of the fair value of the fixed income composite at any time.
- Duration of each fixed income sub-class should typically remain within +/- 1.5 years of the sub-class benchmark.
- Credit quality for each sub-class is expected to be similar to that of the designated sub-class benchmark, as measured by a recognized rating agency (Standard & Poor's or Moody's).
- Build America Bonds issued by Montgomery County and Prince George's County are prohibited.
- Flexible global opportunistic fixed income guidelines allow managers to invest globally, seeking to add value through duration management, yield curve positioning, sector/issue selection, country market selection and currency.

Private Real Assets Guidelines

- Investments will be structured privately in the form of commingled or pooled vehicles such as limited partnerships and diversified among the following investment types: real estate, energy, mining, timber, agriculture, and infrastructure.
- The private real assets portfolio is expected to be diversified by geographic location with a minimum of 50% - 70% invested in the United States and the balance invested outside the U.S. and generally no more than 30% invested in emerging markets.
- Investments should also be diversified by vintage year. No single partnership commitment is expected to be more than 20% of the real assets portfolio or more than 20% of the portfolio of a fund-of-funds manager.

Public Real Assets Guidelines

- Investments structured in public real assets include natural resource stocks, real estate securities (including REITs), commodities, inflation indexed bonds, and global infrastructure that are broadly diversified such that each sub-asset class may contribute to the portfolio's real return and risk profile.

Derivatives Policy Statement – A Derivatives Policy Statement identifies and allows common derivative investments and strategies, which are consistent with the Statement of Investment Policy. The guidelines identify transaction-level and portfolio-level risk control procedures and documentation requirements. Managers are required to measure and monitor exposure to counterparty credit risk. All counterparties must have commercial paper credit ratings of at least A1 or equivalent rating. The duration and other risk exposure limits specified in the managers' guidelines are expected to be satisfied on an ongoing basis. Investment managers are permitted to use such derivatives for hedging purposes, including cross-hedging of currency exposures, to replicate the risk/return profile of an asset or asset class, and to tactically change country exposure. Derivative securities such as "plain vanilla" collateralized mortgage obligations (CMOs) and structured notes are allowed. CMOs which are not "plain vanilla" are restricted to 5% of a manager's portfolio. Any use of derivatives not listed above is prohibited without written approval of the Board. At June 30, 2025, the ERS did not hold any derivatives. Gains and losses are determined based on quoted fair values and recorded in the Statement of Changes in Net Position. The objective of Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments", is to enhance the usefulness and comparability of derivative instrument information reported by state and local governments.

The following uses of derivatives are prohibited:

- **Leverage.** Derivatives shall not be used to magnify exposure to an asset beyond that which would be allowed by the guidelines.

- **Unrelated Speculation.** Derivatives shall not be used to create exposures to securities, currencies, indices, or any other financial variable unless such exposures would be allowed by the manager's guidelines if created with non-derivative securities.

Typically, investment advisors enter into foreign exchange contracts to make payments for international investments. Foreign exchange contracts are agreements to exchange the currency of one country for the currency of another country at an agreed-upon price and settlement date. The investment advisor uses these contracts primarily for its international investments to settle pending trades. To reduce the risk of counterparty nonperformance, the investment advisors generally enter into these contracts with institutions meeting high standards of credit worthiness. The realized and unrealized gain/loss on contracts is included in the ERS' net position and represents the fair value of the contracts on June 30, 2025. The ERS' contracts to purchase and sell by foreign currencies were as follows:

Foreign Exchange Contracts Settled as of June 30, 2025:

Currency	Purchases	Realized Gain/(Loss)	Sells	Realized Gain/(Loss)
Brazilian real	\$ 42,624	\$ (234)	\$ (43,008)	\$ (268)
British pound sterling	1,945,199	1,037	(930,344)	32
Canadian dollar	300,402	(311)	(507,125)	(209)
Euro	3,483,643	9,998	(2,800,855)	(4,548)
Hong Kong dollar	909,843	426	(45,944)	(42)
Japanese yen	760,295	3,314	(316,856)	(191)
Mexican peso	49,950	31	(99,297)	(496)
New Taiwan dollar	574,825	-	(89,005)	(275)
Norwegian krone	129,961	(384)	(92,754)	(238)
Singapore dollar	69,136	67	(74,497)	(202)
South Korean won	393,765	-	(16,419)	(12)
Swiss franc	174,810	82	(90,963)	(166)

There were no foreign exchange contracts pending as of June 30, 2025.

Notes to Financial Statements

Fair Value Measurements – The fair value of all invested assets, based on the fair value hierarchy, and categorized based upon the lowest level of input that was significant to the fair value measurement which represents the price that would be received if sold on the measurement date, were as follows:

**Investments and Derivative Instruments Measured at Fair Value
(\$ in thousands)**

	Fair Value 6/30/2025	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by fair value level				
Cash and invested cash	\$ 178	\$ 178	\$ -	\$ -
Debt securities				
Asset backed securities	8,131	-	8,131	-
Commercial mortgage-backed	2,900	-	2,900	-
Corporate bonds	36,492	-	36,492	-
Government agencies	6,593	-	6,593	-
Government bonds	36,994	-	36,994	-
Government mortgage-backed securities	40,472	-	40,472	-
Government-issued commercial mortgage-backed	1,150	-	1,150	-
Other fixed income	3,332	-	3,332	-
Total debt securities	<u>136,064</u>	<u>-</u>	<u>136,064</u>	<u>-</u>
Equity investments				
Common stock	62,305	62,302	3	-
Total equity investments	<u>62,305</u>	<u>62,302</u>	<u>3</u>	<u>-</u>
Securities lending short-term collateral investment pool	39,781	39,781	-	-
Total investments by fair value level	<u>\$ 238,328</u>	<u>\$ 102,261</u>	<u>\$ 136,067</u>	<u>\$ -</u>

The pricing services used for fixed income securities (level 2) uses the Intercontinental Exchange, Inc. by Institutional Bid Evaluation daily; international fixed income securities (level 2) use the Intercontinental Exchange, Inc. or IBOXX by Institutional Mid Evaluation daily; corporate stock (level 1) uses the Intercontinental Exchange, Inc. as of the official close of NASDAQ daily; international corporate stock (level 1) uses SIX Financial by the Last Trade daily; venture capital (level 2) uses the Limited Partnership by the Institutional Bid Evaluation or Valuation as Priced for U.S. and international; and, real estate (level 2) uses the Investment Managers by Evaluation as priced.

Level 1 – Unadjusted quoted prices for identical instruments in active markets for identical assets or liabilities. Fair values of stocks are determined by utilizing quoted market prices.

Level 2 – Reflects measurements based on other observable inputs. Quoted prices for similar instruments in active markets; identical or similar instruments in markets that are not active; and models in which all significant inputs are observable.

Level 3 – Valuations are based on methods in which significant inputs are unobservable. The carrying value of cash equivalents and short-term investments approximates fair value to the short maturities of these investments.

ERS's investments at June 30, 2025 were as follows:

Investments Measured at the Net Asset Value (NAV)
(\$ in thousands)

	2025	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Short-term investment funds	\$ 40,932	None	Daily	1-6 days
Other fixed income	59,387	None	Monthly	30 days
Funds-other fixed income	117,578	None	Daily	1-6 days
Funds-common stock	447,020	None	Daily	1-6 days
Alternative investments	300,419	\$103,136	Not Eligible	N/A
Real Estate	44,803	None	Daily	1-6 days
Total investments measured at NAV	<u>1,010,139</u>			
Total investments	<u>\$ 1,248,467</u>			

Money-Weighted Rate of Return – For the year ended June 30, 2025, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 9.68%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The ERS has investments that are subject to various risks. Among these risks are custodial credit risk, interest rate risk, credit risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the ERS will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either a) the counterparty, or b) the counterparty's trust department or agent but not in the government's name. The ERS requires that all investments be clearly marked as to ownership and to the extent possible, shall be registered in the name of the ERS.

Of the ERS' \$1.25 billion in investments at June 30, 2025, \$39.8 million was cash collateral reinvestment securities acquired by the custodian, who is also the lending agent/counterparty. This is consistent with the ERS' securities lending agreement in place with the custodian.

For short-term investments, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

The amount of the ERS' total cash and short-term investments as of June 30, 2025, was approximately \$41.2 million. Cash deposits that were insured and collateralized in the cash account was approximately \$72 thousand for 2025. As of June 30, 2025, the ERS held approximately \$41.1 million in short-term investments none of which were exposed to custodial risk.

For short term investments, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned.

Interest Rate Risk – Each investment manager has duration targets and bands that control interest rate risk; however, the ERS does not have a policy relating to interest rate risk.

Notes to Financial Statements

As of June 30, 2025, the ERS had the following fixed income investments and short-term investments with the following maturities:

Investment Type	Fair Value	Weighted Average Maturity-Years
Asset backed securities	\$ 8,131,159	13.638093
Commercial mortgage-backed	2,899,854	13.838704
Corporate bonds	36,492,100	10.340631
Government agencies	6,592,965	7.692702
Government bonds	36,994,000	12.204364
Government mortgage-backed securities	40,471,830	25.335660
Government-issued commercial mortgage-backed	1,149,731	2.768353
Fixed income mutual funds	180,296,701	N/A
Short-term investment funds	40,932,040	N/A
TOTAL	<u>\$ 353,960,380</u>	<u>15.198556</u>

Asset-backed Securities – Asset-backed securities (ABS) are bonds or notes backed by loan paper or accounts receivable originated by banks, credit card companies, or other providers of credit. The originator of the loan or accounts receivable paper sells it to a specially created trust, which repackages it as securities. Brokerage firms underwrite the securities and reoffer them to the public. ERS held approximately \$8.1 million in ABS at June 30, 2025.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is measured by a nationally recognized statistical rating agency such as Standard & Poor’s Services. Individual manager guidelines require investment managers to follow certain controls, documentation and risk management procedures. Managers are required to measure and monitor exposure to counterparty credit risk; however, there is no formal policy relating to specific investment-related risk. All counterparties must have commercial paper credit ratings of at least A1 or the equivalent rating.

Individual investment manager guidelines include limitations on the percentage of securities below investment grade and various types of securities including derivatives. A Derivatives Policy Statement identifies and allows common derivative investments and strategies which are consistent with the Statement of Investment Policy.

Credit Quality Ratings as of June 30, 2025:

Credit Quality Distribution for Services		% of Total Portfolio
Agency	AGY	6.27%

Notes to Financial Statements

Foreign Currency Risk – The ERS does not have a policy for foreign currency risk. Foreign currency is intentionally unhedged.

The ERS' exposure to foreign currency risk at June 30, 2025, was as follows:

Investment Type	Currency	Fair Value
Common stock	Brazilian real	\$ 691,644
Common stock	British pound sterling	8,215,422
Cash	Canadian dollar	14,574
Common stock	Canadian dollar	2,265,053
Cash	Euro	11
Common stock	Euro	19,435,348
Common stock	Hong Kong dollar	2,409,036
Common stock	Japanese yen	5,226,032
Common stock	Mexican peso	795,318
Common stock	New Taiwan dollar	4,898,904
Common stock	Norwegian krone	1,966,581
Common stock	Singapore dollar	1,221,789
Common stock	South Korean won	1,010,033
Common stock	Swiss franc	2,965,915
Total		<u>\$ 51,115,660</u>

Note: This schedule does not agree with the total international obligations and international equities as listed on the Statements of Net Position due to international obligations valued in U.S. dollars but classified as international.

Cash Received as Securities Lending Collateral

The ERS accounts for securities lending transactions in accordance with GASB No. 28 Accounting and Financial Reporting for Securities Lending Transactions, which established standards of accounting and financial reporting for securities lending transactions.

The Board authorized the lending of fixed income securities, which is managed by the custodian bank. The Board authorized a securities lending loan cap of 50% effective February 1, 2011. There were no violations of legal or contractual provisions, and no borrower or lending agent default losses known to the securities lending agent as of June 30, 2025.

Securities are loaned against collateral that may include cash, U.S. government securities, and irrevocable letters of credit. U.S. government securities are loaned against collateral valued at 102% of the fair value of the securities plus any accrued interest. Non-U.S. government securities are loaned against collateral valued at 105% of the fair value of the securities plus any accrued interest. Non-cash collateral cannot be pledged or sold unless the borrower defaults. Consequently, the non-cash collateral has not been reported as an asset or liability on the Statement of Net Position. All securities loans can be terminated on demand by either the lender or the borrower, although the average term of overall loans was approximately 260 days in 2025.

Cash open collateral is invested in a short-term investment pool, the Northern Trust Collective Securities Lending Core Short-Term Investment Fund, which had an interest sensitivity of 15 days as of June 30, 2025. Cash collateral may also be invested separately in "term loans", in which case there are no dividends or coupon payments owing on the securities lent. Securities lending earnings are credited to the ERS' accounts on approximately the fifteenth day of the following month.

The custodial bank's responsibilities include performing appropriate borrower and collateral investment credit analyses; demanding adequate types and levels of collateral; and complying with applicable Department of Labor and Federal Financial Institutions Examination Council regulations concerning securities lending. Loss indemnification is provided when securities are not returned due to the insolvency of a borrower and the trustee bank fails to fulfill its contractual responsibilities relating to the lending of those securities to that borrower.

The following table presents the fair values of the underlying securities, and the value of the collateral pledged at June 30, 2025:

Securities Lent	Fair Value	Cash Collateral Received*
Fixed income securities	\$ 11,913,392	\$ 12,142,077
Domestic equities	1,167,816	1,196,561
Global equities	26,699,447	27,116,840
Total	<u>\$ 39,780,655</u>	<u>\$ 40,455,478</u>

*The securities collateral value is based on the ERS' pro rata share of the value of the securities collateral maintained at The Northern Trust Company on the program-wide collateralization levels.

Other Post-Employment Benefits (the Trust) Cash and Investments

The Trust participates in the Commission's pooled cash for payment of benefits, and had an equity in pooled cash balance of \$1,308,556. Investments in mutual funds, fixed income and real estate totaled \$193,750,491.

Investments – The Board of Trustees of the Trust (the Board) is authorized by the Trust Agreement dated July 1, 1999, the terms of which were amended and restated July 1, 2007, to invest and reinvest the Trust Fund. The Board is authorized to formulate investment policies, develop investment manager guidelines and objectives, and approve the retention of qualified advisors and investment managers. The target allocations as established by the Board for the authorized investment classes during fiscal year 2025 are as follows:

Asset Class	Maximum
Equity Index Funds	65%
Fixed Income	25%
Real Estate	10%

The Trust's investments at June 30, 2025 were as follows:

Investment Type	Fair Value
Equity Index Fund	\$ 131,902,648
Fixed Income	52,090,339
Real Estate	9,757,504
Total Investments	<u>\$ 193,750,491</u>

Notes to Financial Statements

Cash and investment balances are shown in the financial statements as follows:

<u>Statement of Net Position</u>	
Equity in Pooled Cash and Investments	\$ 771,433,521
Restricted Cash, Cash Equivalents and Investments - Unspent Bonds Proceeds	5,409,737

The majority of the transfers were used to provide funding capital Prince George’s Capital projects with \$30,000,000 to the Largo Fund and \$32,826,000 to the Capital Improvement Project Fund.

Proprietary fund transfers are made up of the following:

	Prince George's County Enterprise Fund
General Fund - Recreation Account	\$ 8,416,671
Total Transfers In	<u>\$ 8,416,671</u>

The Commission's policy is to account for the construction of Prince George's County Enterprise Fund assets in the Capital Projects Fund until completed. Once completed, the assets are transferred from Governmental Activities Capital Assets and capitalized in the Prince George's County Enterprise Fund.

In addition to the above transfers, tax revenues of \$2,236,639 not needed to pay current debt service were contributed by the Montgomery County Advanced Land Acquisition Debt Service Fund to the Montgomery County Advanced Land Acquisition Account in the Private Purpose Trust Funds and \$162 was contributed by the Prince George's County Advanced Land Acquisition Debt Service Fund to the Prince George's County Advanced Land Acquisition Account in the Private Purpose Trust Funds.

(D) – Leases and Subscription-Based Information Technology Arrangements

Commission as Lessee – The Commission has entered into various lease agreements as lessee primarily for office space, sports field usage, and office equipment. The leases normally have terms of five years or less and contain renewal options for future periods. The Commission has generally included these renewal periods in the lease term when it is reasonably certain that the renewal options will be exercised. Certain real estate leases require additional payments for common area maintenance, real estate taxes, and insurance, which are expensed as incurred. The Commission's leases do not contain any material residual value guarantees. When the interest rate is not implicit the Commission utilizes its incremental borrowing rate to discount the lease payments.

As of June 30, 2025, the statement of net position includes the following amounts:

	Governmental Activities			Business-type Activities		
	Lease Asset Value	Accumulated Amortization	Net Lease Asset Value	Lease Asset Value	Accumulated Amortization	Net Lease Asset Value
Total right-to-use lease assets:						
Buildings and Improvements	\$ 15,135,242	\$ 8,996,294	\$ 6,138,948	\$ -	\$ -	\$ -

Total	\$ 8,289,147	\$ 1,709,726	\$ 9,998,873	\$ 624,814	\$ 53,896	\$ 678,710

Commission as Lessor – The Commission has entered into various lease agreements as lessor primarily for leasing various facilities. The leases normally have terms of ten years or more and contain renewal options for future periods. The Commission has generally included these renewal periods in the lease term when it is reasonably certain that the renewal options will be exercised. When the interest rate is not implicit the Commission utilizes its incremental borrowing rate to discount the lease payments.

As of June 30, 2025, the schedule of future receipts included in the measurement of the lease receivables is as follows:

Fiscal Year	Governmental Activities			Business-type Activities		
	Principal	Interest	Total	Principal	Interest	Total
2026	\$ 309,940	\$ 71,420	\$ 381,360	\$ 27,756	\$ 142,536	\$ 170,292

Total	\$ 1,776,731	\$ 247,728	\$ 2,024,459	\$ 4,763,455	\$ 2,329,877	\$ 7,093,332

Commission as Subscriber – The Commission is committed under various subscription-based IT arrangements (SBITAs). As of June 30, 2025, the financial statements include the adoption of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). The primary objective of this statement is to enhance the relevance and consistency of information about subscription activities. The statement establishes a single model for subscription accounting based on the principle that subscriptions are financings of the right-to-use an underlying asset. Under this Statement, an organization is required to recognize a subscription liability and an intangible right-to-use subscription asset.

As of June 30, 2025, the statement of net position includes the following amounts in governmental activities relating to SBITAs (there are no business activity SBITAs at this time):

	SBITA Asset Value	Accumulated Amortization	SBITA Asset Value
Total right-to-use subscription assets:			
RTU SBITA software subscriptions	\$ 18,557,534	\$ 9,781,105	\$ 8,776,429
Total right-to-use assets	<u>\$ 18,557,534</u>	<u>\$ 9,781,105</u>	<u>\$ 8,776,429</u>
SBITAs Payable:			
Current	\$ 3,544,502		
Non-current	<u>4,035,996</u>		
Total	<u>\$ 7,580,498</u>		

The future principal and interest SBITA payments as of June 30, 2025, are as follows:

Fiscal Year	Principal	Interest	Total
2026	\$ 3,544,502	\$ 257,737	\$ 3,802,239
2027	3,460,466	137,867	3,598,333
2028	<u>780,570</u>	<u>20,211</u>	<u>800,781</u>
Total	<u>\$ 7,785,538</u>	<u>\$ 415,815</u>	<u>\$ 8,201,353</u>

(E) – Long-Term Obligations

General Obligation Bonds – The Commission is authorized to issue general obligation bonds for the acquisition of park land and the development of parks and recreational facilities, designated as Park Acquisition and Development Bonds (“Park Bonds”); to provide resources for advance land acquisition for highways, schools and other public purposes, designated as Advance Land Acquisition Bonds (“Advance Land Bonds” or “ALA”); and to refund both Park and Advance Land Bonds. The general obligation bonds are issued on the full faith and credit of the Commission and the County for which the bonds are issued.

Mandatory taxes of 3.6 cents per \$100 of real property assessed valuation (9 cents for personal property) in Montgomery County and at least 4 cents per \$100 of real property assessed valuation (10 cents for personal property) in Prince George’s County are required by the Land Use Article of the Annotated Code of Maryland, Sections 15-115 and 15-116 to be levied in the Metropolitan District in the respective counties for the payment of Park Bond debt service. In 2025, debt service payments approximated 0.33 cents per \$100 of real property and 0.83 cents per \$100 of personal property for Montgomery County and 0.89 cents for real property and 2.23 cents for personal property for Prince George’s County. The remainder of the proceeds of the mandatory taxes was used for operating and maintaining the park system of the respective counties.

The Advance Land Bonds are payable from limited annual ad valorem property taxes which are levied by the respective County on all property assessed for the purpose of County taxation.

Notes to Financial Statements

The debt service requirements to maturity for general obligation bonds, for each of the subsequent five years and in five-year increments thereafter is as follows (000's):

Notes to Financial Statements

New Bond Issues – On December 20, 2024, the Commission issued \$22,000,000 of Prince George’s County Park Acquisition and Development General Obligation Project Bonds Series PGC-2024A. The proceeds are to be used to pay the costs for certain capital park and acquisition projects in Prince George’s County and to pay, at the discretion of the Secretary-Treasurer, all or a portion of the costs of issuance of the 2024A bond. Semiannual payments of interest and annual principal payments are due until November 1, 2044 at a net interest cost of 4.510634%.

Changes in Long-term Liabilities – Changes in long-term liabilities for the year ended June 30, 2025, were as follows:

	Governmental Activities	Business-type Activities	Total
Compensated Absences:			
Due within One Year	\$ 14,411,723	\$ 395,079	\$ 14,806,802
Due in more than One Year	18,741,185	717,135	19,458,320
Bonds and Notes Payable:			
Due within One Year	14,726,164	-	14,726,164
Due in more than One Year	185,302,266	-	185,302,266
Leases and Subscriptions Payable:			
Due within One Year	5,957,470	167,233	6,124,703
Due in more than One Year	9,912,175	457,581	10,369,756
Net Other Post employment Benefit Liability			
Due in more than One Year	380,832,690	12,067,694	392,900,384
Net Pension Liability	<u>178,692,016</u>	<u>4,826,506</u>	<u>183,518,522</u>
Total Long-term Liabilities	<u>\$ 808,575,689</u>	<u>\$ 18,631,228</u>	<u>\$ 827,206,917</u>

Internal service funds predominantly serve the governmental funds. Accordingly, internal service fund long-term liabilities are included as part of governmental activities. For the governmental activities, claims and judgments, compensated absences, net pension liabilities and net other post-employment benefit liabilities are generally liquidated by the General Fund.

(5) – OTHER INFORMATION

(A) – Risk Management

The Commission is subject to various risk exposures related to property damage and destruction of assets; errors and omissions, injuries to employees and tort liability. The Commission protects against unforeseen losses through a combination of self-insurance and commercial insurance products. Self-insurance and some commercial insurance policies are administered through the Montgomery County Self-Insurance Fund (the “Program”), of which the Commission is a participant. The “Program” is beneficial for the purpose of economic pooling of risks and resources, and providing claims administration. Self-insured coverage is available for workers’ compensation (Maryland state mandatory limits), comprehensive general liability (Maryland Tort caps apply), professional liability, and property and fire damage (up to \$250,000). Commercial insurance policies are obtained for: property and fire damage above \$250,000, excess liability and commercial crime coverages. The Commission is responsible for reimbursing the Program up to the self-insured amount of \$250,000. Outside the “Program”, the Commission also carries Public Official bonds, airport liability and airport museum policies, national flood protection and cyber insurance protections. The Commission did not pay any claim settlements in excess of \$250,000 in fiscal years 2023, 2024 or 2025. No insurance coverages were reduced in fiscal year 2025.

The Commission offers three medical plans and their Medicare components. Two of the medical plans are self-insured through UnitedHealthcare (UHC); the Choice Plus Point-of-Service Plan (POS) and the Select Exclusive Provider Plan (EPO). The third medical plan is a fully insured Health Maintenance Organization (HMO) Plan through Kaiser Permanente. The prescription drug plan through Caremark is also self-insured. All other group health insurance plans are fully insured including two dental plans and a vision plan with three coverage levels. The Commission expenses (net of employee, Medicare Part D and retiree contributions) were for all group health benefits in fiscal year 2025. The basis for estimating incurred but not reported (IBNR) claims at year-end is an annual analysis performed by the Commission’s benefits consultant Aon Hewitt Consulting.

Premiums are paid into the Risk Management Internal Service Fund by the General Fund and Enterprise Funds and are available to pay claims, claim reserves and administrative costs of the Program. Claims paid during fiscal year 2025 totaled \$4,457,798. Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for IBNR claims which is determined annually

Notes to Financial Statements

based on an actuarial valuation. In addition, individual claim liabilities are established for each case based on the effects of inflation, recent claim settlement trends including frequency and amount of payouts and other economic and social factors.

Changes in the balances of claims liabilities during the past two years are as follows:

	Medical	Risk Management
Unpaid Claims, June 30, 2023	\$ 2,575,475	\$ 16,266,914
Incurring Claims, Fiscal Year 2024	31,357,681	4,723,604
Claims Paid, Fiscal Year 2024	<u>(31,107,680)</u>	<u>(5,338,229)</u>
Unpaid Claims, June 30, 2024	2,825,476	15,652,289
Incurring Claims, Fiscal Year 2025	39,242,937	7,439,420
Claims Paid, Fiscal Year 2025	<u>(38,971,043)</u>	<u>(4,457,798)</u>
Unpaid Claims, June 30, 2025	<u>\$ 3,097,370</u>	<u>\$ 18,633,911</u>

The medical column excludes expenses that are fully insured.

Unpaid claims reconcile to the amounts shown in the Statement of Net Position as follows:

	Medical	Risk Management	Total
Due within One Year	\$ 3,097,370	\$ 4,681,086	\$ 7,778,456
Due in more than One Year	-	13,952,825	13,952,825
Total	<u>\$ 3,097,370</u>	<u>\$ 18,633,911</u>	<u>\$ 21,731,281</u>

(B) – Related Party Transactions

The Commission was involved in the following related party transactions during fiscal year 2025:

Payments and Obligations to Prince George’s County – The Commission paid or is obligated to pay Prince George’s County for the following:

Permits & Inspection for M-NCPPC-DPIE	\$ 4,032,198
Dept. of Environ. Resources Zoning Enforcement and Inspection of New Construct.	1,287,300
Prince George’s Housing/Community Development	800,000
Prince George’s Economic Development	706,400
Geographic Information Systems - GIS	681,000
Prince George’s Finance/Treasury	608,900
Department of Environmental Resources - Water and Sewer Planning	310,600
Peoples Zoning Counsel (Stan Derwin Brown)	250,000
EDC - Economic Development for Enterprise Zone	48,750
Total	<u>\$ 8,725,148</u>

(C) – Contingencies

Grant Program – The Commission, as grantee or sub-grantee, participates in several Federal and State grant programs, which are subject to financial and compliance audits. The Commission believes it has complied, in all material respects, with applicable grant requirements and the amount of expenditures that may be disallowed by the granting agencies, if any, would be immaterial.

Litigation – The Commission is a defendant in various legal actions that fall into three major categories: those arising from the Commission’s planning and zoning powers, those arising from incidents occurring on the Commission

property, and those arising from personnel actions. The Commission's management and its General Counsel estimate that the resolution of claims resulting from all litigation against the Commission not covered by insurance will not materially affect the financial position or operations of the Commission.

(D) – Employees' Retirement System and Pension Plans

Defined Benefit Pension Plan

General Information about the Plan

Plan Description - The Commission sponsors and contributes to The Maryland-National Capital Park and Planning Commission Employees' Retirement System (the System), a single employer defined benefit public employee retirement plan. Benefit provisions and obligations to contribute to the plans and all other requirements are established by a Trust Agreement between the Commission and the Board of Trustees of the System which has been periodically amended since the System was established July 1, 1972. Accounting and financial reporting for the system is performed by non-Commission employees who are employed directly by the System. The System's financial records are not maintained on a separate county basis. The assets of the System are invested with the objective of ensuring sufficient funds will be available for meeting benefit payments. As the System's investment asset pool provides collectively for benefit payments of all five plans, the System is considered a single "pension plan" for purposes of financial reporting in accordance with GAAP. Publicly available Financial Statements that include management's discussion and analysis, financial statements and required supplementary information for the System can be obtained at the administrative offices of The Maryland-National Capital Park and Planning Commission Employees' Retirement System, 6611 Kenilworth Avenue, Suite 100, Riverdale, Maryland 20737.

Benefits Provided – Benefit payments for Plans A, B, C, and D are determined by the application of a benefit formula considering the average of an employee's annual base pay during the three consecutive years that produce the highest total earnings prior to retirement, and the number of years of credited service, up to 40 years for members of Plan A, 35 years for members of Plan B, 30 years for members of Plan C and 32 years for members of Plan D. Benefit payments in Plan E are determined by application of a benefit formula considering the average of an employee's annual base pay during the five consecutive years that produce the highest total earnings prior to retirement and credited service up to 35 years. Under certain conditions, participants may elect to take early retirement at a reduced benefit level. Joint and survivor options are also available under all the plans.

Prior to August 1, 1982, disability benefits were available under the plans. Effective August 1, 1982, applications for disability retirement benefits were discontinued. All members who were receiving disability benefits, or who applied for disability benefits prior to August 1, 1982, continue to be covered under the terms of Plans A, B, and C. All applications for disability benefits subsequent to August 1, 1982, are covered under the Commission's Long-Term Disability Insurance Plan, which is not part of the System.

On July 1 of each year, retirement income for participants retired at least six months is adjusted for changes in the cost-of-living as determined by the Consumer Price Index-All Items Annual Average, Urban Index for Major U.S. Cities (CPI). Plans A, B, C and D provide COLAS at 100% of the change in the CPI up to 3%, plus half of the change in the CPI in excess of 3%, up to a 5% maximum COLA for the portion of a member's benefit attributable to credited service earned prior to July 1, 2012, including earned and unused sick leave prior to January 1, 2013. The portion of a member's benefit attributable to credited service earned after July 1, 2012, including earned and unused sick leave on and after January 1, 2013, will be subject to a maximum COLA of 2.5%. Plan E provides COLAs at 100% of the change in the CPI up to a maximum COLA of 2.5%.

Effective July 9, 1986, the plans were amended to provide a \$10,000 post-retirement death benefit to beneficiaries of current and future retired members.

Effective September 1, 1988, the plans were amended to permit members to use up to a maximum of 301 days of earned and unused sick leave to meet the length of service requirements for retirement qualification.

Although the Commission has not expressed any intent to terminate the Plans, it may do so at any time. In the event that the Plans are terminated, beneficiaries receiving benefits at the date of termination shall be entitled to an allocation of the remaining assets based upon the relationship of each individual's actuarial reserve to total actuarial reserves, the balance to be allocated (pro rata) to the remaining members or beneficiaries.

Notes to Financial Statements

Employees Covered by Benefit Terms – As of July 1, 2024, membership in the System was as follows:

Active	2,349
Retired, Beneficiaries, and Disabled	1,935
Terminated Vested	223
Terminated Non-Vested	656
Total Participants	5,163

Contributions – The Commission has agreed to make actuarially determined periodic contributions sufficient to provide the ERS with assets for payment of pension benefits. The rate for the Commission’s employee group as a whole is expected to remain level as a percentage of annual covered payroll. The contribution rate is based on current service cost plus amortization of the unfunded actuarial accrued liability.

Employee contributions are established and amended by the Commission and set forth in the ERS’s Plan Document. Employees participating in Plan A contribute 7% of their base pay. Park Police participating in Plans C and D contribute 9% and 8%, respectively, of their base pay. Employees participating in Plan B and E contribute 4% of their base pay up to the Social Security covered wage base and 7% and 8%, respectively, thereafter.

Net Pension Liability

The net pension liability was measured as of June 30, 2025, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2024.

Actuarial Assumptions – The total pension liability of the Defined Benefit Pension Plan was determined by an actuarial valuation as of July 1, 2024, using the following actuarial assumptions, applied to all periods included in the measurement:

COLA: 2.25% compounded annually for benefits accrued until July 1, 2012, 1.90% compounded annually thereafter

Inflation: 2.50%

Salary Increases: Varies by adjustments service from 2.60% to 6.30% per year

Investment Return: 6.70%, net of investment expense and including inflation

Mortality rates were based on:

Actives

Non-Police: Pub-2010 General Employee Mortality Table [PubG-2010Employee], projected with generational mortality improvement from 2010 using Scale MP-2020 33% of deaths are assumed to be service related.

Park Police: Pub-2010 Public Safety Employee Mortality Table [PubS-2010 Employee], projected with generational mortality improvement from 2010 using Scale MP-2020 90% of deaths are assumed to be service related.

Healthy Retirees

Non-Police: Pub-2010 General Healthy Retiree Mortality Table [PubG-2010 Healthy Retiree], projected with generational mortality improvement from 2010 using Scale MP-2020.

Park Police: Pub-2010 Public Safety Healthy Retiree Mortality Table [PubS-2010 Healthy Retiree], projected with generational mortality improvement from 2010 using Scale MP-2020.

Disabled Retirees

Non-Police: Pub-2010 Non-Safety Disabled Retiree Mortality Table [PubNS –2010 Disabled Retiree], projected with generational mortality improvement from 2010 using Scale MP-2020.

Park Police: Pub-2010 Safety Disabled Retiree Mortality Table [PubS-2010 Disabled Retiree], projected with generational mortality improvement from 2010 using Scale MP-2020.

Beneficiaries

All Plans: Pub-2010 General Healthy Retiree Mortality Table [PubG-2010 Healthy Retiree], projected with generational mortality improvement from 2010 using Scale MP-2020.

The total pension liability as of June 30, 2025 is equal to the actuarial valuation as of June 30, 2024 using the Entry-Age Normal Actuarial Cost Method. Adjustments were made for the one-year difference, service cost, interest on total pension liability, and expected benefit payments during the year.

Prior to each actuarial valuation, the Board of Trustees reviews the investment rate of return assumption based on the future market outlook, the current asset allocation, and the Board’s risk tolerance. The investment rate of return was unchanged and remains at 6.70%.

Employer contributions are determined each year, based on an annual valuation of the System. The Entry-Age Normal Actuarial Cost Method is used for this purpose, with a 15-year open amortization of the unfunded actuarial liability, and a five-year smoothing of investment gains and losses.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each asset class, based on inputs from a survey of investment professionals. These allocations are combined to produce a long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which returns are simulated over a 30-year period, and a risk adjustment is applied to the baseline expected return. This method accounts for only expected returns, and adjusts for volatility of returns by asset class as well as correlations between the different classes.

Best estimates of geometric mean real rates of return for each major asset class included in the System’s target asset allocation, and the aggregate expected investment return assumption and expected risk, are summarized in the following table.

Asset Class	Target Exposure Return - Portfolio	Expected Real Return Return - Portfolio	Expected Risk
U.S. Equity	23.00%	8.40%	17.00%
International Equity- (non-U.S.)	11.00%	8.70%	18.00%
Private Equity	8.00%	9.90%	26.00%
High-Yield Bonds	9.00%	7.10%	11.00%
Bank Loans	5.00%	6.80%	10.00%
Private Debt	10.00%	9.10%	15.00%
Emerging Market Bonds Aggregate	3.00%	6.80%	7.00%
Investment Grade Bonds	14.00%	5.30%	4.00%
TIPS	4.00%	5.00%	7.00%
Real Estate	8.00%	8.50%	15.00%
Natural Resources (Private)	3.00%	9.20%	22.00%
Infrastructure (Non-Core Private)	2.00%	10.30%	2.00%
Total Fund	100.00%	8.31%	11.72%
Risk Adjustment		-1.61%	
Total Expected Return		6.70%	

Discount Rate – The discount rate used to measure the total pension liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Commission contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Therefore, the long-term expected rates of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Financial Statements

Changes in the Net Pension Liability

	Increase/(Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Balances at June 30, 2024	\$ 1,334,981,401	\$ 1,132,915,770	\$ 202,065,631
Changes for the year:			
Service cost	26,432,954	-	26,432,954
Interest	88,746,461	-	88,746,461
Differences between expected and actual experience	15,958,807	-	15,958,807
Benefit Payment, including refunds	(74,894,770)	(74,894,770)	-
Contributions - Employer	-	35,554,919	(35,554,919)
Contributions - Member	-	10,421,402	(10,421,402)
Net Investment Income	-	106,726,667	(106,726,667)
Administrative expenses	-	(3,017,657)	3,017,657
Net changes	56,243,452	74,790,561	(18,547,109)
Balances at June 30, 2025	<u>\$ 1,391,224,853</u>	<u>\$ 1,207,706,331</u>	<u>\$ 183,518,522</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following table presents the net pension liability of the Commission, calculated using the discount rate of 6.70%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1.00% lower or 1.00% higher than the current rate.

	1% Decrease 5.70%	Current Discount Rate 6.70%	1% Increase 7.70%
Net Pension Liability	\$ 353,684,213	\$ 183,518,522	\$ 41,596,885

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – For the year ended June 30, 2025, the Commission recognized pension expense of \$41,285,363. As of June 30, 2025, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 63,970,653	\$ 1,663,742
Changes in assumptions	12,720,636	-
Net difference between projected and actual earnings on pension plan investments	-	7,426,101
	<u>\$ 76,691,289</u>	<u>\$ 9,089,843</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	Net Amount of Outflow/(Inflow)
2026	\$ 34,562,635
2027	12,942,779
2028	11,296,892
2029	6,139,338
2030	2,659,802

Deferred Compensation Plans

The Commission offers its employees deferred compensation plans created in accordance with Internal Revenue Code Section 457. One plan, available to all career Commission employees, permits them to defer a portion of their salary to future years. The deferred compensation is not available to employees or beneficiaries until termination, retirement, death or unforeseeable emergency. The Commission also offers a separate deferred compensation plan to its officers and to the staff of the Employees’ Retirement System. These plans are not included in the financial statements.

(E) – Other Post-Employment Benefits (OPEB)

Plan Description – The Commission administers the Post-Retirement Insurance Benefits Program (the Plan), which is a single-employer defined benefit healthcare plan. In accordance with Commission approval, the plan provides post-retirement healthcare benefits to all full-time and part-time career employees, directors appointed by Montgomery County and Prince George’s County Planning Boards, Merit System Board Members, Commissioners, appointed officials and Employees’ Retirement System employees who retire under a Commission Retirement Plan or the State of Maryland Retirement Plan at the end of their Commission or System service, and who have been insured under any Commission-sponsored group medical plan during the three years immediately preceding the date of retirement or ability to prove similar coverage in another plan immediately prior to retirement. Benefit provisions and obligations to contribute to the Plan and all other requirements have been established by a Trust Agreement (the Trust) between the Commission and the Maryland-National Capital Park and Planning Commission Section 115 Trust Board of Trustees (the Board) which has been periodically amended since the Trust was established July 1, 1999. The Board consists of 5 individual trustees. The Commission appoints one trustee from the Montgomery County Planning Board and one trustee from the Prince George’s County Planning Board. The remaining trustees consist of the Commission’s Executive Director, Secretary-Treasurer and Human Resources Director. Separate financial statements are not issued for the Trust and the Trust’s financial records are not maintained on a separate county basis.

Employees Covered by Benefit Terms – As of July 1, 2024, membership in the Plan consisted of the following:

Retirees	1,979
Active plan members	2,072
Total	<u>4,051</u>

Benefits Provided – The Plan provides pre- and post-Medicare healthcare, prescription (provided through the EGWP program for post 65 retirees), and dental and vision benefits to retired employees and their dependents.

Contributions – The Commission contributes 80 percent of the amount of medical, prescription drug, and dental insurance rates and 80 percent of the low coverage option for all three coverage options of vision benefit rates. Retirees are responsible for the remaining 20 percent. Retiree benefits levels are established annually by resolution of the Commission.

Investments

Investment Policy – The Board has the responsibility of establishing and maintaining policies governing management of the Trust’s financial assets including: setting of investment policy, choosing an asset allocation to balance risk and return, selecting and evaluating professionals to manage those assets, communicating guidelines to those professionals and monitoring performance of the plan. The following is the Board’s adopted asset allocation policy as of June 30, 2025:

Asset Class	Target Allocation
Domestic Large Cap Equity	30%
Domestic MID Cap Equity	10%
Domestic SM Cap Equity	5%
Foreign Developed Market Equity	13%
Foreign Emerging Market Equity	7%
Real Estate	7.5%
Fixed Income and Cash	27.5%

Rate of Return – For the year ended June 30, 2025, the annual money-weighted rate of return on OPEB plan investments, net of investment expense, was 10.7%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Notes to Financial Statements

Net OPEB Liability –

The components of the net OPEB Liability as of June 30, 2025, are as follows:

Total OPEB Liability	\$ 591,724,009
Plan Fiduciary Net Position	198,823,625
Net OPEB Liability	<u>\$ 392,900,384</u>
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	33.6%

Actuarial Assumptions – The total OPEB liability was determined by an actuarial valuation as of July 1, 2024, using the following actuarial assumptions, applied to all periods included in the measurement:

Investment Return: 6.70%, net of investment expense and including inflation.

Healthcare Trend: 6.00% initially, grading down to 5.05% ultimate for medical and pharmacy benefits; 4.04% for both dental and vision.

Mortality Rates –

Healthy – Active:

General: Pub-2010 General Employees Headcount-Weighted Mortality Projected with Fully Generational MP-2021 Mortality Improvement Scale.

Police: Pub-2010 Safety Employees Headcount-Weighted Mortality Projected with Fully Generational MP-2021 Mortality Improvement Scale.

Healthy - Inactive:

General: Pub-2010 General Retirees Headcount-Weighted Mortality Projected with Fully Generational MP-2021 Mortality Improvement Scale.

Police: Pub-2011 Safety Retirees Headcount-Weighted Mortality Projected with Fully Generational MP-2020 Mortality Improvement Scale.

Disabled:

General: Pub-2010 General Disabled Retirees Headcount-Weighted Mortality Projected with Fully Generational MP-20210 Mortality Improvement Scale.

Police: Pub-2010 Safety Disabled Retirees Headcount-Weighted Mortality Projected with Fully Generational MP-2021 Mortality Improvement Scale.

The Entry Age Normal method is used for accounting purposes. Actuarial determined contributions are also based on the Entry Age method, with a 30-year level dollar amortization of the unfunded liability.

Best estimates of real rates of return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2025, and the final investment return assumption, are summarized in the following table:

Asset Class	Target Allocation	20 Year Arithmetic Nominal	20 Year Arithmetic Real	Product
U.S. Equity - Large Cap	30.00%	8.29%	5.74%	1.72%
U.S. Equity – Small/Mid Cap	15.00%	9.35%	6.78%	1.02%
Non-U.S. Equity - Developed	13.00%	8.96%	6.40%	0.83%
Non-U.S. Equity - Emerging	7.00%	10.63%	8.03%	0.56%
Real Estate	7.50%	7.59%	5.06%	0.51%
Fixed Income and Cash	27.50%	3.61%	1.17%	0.29%
Total	100.00%			4.93%
Inflation (M-NCPPC's assumption)				2.60%
Portfolio arithmetic return				7.66%
Portfolio variance				1.47%
Portfolio geometric return				6.92%
Difference between CAPM and discount rate				0.22%
Adjusted geometric return				6.70%

Discount Rate – The discount rate used to measure the total OPEB liability was 6.70%. The projection of cash flows used to determine the discount rate assumed that Commission contributions will be made equal to the actuarially determined contribution each year. Based on those assumptions, the OPEB plan’s fiduciary net position was projected to be available to make all projected benefit payments of current plan members. Therefore, the long-term expected rates of return on OPEB trust investments were applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Liability

	Increase/(Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balances at June 30, 2024	\$ 601,552,507	\$ 170,567,080	\$ 430,985,427
Changes for the year:			
Service cost	11,720,862	-	11,720,862
Interest	40,359,027	-	40,359,027
Experience Losses/(Gains)	(79,913,072)	-	(79,913,072)

Net changes	(9,828,498)	28,256,545	(38,085,043)
Balances at June 30, 2025	\$ 591,724,009	\$ 198,823,625	\$ 392,900,384

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate – The following presents the net OPEB liability of the Commission, calculated using the discount rate of 6.70%, as well as what the Commission’s net OPEB liability would be if it were calculated using a discount rate that is 1.00% lower or 1.00% higher than the current rate:

	Current		
	1% Decrease 5.70%	Discount Rate 6.70%	1% Increase 7.70%
Net OPEB Liability	\$ 476,051,343	\$ 392,900,384	\$ 324,636,681

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the net OPEB liability of the Commission, as well as what the net OPEB liability would be if calculated using a health care cost trend rate that is 1.00% lower or 1.00% higher than the current rate.

	Medical Trend		
	1% Decrease 3.04%	4.04%	1% Increase 5.04%
Net OPEB Liability	\$ 313,692,207	\$ 392,900,384	\$ 491,926,372

Notes to Financial Statements

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB – For the year ended June 30, 2025, the Commission recognized OPEB expense of \$49,966,300. As of June 30, 2025, the Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 37,424,618	\$ 73,999,756
Changes in assumptions	74,782,497	8,271,225
Net difference between projected and actual earnings on OPEB plan investments	-	6,450,897
	<u>\$ 112,207,115</u>	<u>\$ 88,721,878</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30	Net Amount of Outflow/(Inflow)
2026	\$ 14,861,680
2027	10,740,811
2028	6,004,430
2029	(2,196,334)
2030	(195,531)
After 2030	(5,729,819)

(G) – Implementation of New Accounting Standards

The GASB has issued Statement No. 101, *Compensated Absences*, and Statement No. 102, *Certain Risk Disclosures*, which took effect during FY 2025.

The Commission implemented Statement No. 101 during FY 2025 which did not have a material effect on the Commission's financial statements.

The GASB has issued Statement No. 103, *Financial Reporting Model Improvements*, Statement No. 104, *Disclosure of Certain Capital Assets*, and Statement No. 105, *Subsequent Events*, which will require adoption in the future, if applicable. The Commission will be analyzing the effects of these pronouncements and plans to adopt them, as applicable, by their effective dates.

⁽¹⁾ Covered payroll for FYE 2019 and later is as of the beginning of the year. Covered payroll for years prior to FYE 2019 is as of the valuation date one year prior to the beginning of the fiscal year.

Notes to Required Supplementary Information:

Valuation Date	July 1, 2023
Timing	Actuarially determined contribution rates are calculated as of the July 1 preceding the fiscal year in which contributions are made
Key Methods and Assumptions Used to Determine Contribution Rates for FY 2024:	
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level dollar, open 15-year
Asset Valuation Method	5 year smoothed market
Investment Rate of Return	6.70%, net of investment expense and including inflation
Salary Increases	Varies by plan and service from 2.60% to 6.30% per year
Cost of Living Adjustments	2.25% compounded annually for benefits based on credited service accrue up to July 1, 2012 and sick leave accrued until January 1, 2013; 1.90% compounded thereafter
Inflation	2.50% per year
Mortality:	
- Healthy - Active	General: Pub-2010 General Employees Headcount-Weighted Mortality Table projected with fully generational MP-2020 mortality improvement scale. Police: Pub-2010 Safety Employees Headcount-Weighted Mortality projected with fully generational MP-2020 mortality improvement scale.
- Healthy - Inactive	General: Pub-2010 General Retirees Headcount-Weighted Mortality Table projected with fully generational MP-2020 mortality improvement scale. Police: Pub-2010 Safety Retirees Headcount-Weighted Mortality projected with fully generational MP-2020 mortality improvement scale.
- Disabled	General: Pub-2010 General Disabled Retirees Headcount-Weighted Mortality Table projected with fully generational MP-2020 mortality improvement scale. Police: Pub-2010 Safety Disabled Retirees Headcount-Weighted Mortality projected with fully generational MP-2020 mortality improvement scale.
- Beneficiaries	General: Pub-2010 General Disabled Retirees Headcount-Weighted Mortality Table projected with fully generational MP-2020 mortality improvement scale.

Notes to Required Supplementary Information:**Key Methods and Assumptions Used to Determine Contribution Rates for FY 2025:**

Valuation Date	July 1, 2023
Actuarial Cost Method	Level percentage of payroll entry age normal cost method for the Plan's liabilities and normal cost
Amortization Method	The additional liability attributable to the Early Retirement Incentive (ERI) offered in 2010 is amortized over a 15-year closed period as level-percentage of pay. As of July 1, 2023, there are 2 years remaining. All future Early Retirement Incentives offered will be amortized over 2 years.
Remaining Amortiation Period	The Non-ERI unfunded liability is amortized as level percentage of payroll. The amortization period is closed and equals 25 years as of July 1, 2024.
Asset Valuation Method	Market Value of Assets
Investment Rate of Return	6.70%
Payroll Growth Rate	3.00%
Inflation	2.50%
Healthcare Cost Trend Rate	Trend for 2023 is 8.00%, 2024 is 7.50%, and ultimate trend is 3.78%

PART IIB

FINANCIAL SECTION

COMBINING STATEMENTS AND SCHEDULES

Special Revenue Funds

The Special Revenue Funds account for certain revenues which are dedicated by the Commission to certain purposes other than debt service and are used in general operations comprised of park operation and maintenance, recreation (Prince George's County only), and planning administration.

Debt Service Funds

The Debt Service Funds are used to account for the accumulation of resources and the payment of general obligation bond principal, interest, and related costs. The Commission maintains Park Debt Service and Advance Land Acquisition Debt Service Funds for each County.

The funds budgets are approved by the respective County Council only for the total of both funds

ENTERPRISE FUNDS

Enterprise Funds are used to account for facilities that are operated in a manner similar to private business enterprises, where the Commission's intent is that the costs of providing goods or services to the others (both external customers as well as some internal customers) will be recovered primarily through user charges.

Entrance to the Watkins Nature Center bird facility and outdoor turtle pond.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the consolidated financing of certain goods or services provided to other Commission funds on a cost-reimbursement basis.

Capital Equipment Funds

The Capital Equipment Funds (Montgomery County, Prince George's County, and CAS) are used to account for the acquisition of equipment for other Commission funds through the use of tax-exempt financing and/or user fees.

Risk Management Funds

The Risk Management Funds are used to account for the activity related to general liability, property damage, and workers compensation.

Largo Headquarters Fund

The Largo Headquarters Fund is used to account for the land acquisition and construction of the Largo Headquarters. The Fund will be used in the future for the cost of operations.

Executive Building Fund

The Executive Building Fund is used to account for the cost of operating the Executive Office Building in Prince George's County and was used to account for the renovation costs of that building which was acquired in February of 1992.

Employee Benefits Fund

The Employee Benefits Fund is used to account for the costs related to employees' life and health insurance coverage, and the flexible spending program.

Commission Wide IT Initiatives Fund

The Commission Wide IT Initiatives Fund is used to account for the acquisition of certain IT equipment and software which benefit the entire Commission. These purchases are financed by user fees to the participating Commission funds.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the Commission in a trustee capacity or as an agent for employees, individuals, private organizations, other governmental units, and/or other funds.

Pension Trust Funds

The Pension and OPEB Trust Funds are used to account for activities related to benefits for retired employees. This includes all activities of the Employees' Retirement System including accumulation of resources for, and payment of, retirement annuities and/or other benefits and the administrative costs of operating the system. This also includes

all activities related to the Commission's portion of medical costs of retirees.

Private Purpose Trust Funds

The Private Purpose Trust Funds are used to account for funds whose principal and interest must be expended in accordance with their designated purposes.

THE MARYLAND-NATIONAL CAPITAL PARK AND PLANNING COMMISSION

STATISTICAL SECTION

This part of The Maryland-National Capital Park and Planning Commission’s (Commission) Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the Commission’s overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends	125
<p>These schedules contain trend information to help the reader understand how the Commission’s financial performance and well-being have changed over time.</p>	
Revenue Capacity	130
<p>These schedules contain information to help the reader assess the Commission’s most significant local revenue source, the property tax.</p>	
Debt Capacity	134
<p>These schedules present information to help the reader assess the affordability of the Commission’s current levels of outstanding debt and the Commission’s ability to issue additional debt in the future.</p>	
Demographic and Economic Information	138
<p>These schedules offer demographic and economic indicators to help the reader understand the environment within which the Commission’s financial activities take place.</p>	
Operating Information	141
<p>These schedules contain service and infrastructure data to help the reader understand how the information in the Commission’s financial report relates to the services the Commission provides and the activities it performs.</p>	

Sources: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

*FY19 Planimetric Capture added new categories resulting in a one-time bump in edits. These included all sidewalks, patios, driveways, and a new hydrologic, farm and pastures update.

**There are two sources of GIS edits, in-house and purchased every third year. FY20 edits are completed in-house.

***Large amount is due to this year being a Contour and Planimetric 3-year delivery.

****Decrease is due to a change in calculation. Average is only based off of visitors to Montgomeryplanning.org, MontgomeryPlanningBoard.org and MCAtlas.

Photo Cover: Prince George's County

Cover Photo –Prince George's County Marlow Heights New Community Center -Originally built in 1961, the Marlow Heights Community Center served the community for over half a century before closing in 2023 to undergo major capital improvements. The new state-of-the-art facility is designed to meet the diverse recreational and leisure needs of the community. As a direct response to the input received from the Marlow Heights community, the center is a modern, inclusive, and community-focused hub for all ages, interests, and abilities. Spanning more than 20,000 square feet, the new community center features a large weights and fitness room, group fitness studio, three multipurpose rooms, spacious lobby – all designed with an emphasis on inclusion and accessibility. The facility also includes a regulation basketball gym that can convert to volleyball or pickleball courts with spectator seating. Outdoor amenities include a 5,000-square-foot inclusive playground, a 1,500-square-foot splash pad, newly surfaced tennis and pickleball courts, walking trails, ample parking, and spaces designed to showcase and enjoy public art.
