Item 4. Committee and Board Reports

- a) Employees' Retirement System Board of Trustees Regular Meeting Minutes from July 7, 2026 (for Information Only)
- b) Employees' Retirement System Education and Experience Study Report

As detailed in the packet, Patrick Nelson of Cheiron discussed the Education and Experience Study Report, which reviews actuarial assumptions used to calculate liabilities and set contribution levels. Actuarial assumptions are divided into economic assumptions, which include salary increases, inflation, administrative expenses, COLA, and discount rate; and demographic assumptions, which include mortality, retirement, termination, disability, unused sick leave, and marriage. These assumptions are updated every five years to ensure that the assumptions reflect actual experience or expected future trends. The changes take into consideration historical gains and losses, Unfunded Actuarial Liability changes, and future expectations. The changes from the Study discussed today will be adopted for the June 30, 2026, actuarial valuation.

Proposed Assumption changes for park police Plans C and D, and non-police employee plans A, B, and E include updated retirement and mortality rates.

Janet Cranna, also from Cheiron, discussed the Economic Assumptions Discount Rate, noting that the Employees' Retirement System Board of Trustees reviews the investment return assumption on a yearly basis, specifically risk tolerance, industry trends, plan maturity, and historic experience. Currently, the investment return assumption is 6.7%. Based on asset allocation the probability of achieving a 6.7% return over 10 to 20 years is approximately 50%.

Ms. Cranna discussed the funding policy and amortization, noting that the funding objectives are to provide sufficient assets for benefit payments, maintain generational equity, and minimize contribution volatility. Assets are valued at market and actuarial values and include a five-year smoothing period to stabilize funding status and contribution requirements. If the actuarial value is less than Actuarial Liability, the plan has an Unfunded Actuarial Liability, which must be paid down or amortized as part of the funding of the plan to spread gains and losses over a period of 15 years so that the funding of the Plan is stable.

The funding policy consists of the sum of amortization of the Unfunded Actuarial Liability and normal cost and expenses. The current contribution policy is to pay the sum of the Unfunded Actuarial Liability payment plus normal costs at the end of the year, including interest.

In response to Chair Harris's question regarding the current percentage of the employee pension plan that is funded, Ms. Cranna noted that the current funding ratio is valued at approximately 88%.

Item 3. Consultant/Manager Presentations

Item 3.A. Meketa Investment Group

Item 3.A.i. Q2 2026 Investment Performance Report

Ms. Mustard reviewed the Q2 2026 fiscal year-end investment performance report. She reported that capital markets experienced a strong second quarter, driven by resilient corporate earnings, moderate inflation, and positive market sentiment. She noted that while there was slight underperformance relative to the policy benchmark during the quarter, the Employees' Retirement System achieved strong absolute returns.

Total plan assets were approximately \$1.3 billion as of June 30, 2026. The Total Fund returned 12.7% for the fiscal year, compared to 13.0% for the policy benchmark. The majority of asset classes produced positive returns, with domestic and international equities contributing strongly to overall performance.

Ms. Mustard reviewed the fund's watch list and reported that no managers currently warranted watch list status. She further noted that passive investment managers continued to closely track their respective benchmarks.

Item 3.A.ii. July 31, 2026 Investment Performance Report

Ms. Mustard reported that as of July 31, 2026, total plan assets remained approximately \$1.3 billion, and the Total Fund returned -0.7% for the month.

The Board discussed the high-yield bond allocation and the performance of Polen Capital. Ms. Mustard stated that Polen's recent underperformance was attributable to several individual holdings and that Meketa continues to monitor the manager regularly. She indicated no material concerns for Polen Capital.

In response to questions concerning private equity performance, Ms. Mustard reiterated that relative performance between private and public markets tends to move in cycles and emphasized the importance of maintaining a long-term investment perspective. She emphasized that private equity remains an important component of the portfolio and continues to offer diversification benefits despite recent periods of relative weakness.

Item 3.A.iii. Unicorns Reconsidered

Mr. Lally presented an educational session entitled "Unicorns Reconsidered". He explained that a "unicorn" refers to a privately held company valued at more than \$1 billion.

Mr. Lally noted the recent trend of increased attention surrounding large private companies, including SpaceX, OpenAI, and Anthropic, and the anticipated pipeline of future initial public offerings (IPOs). He discussed the evolution of the unicorn market, observing that these companies are no longer rare, with approximately 1,700 companies currently meeting the definition.

Mr. Lally reviewed the history of companies designated as unicorns and explained that the label alone has not reliably predicted long-term success. He noted that while some companies, such as Uber and Airbnb, became large and successful public companies, many others did not achieve comparable outcomes.

Historical IPO performance was compared to newly public companies. IPOs have generally underperformed the broader market over the most recent three-year period. Mr. Lally explained that large technology companies with established revenue streams have historically demonstrated stronger post-IPO performance.

Mr. Lally also discussed changes in capital markets that have blurred the distinction between private and public companies. He explained that a growing share of economic activity now occurs within private markets and that large private companies are increasingly incorporated into market indexes shortly after becoming public.

Mr. Lally emphasized that the ERS gains broad exposure to private market opportunities through its diversified private equity program and, subsequently, through public market index exposure once companies become publicly traded. He advised Trustees against attempting to select or pursue individual IPO opportunities and reiterated the Board's fiduciary responsibility to focus on long-term investment objectives, prudent risk management, and strategic asset allocation.

Item 4. Committee Reports/Recommendations

Item 4.A. Audit Committee

Mr. Cohen reported that at the August 4, 2026 meeting the Audit Committee met with newly appointed auditors, CliftonLarsonAllen, LLP, regarding the FY2026 audit. During the meeting, the auditors reviewed the FY2026 audit plan, the engagement team, audit scope, timeline, and the respective responsibilities of the auditors, management, and governance. Mr. Cohen noted that the Committee identified no areas of concern and that the auditors indicated the audit remains on track for completion within the established schedule.

Item 4.A. Administration and Personnel Oversight Committee

Mr. Cohen reported that the Personnel Committee met on August 20, 2026 for a special meeting to discuss and review the proposed amended ERS FY2027 Operating Budget. The proposed changes add \$293,000 to the budget and include operational and administrative improvements as recommended by The Segal Group following their organizational study. After discussion, the Personnel Committee came to a consensus to move forward with recommending the amended FY2027 Operating Budget of \$3.8 million, or a 3.7% increase over FY2026, to the Board for approval.

Action: Mr. Spencer made a motion, seconded by Ms. Gogol to Approve the Amended FY2027 ERS Operating Budget of \$3.8 million. The motion Passed 10-0. Motion #26-31.

Item 5. Executive Director's Report

Ms. Harris reported that staff will attend the Retirees' Annual Fall Picnic on September 15, 2026. She also informed the Board that staff are in the process of preparing the Annual Comprehensive Financial Report (ACFR) for the auditors' review. In early August, staff submitted June 30, 2026 actuarial data to Cheiron for the preparation of the annual actuarial valuation report, which is expected to be presented to the Board at its November meeting. Ms. Harris also noted that internal communications within the ERS have been enhanced through the implementation of a monthly staff newsletter, with two editions distributed to date.

Item 6. Closed Session

Action: At 10:51 a.m., Ms. McCarthy made a motion, seconded by Ms. Gogol to go into closed session under authority of the General Provisions Article of the Annotated Code of Maryland Section 3-305(b)(5) to consider matters directly concerning the actual investment of public funds under the authority of this Board. The motion Passed 10-0. Motion #26-32.

Board of Trustees in Closed Session: Vice Chair Hedrick, Sheila Morgan-Johnson, Connor Klein, Tanya Hankton, Anton White, Caroline McCarthy, Pamela Gogol, Gavin Cohen, William Spencer, and Lisa Blackwell-Brown.

TO: Commissioners

FROM: Mazen Chilet, Chief Information Officer

DATE: October 21, 2026

SUBJECT: Chief Information Officer Report - 3rd Quarter 2026 - Open Session

Enterprise Resource Planning (ERP) Update

ERP Modernization - New ERP Project

Quarter 3 Executive Summary

- During the third quarter, the Commission transitioned from procurement to implementation readiness, executing agreements with Workday as the ERP platform and Guidehouse as the implementation partner.
- The New ERP Project Executive Baseline and Strategic Roadmap was developed as the primary reference for the project's history, direction, scope, governance, budget, resources, milestones, training, and future priorities.
- Implementation preparation progressed through governance refinement, Program Manager onboarding, Base Camp planning, data and integration readiness, change management, communications, and training planning.

Expanded Executive Sponsorship and Departmental Accountability

- At the September 23, 2026, Department Heads meeting, the Department Heads and Executive Director agreed to add the four operating Department Heads or their designees as permanent members of the Executive Sponsors Group.
- The Executive Sponsors Group now includes the Human Resources Director, Secretary-Treasurer, Chief Information Officer, and the Department Heads from Montgomery Parks, Montgomery Planning, Prince George's Planning Department, and the Prince George's County Department of Parks and Recreation.
- This expanded model aims to strengthen enterprise ownership, provide operating departments with a formal role in strategic direction and major decisions, and reinforce shared accountability for scope, budget, readiness, adoption, and outcomes.
- Guidehouse and Workday will provide implementation guidance, technical expertise, and industry best practices. Commission governance bodies remain responsible for decisions and internal approvals.

Governance and Cross Department Participation

- The ERP Steering Committee remains the primary cross-functional forum for decisions and escalations related to configuration, workflows, priorities, business processes, risks, and milestone readiness. The Program Manager escalates issues affecting objectives, outcomes, schedule, scope, or cost to the Executive Sponsors Group.
- An Innovation Team is being formed with functional leads and subject-matter experts from all departments. The team will identify process improvements, automation opportunities, and operational gaps, and submit recommendations to the Steering Committee.
- Departments confirmed Steering Committee representatives for the implementation phase, which will begin with Base Camp and the Innovation Team, based on operational expertise and their ability to represent departmental needs

Implementation Readiness and Schedule

- Finance, Human Resources and Management, and OCIO identified implementation support and backfill needs. Staffing and onboarding will follow the detailed project plan and approved budget.
- The ERP project maintains an approved budget authority of \$14 million. Financial reporting will continue to strengthen through consistent budget baselines, detailed expenditures, and regular performance reporting for executive stakeholders.
- The Commission will establish benefits measurement so it can assess productivity, service, adoption, and operational outcomes after deployment.

Project Resources, Financial Stewardship, and Benefits

- Finance, Human Resources and Management, and OCIO identified implementation support and backfill needs. Staffing and onboarding will follow the detailed project plan and approved budget.
- The ERP project maintains an approved budget authority of \$14 million. Financial reporting will continue to be strengthened through consistent budget baselines, detailed expenditure, and regular performance reporting for executive stakeholders.
- The Commission negotiated an estimated \$2.4 million reduction in Workday subscription costs over ten years. Benefits measurement will be established so productivity, service, adoption, and operational outcomes can be assessed following deployment.

Workday Learning and Change Readiness

- Departments were invited to identify staff for Workday Rising 2026 and Base Camp so functional experts and future system users can build product knowledge and contribute to discovery and design discussions.
- Change management and training planning are being integrated into implementation readiness to support role-based learning, leadership communications, stakeholder participation, and sustained adoption across the Commission.

Enterprise Systems, Security, and Accessibility

Operational Continuity

The OCIO continued to support the Commission's existing Infor/Lawson, HR, payroll, benefits, procurement, reporting, and UKG environments while preparing for the Workday platform. OCIO will

provide operational continuity, legacy system integrations, data retention, security, reporting, and transition support to keep critical services stable throughout deployment and cutover.

Cybersecurity and Digital Accessibility

- OCIO will serve as the Commission's technology gatekeeper, ensuring that security, privacy, role-based access, auditability, and third-party risk management remain core ERP requirements and are incorporated into discovery, design, testing, and readiness activities. The OCIO team will focus on enabling successful delivery through technology, integration, security, data management, and operational readiness.
- The team will continue to review digital accessibility requirements in employee-facing content, training materials, reports, and implementation communications.

Looking Ahead

- Launch Base Camp discovery and confirm the detailed implementation work plan, participant schedule, decision pathways, and deliverables.
- Operationalize the expanded Executive Sponsors Group, including the four operating Department Heads or their designees, and document decision rights and escalation responsibilities.
- Finalize Steering Committee and Innovation Team membership, participation expectations, and cross-department reporting practices.
- Advance data, integration, reporting, security, testing, training, communications, change management, and operational readiness workstreams.
- Maintain transparent budget, staffing, schedule, risk, and benefits reporting for Commissioners, Executive Sponsors, Department Heads, and other stakeholders.
- Finalize and announce a new, permanent name for the ERP program before implementation begins in January 2027. The name will establish a consistent program identity for communications, engagement, and change management throughout implementation and after go-live.
- Continue supporting current enterprise systems and services while preparing for implementation beginning in January 2027 and go-live targeted for April 2028.
